1	IA		IRA	Pension				I should feel good about my investments.
2	NC	401k						It is important to me that investors support alternative energy
3	NC		IRA	Pension				'Retirement Security' is a Lifeline for millions of elderly retirees, and our government needs to get behind any law that protects and defend the worker class's future, finances and health.
4	CA						Other Investments	"It is always the right time to do the right thing."- Dr. Martin Luther King Jr.
5	CA	401k	IRA		Stocks	Bonds		"Put your good where it will do the most", standardized info will help us choose.
6	CA		IRA		Stocks	Bonds		"Wall Street" must take responsibility for its role in climate change--which means disclosing to the public and investment analysts all investments in fossil fuels and other environment-threatening substances and processes.
7	LA	401k	IRA					(a) To provide complete information on corporate risks. (b) To hold corporations accountable for their climate and environmental impact(s), and their contribution to the Climate Crisis. (c) To hold corporations accountable for their harm to indigenous and BIPOC communities.
8	WA		IRA	Pension	Stocks	Bonds	Other Investments	[Other = mutual funds] Because I am working with my financial advisor to move as much of my portfolio as advisable to climate-conscious funds, divest from fossil fuel- and industrial agriculture-related companies, and avoid greenwashed investments that "sound good." My portfolio is just big enough to support a comfortable retirement if I spend carefully, so I am a small investor.
9	MD	401k	IRA					1) Climate change & its affiliated dangers are science fact, not science fiction. 2) Aside from the oil conglomerates, Wall St. is the biggest perpetrator of fossil fuel expansion. 3) If we don't stop fossil fuel extraction NOW, our children & grandchildren are doomed, and will say that WE knowingly doomed them die to apathy & greed. We must be better than that.
10	CA		IRA	Pension	Stocks	Bonds	Other Investments	1929 must never happen again.
11	NY		IRA				Other Investments	403(b) not-for-profit retirement accounts must be protected!
12	AL		IRA	Pension			Other Investments	403B and Mutual funds
13	AK						Other Investments	503b
14	FL		IRA			Bonds		A climate disaster could very well wipe out my investments. I would prefer to know where my money is being invested so I can reallocate it elsewhere to avoid such an outcome.
15	KS	401k	IRA	Pension	Stocks			A company & its investors are both at risk unless it's climate stance & policies are public knowledge.
16	WV		IRA		Stocks	Bonds	Other Investments	A company's failure to plan for the obvious and inevitable impacts of climate change on its bottom line (indeed, its very viability) render it less than useless as a long-term investment opportunity. Public companies need to make such plans, and a mandate to make standardized information regarding their relevant plans will not only strongly encourage their compliance in thinking ahead for the benefit of themselves and the US and world's economic future. Further, investors have a right to know about the risks which these companies are subjecting their shareholders to, and about the risk mitigation planning which these public companies are undertaking--or, for that matter, avoiding.
17	CT		IRA	Pension				A foundational principal of capitalism is access to true information. This should be a requirement.

18	KS		IRA	Pension				A level playing field! I can see no reason why the small individual investor should get left in the dark while the affluent get richer.
19	CA		IRA		Stocks		Other Investments	A recent study showed that the fossil fuel industry is in danger of losing trillions of dollars over the next decade and a half due to stranded assets, and the burden of that loss is likely to fall on individual investors. We must know the risks we are facing.
20	AL		IRA					Ability to choose to buy stock in companies that are focused on mitigating climate change, not accelerating it.
21	NJ		IRA					Absolutely needed for FULL transparency.
22	NY	401k			Stocks	Bonds		Accountability
23	CA	401k	IRA		Stocks	Bonds		Accountability
24	WA		IRA	Pension				Accountability for their impact on our future
25	CT		IRA		Stocks		Other Investments	Accountability is a positive thing!
26	CA				Stocks	Bonds		Accountability is imperative !
27	IL	401k	IRA	Pension	Stocks			Accountability is important to me as an investor
28	NJ	401k					Other Investments	Accountability to peoples retirements is crucial to promoting the general health & welfare.
29	PA	401k	IRA	Pension	Stocks	Bonds	Other Investments	Accurate and complete annual mandated standardized information must be made available to investors that includes climate-related financial risks in order for us to be able to make informed decisions about our investments. This critical and non-negotiable.
30	CO		IRA		Stocks	Bonds	Other Investments	Action on climate change is urgent. Corporations need to take a leading role.
31	CA		IRA		Stocks	Bonds		Action on Climate is critical. I want to be informed about climate effects from my investments.
32	VT			Pension				Addressing climate change is the most urgent need of our time, and you have an opportunity to make a positive difference.
33	FL	401k						After contributing for over 30 years to several 401K retirement funds managed by various companies, there was only one that allowed even one green option and one offered one "socially responsible"investment option. I find this totally unacceptable.
34	HI	401k	IRA		Stocks	Bonds		After serving in the military in the Vietnam era....I worked 40 years to save for retirement and pay taxes...I deserve to have my retirement assets protected !!!!!!!
35	NY	401k						All aspects of American business and governemnt must be transparent. How can the public vote, make thoughtful purchases, or have intelligent discourse if we do not know? Climate change is an exitential threat to us all and we need to make well informed decisions if we hope to survive.
36	OR		IRA	Pension	Stocks	Bonds		All businesses must rescue the world from climate change. Without them the climate change fight can not be successful.
37	NY		IRA	Pension				All businesses need to make their first priority the planet. Full stop.
38	WA			Pension			Other Investments	All citizens deserve access to this information to make the best decisions the can for their future. We deserve transparency!
39	NY		IRA	Pension	Stocks	Bonds		All companies bear some responsibility for climate risk and it is incumbent on all of us including companies to aim for a regenerative planet.
40	PA		IRA	Pension	Stocks	Bonds		All companies must be transparent and the SEC must have strong guidelines to protect public servants' investment accounts!
41	NV	401k	IRA		Stocks			All companies need to disclose their commitment to saving the environment.
42	CA		IRA		Stocks			All companies need to evaluate and disclose their empact on our climate. Then take steps to reduce their footprint.

43	CA	401k		Pension	Stocks			All companies should be in line with the many companies who are looking at the climate-related financial risks - it is part of the economic picture and costs of a company and their impact just like any other impact to a community and a city and a state and a nation. It must be done and is part of the solution for us to protect our communities for future generations.
44	NH			Pension	Stocks			ALL companies should be required to let all consumers know what environmental risks their businesses create for Americans and THE WORLD!
45	FL	401k	IRA					all companies should have to report climate impact
46	PA		IRA	Pension	Stocks	Bonds		All consumers must be aware of this significant risk taking by corporations.
47	CA				Stocks	Bonds	Other Investments	all in gentle care of Earth (I don't have the choice to be able to invest sustainably)
48	MN		IRA	Pension	Stocks	Bonds		All investments should have a risk assessment. When investing in Fossil Fuels, everyone should by now know the global calamity that is already happening to the disintegrating climate, affecting eight billion people who depend upon a stable climate for our very lives. It could be that continuing with fossil fuel investments is tantamount to financial and investment management malpractice.
49	MN			Pension				All investors should be able to know the climate risks in their investments and should be able to better see how they can invest in projects and companies that are less exposed to and not contributing to climate change or any risky unproven technologies such as CSS; unstable land means unstable carbon and biomass and biofuels also release release and cause emissions. To better safeguard our planet, earthly life and future generations, the SEC should do all it can to help mandate, encourage and/or support far more investments in: extreme weather resilience for people, infrastructure and local food; true renewables such as wind and solar; sustainable and regenerative local food production that protects ecosystems, health and biodiversity; more energy efficiency; efficient recycling of products, etc. Thank you.
50	CA				Stocks	Bonds		All investors should be afforded access to such information
51	PA	401k	IRA					All investors should have access to information about these risks, and an opportunity to shift to investments that are safer both for our retirement and for the climate.
52	CO	401k			Stocks	Bonds		All investors should have all information related to their investments particularly those related to risk.
53	PA	401k			Stocks	Bonds		All investors, regardless of income or connections, deserve to have full information about climate-related financial risks. This information must not be hidden from the public!
54	DE						Other Investments	All means must be taken to disinvest from energy sources that require extraction and burning of fossil fuels. We are perpetuating the greatest intergenerational injustice in human history. We have to turn to clean, renewable energy sources now!
55	NM						Other Investments	All my money is invested in socially responsible funds, carefully vetted in terms of the environment, how employees are treated, how they deal with their waste.
56	DC		IRA	Pension				All of human life if dependent on our climate. I grew up on a farm and learned the significance of the weather on our livelihood. Now that I am retired my livelihood depends on the health of my investments. We ' need annual, mandated standardized information about public companies climate-related financial risks.
57	NJ		IRA		Stocks	Bonds	Other Investments	All pollution risks should be disclosed, because they are likely to affect profits & losses.
58	MA		IRA		Stocks	Bonds		All public companies have an obligation to the general public to disclose both their contributions to climate change and the steps they are taking to mitigate it.
59	OH	401k	IRA	Pension	Stocks			All reports should be easy to interpret

60	GA		IRA		Stocks		Other Investments	All risk is necessary information for making sound financial investment decisions. As climate change risk exposure increases for many companies, it is imperative that this projected level of risk is disclosed, just like any other market risk. Period. End of discussion.
61	PA		IRA	Pension	Stocks	Bonds		All the money in the world won't help me if the world is not habitable.
62	OK	401k						Allowing companies to withhold information about climate change related risks to my investments does not inspire confidence and faith in my retirement savings plan as a reliable vehicle for securing my future. If the SEC doesn't move to protect the interests of people like me, I'll find other avenues for doing so.
63	IN				Stocks	Bonds		Although I was in finance & banking for 25 yrs, I am not an expert in retirement accounts. I need the information outlined and mandated in order to make my plans and not get ripped off.
64	CT				Stocks		Other Investments	Although we have managed accounts, one of which is my husband's SEP, anything going on in the mkt is deleterious to one's investments & retirement. Poor actions are damaging to our financial health.
65	CA			Pension	Stocks			Am divesting from fossil fuel stocks wherever possible to turn around the fossil fuel system and develop a renewable sustainable alternative energy system.
66	FL	401k	IRA	Pension	Stocks	Bonds		Am on SS too and pay taxes
67	IN		IRA		Stocks			American Funds
68	WA			Pension				American politics and policies must be open to the public because corruption is killing us all.
69	NY		IRA					Americans deserve to know what they are financing through funds they have earned over their lifetimes. They also deserve to know about climate related risks to their investments.
70	TN	401k			Stocks			Americans must be provided the information necessary to exercise their investment choices in a manner that will steer our future toward a healthy and habitable planet, not just the immediate financial returns¬†that the capital market recognizes and rewards. The continued profitability of fossil fuel companies is incompatible with a habitable Planet Earth, and any entity or person or entity that invests in coal, oil, or gas companies is therefore placing a financial wager upon the destruction of Planet Earth. Such grossly immoral behavior by a company is incompatible with the values of many of their would-be shareholders, were this information generally available. The first and foremost interest of all human beings is in a habitable planet, without which no amount of money is relevant. The pathetically cramped notion of investors as concerned only with quantifiable monetary returns is a denial of their full humanity, and the panoply of other values that may be adversely impacted by the behavior of the companies in which they invest.
71	NY		IRA	Pension	Stocks	Bonds		Americans must have transparency. It's the right thing to do.
72	CA	401k		Pension				An assessment of climate risk is as essential and non-negotiable as an assessment of the company's current current assets and fiscal debt obligations.
73	IL	401k	IRA					An informed person makes better choices in regard to investments.
74	VA						Other Investments	An informed Public can make better decisions.
75	HI	401k						Annual, mandated standardized information about public companies' climate-related financial risks will help those companies to incentivize the necessary transition to greener energy technologies. Otherwise, people will stop investing in them because of their high risk. Green investing is the future.
76	NY		IRA			Bonds	Other Investments	Annual, mandated standardized information about public companies' climate-related financial risks would provide individuals, families and investment advisors with valuable information that could be used to avoid financial loss and best manage portfolios. I support such a mandate.

77	FL						Other Investments	Annuity
78	NV						Other Investments	ANNUNITIES
79	KS	401k	IRA		Stocks		Other Investments	Any and all information related to anyone's investment should be fully disclosed.
80	VA	401k	IRA	Pension	Stocks	Bonds	Other Investments	Any financial risk that may be reasonably expected to impact public companies should be disclosed, including climate-related financial risks. I remember many years ago when the National Bank of Washington (NBW) in DC went out of business, the employees who had contributed to the company retirement plan lost ALL their money because the plan had invested ALL of its resources in NBW stock, which had become worthless. Most of employees had no idea this was the case. It was a devastating loss for them.
81	TX			Pension			Other Investments	Any fool can blindly plunge (and maybe get lucky), but risk is a major investment consideration (particularly if it's going to be large or long-term). Climate change contribution and exposure, publicly available reports, makes sense.
82	OR						Other Investments	Any foreseen devastating risk should be disclosed. This one is new, and so no one is currently covered. I never even thought about it!
83	NY		IRA	Pension				Any investment vehicle should, at minimum, be required to disclose activities that fund fossil fuels, green house gas emissions, and forever pollutants. The recipient of investment funds must also disclose all soft or hard political contributions and contributions to text exempt propaganda organizations that are used to lobby the people's government for policies contrary to the individual investor's preference. The investor has the right to decide how to value the future health not only the investor, but the environment. The investor has the right to prohibit use of funds that violate the investors values and not prioritize the short term monetary gains the majority of which accrue to company management and majority, controlling share holders. Any investment vehicle that deprives the individual investor of this power is wage theft, a violation of individual speech and property rights. Any employer which requires mandatory participation in any retirement instrument that investments in these companies AND any government debt instruments that exist only to subsidize tax breaks for the wealthy at the expense of the future government efficacy should be, for the same reasons, illegal. Employers should be required to fund Social Security and retirement plans in which the individual and no one else decides where the money goes.
84	FL	401k						Any transparency helps!!
85	CA	401k	IRA					Anyone who invests in these companies should have the right to know this information in order to make a well-informed decision regarding whether they want to invest in such companies.
86	NJ	401k	IRA					As a 32-year-old, I do not expect to retire for a few decades. By then, if we fail to take action on climate change, I will not have a livable world to retire into. It is long overdue for asset managers to account for this simple fact when deciding whether to continue to invest in and enable the fossil fuel projects that are destroying our planet.
87	IL		IRA		Stocks	Bonds		As a basis for investing or deinvesitng, the investor should have access to climate-related financial risk along with other factors.
88	CA		IRA	Pension				As a CalPERS retiree, I am disturbed that CalPERS investments in fossil fuels have already cost us millions in lost opportunity to invest in better companies that don't have these same risks.

89	NY		IRA	Pension	Stocks			As a Climate activist who is a retired teacher with 3 wonderful grandchildren, I am in favor of anything that will move the needle on climate. I also have investments that I would like to see preserved, as they are supposed to support me in retirement. Climate change is a threat to business.
90	CO			Pension				As a climate activist, it is very important to me all public companies need to do their part to save Mother Earth. Humans are entering the brink of extinction, as well as plants, animals, and sea creatures.
91	NY		IRA	Pension				As a concerned citizen I want to know if my money is being used to finance climate disruption and pollution.
92	TX	401k			Stocks			As a consumer and an investor, I want to be able to make informed choices with my money. Since it has been ruled that spending money is a form of free speech, I think that it's very important that we have access to information to allow us to use that speech in a way that is inline with our values.
93	CA	401k	IRA	Pension	Stocks	Bonds		As a CPA (inactive) I have seen first-hand the importance of mandated, standardized information about company risks. Without such information, as an investor, I am unable to compare companies to make informed decisions about my capital allocations. This is no different than common-sense disclosures around money laundering, supply chains, compensation, etc.
94	FL	401k	IRA	Pension	Stocks			As a disabled woman who retired in my 40's due to my disability, I deserve to know the risks that my investments have due to climate change and this disclosure is important to me.
95	MD		IRA					As a future parent and a teacher, the planet we're giving to the next generation is constantly on my mind. It is essential to me to know whether the companies I support share this goal or are trading our long-term future for short term gain.
96	HI		IRA		Stocks	Bonds		As a long term investor(more than 50+ years), it has ALWAYS been my practice to pick those that DO NOT HARM THE CLIMATE/ENVIRONMENT. This is more crucial now than ever before!!
97	NC	401k	IRA		Stocks	Bonds		As a long-term investor, climate change is the biggest risk I see. Climate risks (e.g. extreme weather), energy transition risks (e.g. stranded assets), and climate change mitigation plans are all central to my investment decisions. The SEC was created to provide the market with consistent transparency around the risks of an investment decision, and it must act according to that duty.
98	NY		IRA		Stocks	Bonds		As a member of the international Climate Psychology Alliance and a trained Climate Reality Project leader in NY State, it is not enough to prepare people for the increasingly devastating effects of the unfolding climate catastrophe on their mental health and physical safety. I must also demand transparency in companies' reporting of climate-related financial risk-taking with workers' hard-earned retirement savings. This information must be provided annually, standardized, and mandated.
99	NJ	401k			Stocks			As a modest individual saver I do not have the ability to acquire such information on my own. Therefore I'd appreciate government help.
100	PA	401k	IRA	Pension				As a moral issue, I don't want to have anything to do with entities that are causing climate change.
101	CA		IRA					As a mother and a grandmother, I am very concerned about the future livability of our planet.
102	NY	401k			Stocks	Bonds		As a mother and a physician I see the impact of climate change on our children and communities every day. For most Americans the manner in which we manage our money and investments is the most impactful way we can address the climate crisis.

103	IL		IRA	Pension	Stocks	Bonds		As a public community college professor, I have a pension as well as my own IRA account and some bonds. I am concerned that the companies that are invested in are not disclosing any climate-related risks. Therefore I support the SEC's new proposed climate-related financial risk disclosures, including a company's vulnerability to climate change and current greenhouse gas emissions. I feel that the SEC should also require companies to reveal plans to protect investors (and their retirement savings) from these risks. To further strengthen these disclosures for investors, I would welcome the SEC's consideration to also have companies provide disclosures focused on environmental justice, Indigenous rights, a just transition for dislocated workers, and community-level impacts. This would provide investors much better transparency about companies to invest in or not. Thank you.
104	MA		IRA	Pension			Other Investments	As a public school teacher, for both moral and financial reasons I don't want my pension fund nor my 403(b) savings invested in the fossil fuel industry.
105	MI						Other Investments	As a retired teacher I have funds in a 403b. I am worried about what my money is funding.
106	IA			Pension				As a retired worker depending on socially responsible investments to protect pensioners like me, I am very nervous about continued and reckless investing in increasingly risky climate destabilizing companies.
107	NC	401k	IRA	Pension	Stocks			As a retiree and a person who has multiple financial investments and who is also a grandmother, I feel it is my responsibility to make sure that public companies that I am invested in are truthful about what they are doing to support the climate crisis in this country. I no longer want my money to support a denial of the climate crisis we are in that will leave a world to my grandchildren that is unworthy of them.
108	OR		IRA	Pension	Stocks			As a retiree, I am concerned!
109	CA		IRA	Pension				AS A SENIOR I DEPEND UPON MY SOCIAL SECURITY TO AUGMENT MY IRA, VA HEARING LOSS, & SMALL RETIREMENT.
110	CA		IRA	Pension	Stocks			As a senior I would not be able to recover from substantial economic losses from investment in companies at high risk from climate disasters.
111	CO	401k	IRA					As a small business owner, and someone who cares about future generations, I want to know where my hard earned investment dollars are going.
112	CA	401k	IRA	Pension	Stocks	Bonds	Other Investments	As a small investor, I have limited access to information about the climate-related financial risks of the companies in which I invest. I'm counting on the SEC to help ensure companies provide this kind of info.
113	AZ		IRA		Stocks	Bonds		As a stockholder -- current or potential -- I want to know which companies recognize and care about the current and future environment of our world. I believe that requiring an annual report about this care is important, and that it is fundamentally the same as expecting quarterly/annual financial data.
114	OR	401k		Pension	Stocks			As a stockholder, I should know what risk, including climate risks, the companies I invest in are both aware of and preparing for. The companies that I own have a fiduciary responsibility to keep me posted of those risks.
115	IL	401k						As a young person, I'm profoundly afraid of the clear and certain danger that climate change poses to my future. It horrifies me that my savings for retirement are being invested in actively making climate change worse by burning fossil fuels. Public companies must be accountable to their investors for their contributions to deadly climate degradation.
116	VA	401k	IRA		Stocks			As always, transparency is key. The old saying that "sunshine is the best disinfectant" applied here.
117	OR	401k	IRA					As an "owner" I'm entitled to full disclosure.

118	AR		IRA	Pension				As an American, I am truly worried about the effects of climate change and its effects upon our financial systems & pensions & so forth! Any advice? Please help all Americans & residents in this country! Appreciate that very much!
119	AZ			Pension				As an Arizona state employee, I'm enrolled in the Arizona State Retirement system (ASRS.)
120	WA		IRA	Pension				As an environmentally motivated voter and consumer, I make decisions on the basis of their affect on the climate crisis and I need to have the facts on which to base my decisions.
121	NY	401k		Pension	Stocks			As an individual I can control the types of stocks in which I invest. However, TIAA-CREF is an enormous company providing retirement options for thousands of workers. I have had choices about whether I put my entire portfolio with them, but I need information about their overall practices. Individual stocks are one thing, but the weight of the wealth carried by TIAA/CREF is another. As an "investor" I deserve complete and transparent information about the harms and risks in climate change. I am exhausted by the extent to which financial services firms work overtime to avoid transparency and honesty.
122	CO		IRA	Pension	Stocks			As an individual investor I buy well managed companies. Spending money on fossil fuel companies is a set up for long term failure. Even more importantly, my pension with California Pers is ultimately all I have in my retirement. If they are investing in projects and companies that cause climate change, the more their investments will fail.
123	NY		IRA	Pension	Stocks	Bonds		As an informed investor, I require insight about a public company's vulnerability to climate change and current greenhouse gas emissions. I also require companies to reveal plans to protect investors (and their retirement savings) from these risks. I am also concerned for the proposed rule to be stronger, by including disclosures around environmental justice, Indigenous rights, a just transition for dislocated workers, and community-level impacts.
124	TX			Pension	Stocks	Bonds		As an investor I cannot make rational choices about companies unless information is transparent. As a person who reads widely, not confining myself to a narrow range of subjects, I'm aware that climate change is upon us and escalating much faster than most in the business and investment world realize. I need to be able to learn what to invest in, and what to divest from, to protect my portfolio and not least, to protect my 29-year-old child's future. This also impacts my brokers' ability to act on my wishes and instructions.
125	WA		IRA					As an investor I care where my money goes and do not want to contribute to the climate disaster
126	CA		IRA	Pension	Stocks			As an investor I have a right to know, and if is important for the environment.
127	CT	401k	IRA	Pension	Stocks			As an investor I need the risk assessment of climate in my financial plan.
128	MI	401k	IRA	Pension	Stocks	Bonds		As an investor I need this information.
129	AZ		IRA	Pension	Stocks	Bonds		As an investor I want all the information I can get before investing in a company. The net effect of these disclosures will be that firms increasingly invest in resilience in order to claim that they are making progress in limiting their risk exposure. As these firms demand new solutions to their challenges, new entrepreneurs will appear to supply them. In this sense, the SEC disclosure rules will help to accelerate adaptation so that fewer sectors will be vulnerable to extreme weather events.
130	MA	401k	IRA	Pension	Stocks	Bonds		As an investor I want to know a companies assessment of climate related financial risk so I can take appropriate action on my part.
131	MD					Bonds		As an investor I want to know about all risks, and as a citizen of this planet I want to know how I am impacting communities and the environment!

132	IN		IRA					As an investor it is my opinion that I am entitled to know as much about the fund(s) and Corporations I am invested or potentially investing in as possible so I can decide where to invest my hard earned savings.
133	MA	401k			Stocks	Bonds		As an investor, I believe I have a right to know the full risks-- including climate-related risks-- associated with whatever investment products are being offered to me.
134	NM		IRA		Stocks	Bonds	Other Investments	As an investor, I have a right to know about companies' climate-related financial risks. This information will factor into my investment decisions. It is past time for the SEC to adopt this disclosure rule.
135	IL		IRA		Stocks	Bonds		As an investor, I need to understand the risks and benefits of company's I follow. I want to know if a company is fraudulent, misleads the public, or produces products or services that are harmful. Understanding Scope 3 effects are essential to this. I'd also like to know about political donations - how is this not bribery?
136	PA	401k	IRA		Stocks			As an investor, I would like to be aware of what impact the companies in which I choose to invest have on the environment.
137	CA	401k	IRA		Stocks	Bonds	Other Investments	As an investor, I would like to have informaiton of concern to me, such as informaiton on a company's response (or lack of response) to climate change, among other issues, and not just information on spread sheet data management thinks I should be concenred with or aligns with management's compensation package crirteria or its own business strategy and "values." Just because a company's management wishes to be narrow minded should mean I must be as well.
138	NY	401k		Pension	Stocks			As an investor, I would like to know all the risks my investments face, including climate related.
139	CA			Pension	Stocks	Bonds		As an investor, it is essential that I receive information about the companies that I invest in, particularly when it comes to their impacts on climate change.
140	WV	401k						As an investor, it's important to me that this information be included along with other required financial disclosures about risk.
141	NC	401k	IRA		Stocks	Bonds		As an investor/potential investor, I should have direct information about the various companies and their climate related activities. I should be able to digest from companies who are not environmentally mindful.
142	MA		IRA	Pension	Stocks			As climate change causes more and more disruption and expensive damage, investors need to know how vulnerable to disruption their investments are.
143	UT		IRA	Pension				As climate crisis becomes a very really thing, we as investors need to be more informed to make sure the companies we are investing in are acting in our best interest. By being more informed we can transfer it funds that uphold our values related to climate related financial risks.
144	CA				Stocks			As climate events continue to worsen, it will become increasingly necessary for governments to intervene and take premptive measures against the activities of companies that are exacerbating climate destruction. As an investor, it is as vital that I know the degree to which a company is engaged in activities which might be shut down as it is to know the level of a company's debt.
145	CO	401k		Pension				As first warned about by oil companies' own scientists in the late 1970s, I am wildly concerned about hydrocarbon effects on global warming, which are now at hazardous levels. We are on the brink of disaster and I do not want to participate in it. I want to encourage solutions.
146	MD	401k	IRA		Stocks			As I move into retirement, protecting these funds is of the utmost highest priority.

147	CA	401k	IRA	Pension	Stocks			As I prioritize my daily purchases, habits and preferences based on environmental impact as an investor it would be useful for me to know how the companies I invest in are affecting climate change. It would influence my investment choices moving forward and could do so for others. Once companies see this is action they will be more likely to themselves become more climate-conscious.
148	NJ	401k	IRA		Stocks	Bonds		As individuals we have few opportunities to make a difference, but companies have the tools to have asignficant impact.
149	AZ		IRA		Stocks			As investors we need to know in order to make informed decisions.
150	OR	401k		Pension				As investors, we are entitled to know how companies deal with climate change.
151	MA				Stocks			As it stands now, I am going to need to do my own research. I do not wish to own anything that contributes to our climate crisis or that may lose my retirement money due to it's financial risk-taking. At my age, this is difficult for me. I can not afford to lose any of my money, as my social security is almost non-existent...due to most of my jobs not taking taxes out. I am currently unable to work due to physical limitations, and am not financially secure.
152	MN		IRA	Pension			Other Investments	As long as banks and other organizations continue to invest in, i.e., fossil fuels, they are investing in climate destruction/harm. Those organizations should not be allowed to hide such on investment strategies. I will not invest in climate destruction either directly or indirectly. Banks and other investment organizations need to be accountable to the people they supposedly serve.
153	WA			Pension	Stocks		Other Investments	As one who inherited stocks and cash from my mother's trust when she passed away, I find myself torn between the reality of the climate crisis we face and the depressing fact that most corporate executives and investors put maximizing profits and share price overwhelmingly ahead of active participation in putting forward sound proposals to try and mitigate rapid climate change. The world is on fire and businesses continue to sit on the sidelines.
154	CA		IRA		Stocks			As someone who has worked in the corporate world for 10+ years, I urge companies to reassess their impact to the very environment that sustains our existence. I urge all companies to reflect on how theh can support planet and people over profit.
155	NY	401k	IRA					As someone who is expecting to retire in 30+ years, it's hard to even wrap my mind around the idea of saving for retirement in the midst of climate breakdown. Our world is going to look completely different in 30 years. Will these financial assets even have meaning or value at that point in time? We need to act NOW to immediately end the use of fossil fuels, invest in green energy and protective measures to ensure that everyone can keep living on this planet equitably, and transition to an economy that is focused on thriving rather than on growth. I would love to have a safe and peaceful retirement. I would love to save and invest money to make sure that happens. But right now we are on a dangerous path. Fewer and fewer people are going to want to invest when there's no guarantee we'll even have a livable planet when it's time to retire.
156	CA						Other Investments	As someone who is trying to mitigate my own contributions to climate change, knowing about the climate related financial risks of my investments is crucial. With this knowledge, I can better choose where to invest my money so that it is being used in a responsible way that does not further hurt our planet.
157	CA		IRA	Pension	Stocks	Bonds		As stockholder I should know this information!

158	AZ				Stocks		Other Investments	As stockholder I want to know the companies position on and activity on climate related financial risks.
159	OR						Other Investments	As the owner of an annuity, I care about how that money is used. I would be grateful to have information to be able to steer my accounts toward investment for the general good.
160	NJ	401k	IRA					As they say, Inquiring minds want to know!
161	CA	401k	IRA					As we age it's important we are financially secure because we'll be too elderly to start over financially. We may have or develop dementia, less mobile and all of the other things that our human bodies may experience as we age. Financial security is life!
162	CO	401k	IRA					As we make deposits in our retirement accounts as investors, we need to be informed of the climate related risks and, more importantly, understand the pollution each company is responsible for so we can make wise investments in our future and our childrens' futures to ensure a livable climate and healthy air.
163	WA	401k		Pension				Aside from simple ethics, I want my pension and 401k to be as safe as possible, since I am retired.
164	TN	401k		Pension				At 82, I don't want my retirement funds to make our young peoples'lives any harder. Climate change is probably the greatest threat they face.
165	MD		IRA	Pension	Stocks	Bonds		At my age, I'm living on all those I have marked YES
166	PA	401k	IRA		Stocks			At some point we're going to have to deal with the climate change problem. When it happens I don't want my retirement funds to take a big hit because we are invested in the wrong companies. Seems to me, the hit will come sooner than later. Divest now.
167	WV		IRA		Stocks			At this point, climate chaos is a given. It's unacceptable for companies to not have to disclose their climate-related risks.
168	MA				Stocks			At this time it is essential that we know the policies our investments may be supporting.
169	MI	401k	IRA	Pension		Bonds	Other Investments	Average people need protections, assistance, and representation from the predatory financial and investment industry practices, fraud, misrepresentations, and trickery.
170	NY	401k	IRA		Stocks			B/C every decision human beings make must go through the filter climate friendly, embodied energy, least footprint possible long term thinking! Like yesterday!
171				Pension	Stocks			Banks are badly misleading us.

181	OR		IRA		Stocks	Bonds		Because climate change makes most investments less valuable over time
182	CO		IRA		Stocks	Bonds		Because climate change mitigation costs money and might adversely affect profits, too many men have sold their souls for money regardless of the damage caused. Now that it's almost too late, they need to take climate change seriously and act for the good of the planet.

183	NY		IRA					Because Climate is now one of the biggest risks in investing

187	CA		IRA	Pension	Stocks	Bonds	Other Investments	Because for intelligent investing it can't just be "let the buyer beware" because we have the right to know what information can help us or hurt us. When Senators play the stock market with insider information, (supposed to be illegal) and Corporations keep many secrets that should be information we can access, something must be done to share relevent information to investors and potential investors.
188	CA		IRA	Pension				Because greed runs rampant, habits are hard to change for the better & companies' don't always have my/our best interests at heart, they're too interested in the bottom line, but our health & that of our environments are the REAL bottom line.
189	NC	401k	IRA					Because I am losing money.
190	CA		IRA	Pension	Stocks			Because I do not want to be part of companies's climate-related impact, I want to know yearly what each company I have investment in are doing in relationship to this issue. 200	TX	401k					Other Investments	Because I would like my grandchildren to have a healthy earth to live on.
201	IL	401k						Because if climate change gets exponentially worse, it'll be because big corporations put massive profits over helping to save the planet and coincidentally the PEOPLE who live on it, period end of story.
202	FL	401k			Stocks			Because if they are not exposed, nothing can be done to repair or stop the damage being done which is very necessary for future generations to survive.
203	MI		IRA					Because if what companies are doing is contributing to climate change then we need to make sure that we do everything in our power to make sure that what they do doesn't cause climate change or cause it to worsen.
204	CA	401k	IRA	Pension				Because in order to tackle this massive proble, it takes everyone. Anyone that contributes to the problem must be part of the solution .

209	CA	401k	IRA		Stocks			because it matters !! companies need to accountable
210	RI	401k	IRA	Pension	Stocks	Bonds		Because it should not require a law degree to decipher financial statements to help you understand the content of a financial statement.

212	WA	401k	IRA	Pension	Stocks	Bonds		Because it's about the livability of Planet Earth - our quality of life for many generations to come. We need wise investment of public and private infrastructure - transportation, energy production and transmission, communication, etc

236	NY	401k	IRA	Pension	Stocks	Bonds		Because time is running out to save the planet, and stockholders can put pressure on companies to make decisions that will help the environment. 250	MA			Pension	Stocks			Being aware of risks affecting everyone's future in investment decisions is paramount.
251	MA			Pension				Being fully informed of how my pension funds are invested and what their carbon footprint is makes the retirement system accountable to the public and gives us pensioners leverage to urge the system to divest where needed.
252	AL	401k						Being younger and just starting my 401(k) I will likely live through some climate catastrophe that brings about some type of reform which could negatively impact my 401(k) when I'm at or near retirement age significantly reducing my ability to retire at a reasonable age.
253	CO	401k	IRA	Pension				Benefiting from the ability to invest helps no one if the planet can't sustain life.

258	CA	401k	IRA		Stocks	Bonds		Big business has ruled our financial industry for too long.

259	TX	401k			Stocks			Burning fossil fuels creates carbon dioxide, a greenhouse gas that heats the Earth. As a result, we have more wildfires and more destructive hurrlcanes. Half of Florida will be below sea level if the glaciers melt too much.
260	OR		IRA	Pension	Stocks	Bonds		Business has driven the climate crisis. Business must help end it.
261	FL		IRA		Stocks	Bonds	Other Investments	Businesses are profiting by distorting our climate
262	BC			Pension				Businesses benefit from externalizing environmental costs which the public and the planet are unfairly expected to absorb, so it makes sense that these businesses should assume their climate related costs and report transparently on the associated financial risks.
263	WA	401k	IRA					By the time I retire this information will be more important than ever to the prospects of the planet and also my investments. I deserve to be able to put my money in investments that are not actively hiring the planet because they will become increasingly more risky

283	CA	401k	IRA		Stocks	Bonds	Other Investments	Climate change and the risk associated with it is going to catch up to us all. Don't delay the reporting of climate risk!

284	NJ		IRA	Pension				Climate change and the significant financial risks it presents are already real today and will only worsen tomorrow. As individual investors concerned about these risks and who are committed to creating a thriving economy that sustains, not degrades life on this planet, we do not have nearly the authority or leverage that the SEC can bring to bear on public companies to require them to move towards minimization of climate-related financial risk. Please use your authority and leverage to effect positive chance while there is still time to do so. Thank you!
285	MA		IRA		Stocks	Bonds	Other Investments	Climate change contains risks for investors. Like other risks that companies are mandated to report in their prospectus, climate change should be also addressed.

As investors, we need to be able to make informed decisions for our financial health and the health of the earth.
293	CO	401k	IRA	Pension	Stocks	Bonds	Other Investments	Climate change is a challenge we must meet head on! I have learned that over the years the fossil fuel industry has been about exploiting our planet for the benefit of greedy CEOs who earn 350% more than their lowest paid workers. They have ripped into the soil of our planet for coal, oil, gas, etc. without a thought of long-term damage. They do not return the soil to its natural condition that sustains our natural habitats. Fracking has endangered families, contaminated water supplies, all being done without the consent of those harmed. I am in the process of reviewing securities that are guilty of exploitation and will be changes!

301	ME	401k	IRA	Pension	Stocks	Bonds	Other Investments	Climate Change is a huge risk this century; perhaps the biggest risk of the century. I worked hard for 50 years to provide for my secure retirement. Climate change is becoming a huge risk. I/we must be informed what it might do to our investments.
302	ME	401k					Other Investments	Climate change is a long-term process, unfortunately. If it happened faster, more noticeably, we would not have the problem of climate change deniers. Nevertheless, it is real, and consumers have the right to know how vulnerable their investments are to it, and what, if anything, the investees are doing to mitigate the problem.

311	MA		IRA	Pension				Climate change is a train wreck happening in slo-mo and if all of us can start pulling in the same direction NOW then our grandchildren's lives will be much safer.
312	NC	401k						Climate change is a very real problem, and investors have a right to know if their money is supporting super polluters or promoters and suppliers of non renewable energy.

317	CA		IRA		Stocks			Climate change is already having far-reaching impacts across our society and having data about its likely impacts on companies' assets and long-term business outlook is essential for investors to make informed decisions and protect the wellbeing of our economy. Part Two of the Intergovernmental Panel on Climate Change's (IPCC's) Sixth Assessment Report, Climate Change 2022: Impacts, Adaptation and Vulnerability (https://www.ipcc.ch/report/sixth-assessment-report-working-group-ii/), released on 2/28/22, warns the extent of losses and damages will escalate with every additional increment of Global Heating and lists the mounting dangers to people, wildlife, ecosystems and economies in the millions & billions of people at risk, and the potential damages in the trillions of dollars. Climate change is already creating significant instability and disruption in our financial and economic systems which will only worsen. Implementation and enforcement of a strong climate risk disclosure rule will give investors like me the tools we need to protect our investments and hold companies accountable for reducing heat-trapping emissions.
318	VA	401k	IRA	Pension	Stocks			Climate change is altering economic reality and must be included in any meaningful assessment of financial risk.
319	CA	401k	IRA	Pension	Stocks	Bonds		Climate change is an enormous threat and investors must have this information to make informed decisions.

We should have the right to know whether our investments are causing harm to the Earth systems that humanity depends upon
328	NY							Climate change is an existential threat. Financing climate change risk is support for an EXISTENTIAL threat. How stupid and shortsighted can we be?
329	CA			Pension				Climate change is an existential threat. It won't benefit anyone to be wealthy if the planet's not habitable.

330	OH	401k		Pension				Climate change is currently and will increasingly in the future impact the risk involved in financial investments. It is important that investors have this information. This will also cause public companies to pay more attention to their climate risks and climate impacts. In this time of climate emergency, this is critical.
331	CA	401k	IRA	Pension	Stocks	Bonds		Climate change is destroying many landforms, animals, and our whole ability to live. Money will do us no good if we can't live to spend and enjoy it, so I want to know about companies that I invest in and how they are dealing with this issue.
332	AZ		IRA	Pension	Stocks	Bonds		Climate change is for real, and the financial consequences are growing exponentially. Investors need to know what climate change expenses companies are facing.
333	CA	401k						Climate change is getting bad and growing worse. We want to know which companies are doing their best to reduce climate change and which ones aren't so that we consumers can invest accordingly.
334	VA	401k	IRA					Climate change is going to change the way America does business and companies that refuse to change will suffer in the long run. Small/retirement investors like me need to know companies' climate change related risk.
335	CA	401k	IRA	Pension				Climate change is going to have many negative impacts on the economy. Already we are seeing the impact of massive floods and fires on insurance companies. Fossil fuel companies and utilities will have to adapt or fail, and so far they are not showing any true signs of adapting and preparing for the future. Anyone who invests in the stock market has the right to an honest, realistic analysis of how this will affect the individual stocks and bonds in our portfolios.
336	CA	401k						Climate change is happening as we write to you. Companies need to take Responsibility for creating BAD Environmental Impacts everywhere on the Globe. Too many folks for Too Many Years have falsely believed that there was "Responsible" investing when Global DESTRUCTION was and is ACTUALLY happening. When We are All Gone You Will Be Too. Stop the Destruction of OUR EARTH, Water, and AIR.
337	CO		IRA	Pension	Stocks		Other Investments	Climate change is here and is worsening, whether we believe it or not. I want my investments to be safe from companies that are sticking their heads in the sand and hoping to get away with short-termism.
338	MD				Stocks	Bonds		Climate change is here, and continuing to ignore the economic costs is irresponsible and morally wrong.
339	WI	401k					Other Investments	Climate change is inescapable. Creating this rule is part of our ability to adapt to it. To remain agile as an economy, we must adopt this rule.
340	OH		IRA	Pension	Stocks	Bonds		Climate change is not gong away and will only get worse. I see this measure as a way to urge companies to adopt climate-friendly policies and not support those that harm the climate.
341	CA	401k			Stocks	Bonds		Climate change is not only rapidly approaching, it is already upon us. This existential threat will have drastic impacts on the world around us, and that Most Certainly will include how corporations and entities operate (and profit). 343	PA		IRA	Pension	Stocks			Climate change is now affecting every life on this planet and public companies need to support our efforts to limit climate related risks. They should provide annual, mandated standardized information about companies' climate-related financial risks.
344	CA	401k		Pension	Stocks			Climate Change is of utmost importance

345	MD	401k	IRA					Climate Change is one of the most important issues facing America and the World Today. Businesses should be required to specify their climate related affects and risks in public reports to allow investors to understand how the company interacts with the Earth's environment.
346	WI	401k	IRA	Pension	Stocks		Other Investments	Climate change is our #1 existential problem. Address it or else the planet burns and we all burn with it.
347	SD	401k	IRA	Pension	Stocks			Climate change is our biggest threat and it is a threat on many levels. I can't adequately evaluate investment risk if I don't know about public companies' climate-related financial risk.
348	CA		IRA	Pension	Stocks	Bonds		Climate change is our most urgent issue, and is largely funded by fossil fuels. We need to stop funding dirty fossil fuels & energy, investing instead in clean energy.
349	MA	401k	IRA		Stocks	Bonds		Climate change is perhaps the most compelling threat to the well-being of future generations. Responsible monitoring of contributions to climate change are essential if we are to contain this threat.
350	AZ		IRA					Climate change is real & must be dealt with!
351	IL		IRA	Pension				Climate change is REAL and we need to do everything necessary to slow it down.
352	CA	401k	IRA	Pension				Climate change is real and will have enormous costs for addressing damages. It is good fiduciary practice to insist that companies include costs related to mitigating climate change and/ or addressing damage.
353	WA		IRA	Pension			Other Investments	Climate change is real, dangerous and must be addressed. I want to be able to be sure my investments are made with companies that are not contributing to worsening our planet survival. Therefore I need investment instruments to have full disclosure policies.
354	WI	401k	IRA					Climate change is real, it's here, and it's only going to get worse unless we do something about it right now. It is almost too late to fix, so immediate action is needed. This cannot wait any longer.

364	CA	401k		Pension				Climate change is the existential challenge not currently taken sufficiently into account by many investors and companies. This needs to change and investors need to get the needed information to make sustainable and sensible investment decisions.

365	CA	401k			Stocks			Climate Change is the existential crisis and the absolute most important issue of our time. We all must do our part to ensure that we can avert this disaster by 2030. Public companies bear a great responsibility in getting us to a zero-carbon or net zero state since they are either invariably the largest polluters or are in the best position to have substantial impact and bring about meaningful positive change. It is crucial that public companies are mandated to share their climate-related financial risks to the public so that the market can be better equipped to evaluate, price, and manage those risks; and companies can make informed, data-driven decisions regarding where to invest their capital.
366	WA	401k	IRA		Stocks			Climate change is the major issue of our time, and perhaps of all human history. We simply must do everything in our power to leave our children a livable planet.
367	NE		IRA		Stocks			Climate change is the most critical issue our planet is facing, everyone, especially corporations should be held accountable for fighting to slow the death of our planet. There is certainly no good reason, absolutely negligent for not having climate action plan in their corporations, state & local governments & all higher education institutions. They should be required by law to disclose their carbon footprints & how they plan on rectifying any infractions. They don't have to believe in it to be responsible, after all in 10 years the world will be in chaos & it won't matter, only thing we will be doing is trying to survive.
368	CA		IRA	Pension			Other Investments	Climate change is the most important issue on this planet which will be gone in about thirty years if we don't act immediately. I want no part of my money being invested in companies who are profiting from the destruction of the eco systems of this world. It may already be too late for our planet but it's not too late for us to stop accelerating the pace of destruction .
369	PA		IRA		Stocks	Bonds		Climate change is the most important issue. I don't want to be contributing to companies who act like it doesn't exist.
370	WA		IRA	Pension	Stocks			Climate change is the most important on-going issue we have. Corporate interests absolutely need to address it as a real concern before we cause the next extinction event.
371	NY	401k					Other Investments	Climate change is the most important risk to our world, more important than any individual's financial future.
372	MA	401k	IRA	Pension	Stocks	Bonds		Climate change is the single biggest challenge currently facing the human race. I want visibility into how the companies in which I invest are affecting it and are affected by it.
373	WA		IRA	Pension	Stocks	Bonds	Other Investments	Climate change is the single most important issue in our world.
374	CA	401k	IRA	Pension	Stocks	Bonds		Climate change is very likely to cause significant disruption of profitability for companies that don't take action to reduce their vulnerability to the effects of climate change. Investors need to know what companies are doing to prepare.
375	CA				Stocks	Bonds		Climate change is/will be so important to continuing life on earth. These companies should participate.
376	IA		IRA	Pension				Climate change isn't just two words, it is a serious threat to our planet and humanity that we will all have to deal with. How publicly held companies deal with climate change will affect us all for years to come.
377	NY	401k	IRA	Pension	Stocks			Climate change mitigation demands that every segment of society must work together to counter anything that exacerbates the profound environmental harms of climate change.
378	SC		IRA		Stocks	Bonds		Climate change must be addressed. Legal, enforced requirements are the only means to force some, recalcitrant corporations to act.
379	CO	401k	IRA	Pension				Climate change must be slowed. I do not want my money being used to degrade the environment also my money needs to be protected. My husband and I are dependent on our savings. They need to be protected.

380	CA		IRA					Climate change needs to be taken into account as a risk factor by all companies. Pretending it isn't a risk by ignoring it doesn't make it go away.
381	MN	401k			Stocks			Climate change poses a great near and long term threat to human civilization. Companies must disclose their full risk and contributions to the problem (and solutions!).
382	NH	401k	IRA		Stocks	Bonds		Climate change poses enormous risk to my investment portfolio. In order for me to select investments wisely, I need visibility into the companies' climate practices and risks. Please create a level playing field by creating the transparency that I need as an investor.

386	CT		IRA	Pension				Climate change related risk is a large factor now, and will become a greater factor as climate change continues. As such, corporations must report their exposure to it, as they must for other kinds of risk. It's necessary for investors to be able to understand the level of risk they will have if they invest in a company.
387	CA	401k	IRA		Stocks	Bonds		Climate change represents a significant risk to the economy, investors should have access to information on how their investments are effected by a changing climate
388	CO		IRA		Stocks	Bonds		Climate change risk is not being accounted for properly by pension and fund managers. There are long tail climate risks with catastrophic potential for life and the global economy that cannot continue to be ignored. Insurance and financial markets cannot appropriately account for risk when they fail to price in low (but non-zero) probability events that the best available climate science says is quite possible with current decarbonization trajectories and tipping points.
389	NC	401k	IRA					Climate change threatens us all - no amount of money will eliminate or mitigate the coming disaster. Failure now results in future suffering.
390	NY		IRA		Stocks	Bonds		Climate change will affect everything, including profits and losses for companies that do not help reduce their carbon footprints or who support those that are contributing to the problem. Investors deserve to know.

439	WA	401k	IRA		Stocks	Bonds		Climate risk and indigenous rights are crucial for accounting financial risks.
440	OH	401k					Other Investments	Climate risk is a material factor in my investment decisions. Individual companies and fund managers are in the best position to assess current and future risks to equities and portfolios. Given the significant impacts from weather events during the pas few years, any failure to prepare a good faith assessment of climate risk is tantamount to a failure to disclose a material risk to the investment.

456	CO	401k	IRA		Stocks			Climate risks will play a larger and larger role going forward, it would be good to know the exposure of companies I'm investing in
457	CA	401k		Pension				Climate scientists have confirmed, global warming is directly related to the burning of fossils fuels. Climate change is a real threat to our health and economic sustainability. Financial investment disclosures should include a company's vulnerability to climate change and current greenhouse gas emissions. The financial risks of investing in projects and companies without full transparency increases too, putting retirement savers, & hard-earned dollars in jeopardy. Action is needed now, requiring full disclosure of a company's climate-related financial risks.
458	OH		IRA	Pension	Stocks	Bonds		Climate-destroying companies need to know that we're watching and making investment decisions based on what we see (or don't see) them doing. Potential loss of business is the only thing that speaks to most companies, unfortunately.
459	CA				Stocks			Climate-related financial risk is extremely relevant and material to my investments and I would urge mandated disclosure as soon as possible.

460	MA		IRA	Pension				Climate-related financial risk is non-linear, and can shift catastrophically in a very short time. I expect my investment companies to plan for that risk, act responsibly, and be transparent in disclosure. Anything else is disingenuous, and a shirking of fiduciary ethics.
461	ME			Pension	Stocks			Climate-related financial risk poses great danger to individuals' essential pension money. Please help us to protect or savings and pensions from this risk.
462	OR						Other Investments	Climate-related financial risks (as well as the host of other climate-related risk) cannot be ignored. The general risk factor for our planet is increasing, our challenges are increasing. We need all the useful tools we can get. Mandated standardized information about public companies' climate-related financial risks are needed.
463	MD	401k	IRA	Pension			Other Investments	Climate-related financial risks are increasing as climate change worsens and extreme weather events become more common and severe, but it is difficult for me and for many investors to get reliable and comparable information on those risks when making investment decisions.

465	TX		IRA					Climate-related financial risks can effect value of investments.
466	OH	401k	IRA	Pension				Climate-related financial risks could grow to existential proportions in some sectors and because climate risks are global every company has some exposure. Frequent standardized information would help investors manage this risk.
467	OK	401k	IRA	Pension	Stocks	Bonds		Climate-related financial risks for public companies must be shared annually with those who may be affected adversely by them (in all fairness, that is?).
468	CA		IRA	Pension	Stocks	Bonds		Climate-related financial risks matter for all. Climate-related disruptions of our agricultural system matter for the survival of all. The intersection of informed choices about financial risks and informed choices about the survival of our species deserves the attention of all.
469	NC	401k	IRA		Stocks			Climate-related financial risks need to be part of public financial disclosures.
470	WA		IRA		Stocks	Bonds		Climate-related financial risks should be required of all public companies so investors can make informed decisions and companies will be transparent about those risks.
471	CO				Stocks	Bonds		Climate-Related issues cause countless problems for people, and financial risks are part of this. This way, it's important that investors can use the climate-related financial risks a public company imposes to inform their decision on which stocks to buy. For investors to do this, that information needs to be available, such as in the form of an annual, mandated, standardized information about the public companies' climate-related financial risks.
472	NY	401k	IRA	Pension	Stocks	Bonds		climate-related risk could have an impact on company profits and capital costs. this information would be useful in determining my risk exposure across multiple assets with an attempt to minimize too much climate-related risk. it is very likely every company has compiled this information but doesn't disclose it to the public. if a company doesn't factor in climate risk that would be useful to know as well because it would indicate poor management. i remember when a Seagate factory in the Philippines was destroyed by a typhoon had a big impact on profit loss and capital expenditures. it would be useful to know the increased likelihood of this type of risk for a specific company due to their factory location preference. i could chose a competitor that locates facilities in areas with less climate risk like Buffalo NY. more data is better.
473				Pension				Climate-related risks are becoming more relevant and pressing. It would be unprofessional and dangerous for companies not to take this into consideration.

474	WA		IRA		Stocks	Bonds		Climate-related risks are incredibly important for long-term investors like myself to know about so we can make informed decisions for our retirement. Please act strongly to protect my and my fellow citizen's interests.
475	CT		IRA	Pension			Other Investments	Climate-related risks have grown to be as big a factor in a company's performance as any other risk. In order to make informed decisions about where to invest their hard-earned money, investors need this information.
476	VA	401k	IRA		Stocks			Combating climate change is essential to human and the earth's health!
477	DC	401k	IRA					Come on guys - the future of our planet is at stake as is your long term earnings if we don't get this figured out.
478	CA		IRA					Coming climate changes will affect most industries. Investors care and want to be prepared.
479	GA					Bonds		Common sense dictates that transparency in these matters is absolutely necessary.
480	FL							Common sense for individual investors to know which of their investments are enriched by climate-adverse or climate-change prevention activities. I support MANDATED, STANDARDIZED INFORMATION ABOUT PUBLIC COMPANIES' CLIMATE-RELATED FINANCIALS.
481	TX	401k	IRA	Pension	Stocks	Bonds		Common sense thing to do
482	CA	401k			Stocks			Communities are dying and being impacted by fossil fuel industries without even knowing and that is wrong. And for those who do know what is going on within their community, they are combated with $8M of propaganda paid by pro fossil fuel companies like Chevron, Exxon, and Chase. Folks desperately need money right now post a pandemic and it's sickening and it's obvious that profit is more important than people and the planet. Where are our morals? When do we say enough is enough? When every water source is gone? When the air is poisonous? When the planet isn't livable for humans? Economically speaking the depreciation of land isn't even a conversation we are having. The more polluted the land the value of housing goes down. Your job is to serve your constituents and not the people who bought you out. Do the right thing or history will remember you for all the wrong reasons. When your grandchildren cannot live past 40 years old and ask why you did nothing, only you will have to answer to them.
483	CO	401k	IRA		Stocks	Bonds		Companies and funds are obligated to report known risks to their financial status. Climate risks are real, as we have increasingly seen in recent years. The SEC has an obligation to mandate that companies report both their contribution to those risks, and how they plan to mitigate them.
484	NY		IRA				Other Investments	Companies are playing PR games with their "green" records. Strict regulations can help.
485	CA						Other Investments	Companies can no longer continue business as usual in the current climate crisis!
486	CA	401k	IRA		Stocks	Bonds		Companies currently are not sharing material information about the financial risks they are subject to from accelerating climate change. Without this information, I am unknowingly allocating capital among various financial instruments in a way that exposes me to unnecessary losses.
487	CA		IRA		Stocks	Bonds		Companies have a huge impact on the environment. We need to have explicit information from them about climate change.
488	CA		IRA		Stocks			Companies have a responsibility to share how their actions affect stakeholders, which includes climate. I want to make sure companies are held accountable so that my kids don't have to be afraid of California fires every season.
489	OR		IRA		Stocks	Bonds		Companies have long been ignoring the consequences of investing in non-sustainable companies that are poisoning our planet, and now they are green-washing!
490	NY		IRA					Companies know the risks, they just need to disclose their research.

491	TN				Stocks		Other Investments	Companies must be responsible for their actions, this includes giving investors accurate information about risks.
492	WA	401k						Companies must disclose all pollution levels at each scope, to keep all investors informed, of the risk a company poses to a community, country, and the world.
493	NY		IRA		Stocks	Bonds		Companies must do more to reverse or slow climate change while also being completely transparent in their role in exacerbating it. Thank you for the space to comment
494	NY		IRA					Companies need to be transparent about the risks they are taking with our money.
495	NY	401k	IRA		Stocks			Companies need to report on their climate-related financial risks so that they can be held accountable for environmental and social impacts that have long been externalities. They need to be motivated to reduce these risks to do their part in making this a more equitable and sustainable world that in turn to reduce financial risk for the public, governments and insurance companies.
496	MI	401k				Bonds	Other Investments	Companies need to take stock of how their actions are affecting the planet through climate change, including the economic affects that people can feel.
497	CA			Pension	Stocks	Bonds		Companies should be held financially accountable for the environmental (and other) destruction they create.
498	VA		IRA			Bonds	Other Investments	Companies should be part of the solution to our climate crisis.
499	MD	401k	IRA		Stocks			Companies should be required to reveal their true impact on the environment, not be able to hide behind disingenuous charitable contributions and high price PR firms.
500	IA	401k	IRA	Pension	Stocks	Bonds		Companies should care about the future and care about peoples' well being.
501	CA		IRA					Companies should estimate foreseeable risks for their investors. Climate risks are becoming increasing relevant for many companies and investors want estimatesalculating these risks should help companies derive strategies for mitigating them.
502	FL		IRA	Pension	Stocks	Bonds		Companies should have to share information that could have long term effects on their shareholders and the public.
503					Stocks			Companies should report on climate issues in a clear way
504	CA	401k			Stocks			Companies shouldn't be able to hide the risk their activities present to the climate or the financial risk that presents to investors or people's retirement plans.
505	NH			Pension	Stocks			Companies that used to be good investments, such as oil companies, are no longer good investments for the future.
506	CO	401k			Stocks			Companies, under pressure of mounting disclosure rules in many developed nations around the world, are resorting to greenwashing. Like EDF found in a recent report, oil and gas companies are simply selling off old wells (instead of safely breaking them down) to smaller operations or international companies that have NO intention of decommissioning those wells! We NEED a concerted international effort to curtail emissions, and the SEC must follow what EU has already done to set the tone for US companies and affiliates. We cannot waste any time. Thank you!
507	VT	401k	IRA		Stocks			Company's financial performance will increasingly be impacted by climate related financial risk. Investors need to understand the risks and proposed investments to ameliorate these risks. Transparency is essential!
508	OH	401k	IRA		Stocks	Bonds		Compatibles are deferring their costs to governments and society at large while inflating profits. Consumers have the right to know the real costs and make informed decisions.
509	NY		IRA		Stocks	Bonds	Other Investments	Compnies seeking investors try to hide things they are doing that are harmful to the environment. We need overt truthful statements of how they are running their operations. We want real change not greenwashing and token efforts. Having reusable coffee cups in break room and stationary made of recycled paper is a drop in the bucket.

510	TX		IRA			Bonds		Compounding and cascading risks will make things far worse than markets expect. India and Pakistan now have extreme heat and crop loss, over 42C. this past month already. There is NO time to waste here. We are ALL at risk.
511	MI	401k					Other Investments	Considering that most investments are risky, I would rather have my funds working through an organization that is socially and environmentally responsible. I am tired of my tax dollars being used to bail these people out.
512	IL	401k		Pension				consumers and the working people need all the support to protect us from the dangers of Wall street actions that do not benefit consumers but only the wealthy. We continue to lose money while wall street and banks get bailed out for their bad actions.

517	NJ	401k	IRA		Stocks	Bonds		Corporate America - the fossil fuel industry especilly - has lied to us for years about their product's impact on the climate. Compelling them to be more open, can only help us address the changes necessary to mitigate.
518	NC		IRA					Corporate America has gotten away with "priviting the profits and socialing the costs" for far too long now. It is high time they were stopped
519	NY	401k	IRA					Corporations act with impunity in all sectors. The public needs to be made aware of these actions so that we can more clearly see their intentions and apathy.
520	IL		IRA	Pension				Corporations are first and foremost interested in their own profit and security. Those of us who are dependent on them for the safety of our funds are surely entitled to know what they are doing and what the risks are.
521	MA		IRA	Pension	Stocks	Bonds	Other Investments	Corporations are getting extremely good at "green washing" their image. And asset managers, like BlackRock, are saying that they are "working with" the companies whose stock they hold to make sure they are implementing responsible climate actions. But none of this is solid, trackable, or measurable. It is the risks, not the vague promises, that we, as investors, need to know about. We need to know the risks the companies face of climate change effects on and impacts of their: operations, supply chains, stranded assets, Scope 3 effects, and industry disruptions - to name a few. Without knowing the scope and timing of these risks, we are clearly not able to make responsible investment decisions.
522	WA	401k		Pension	Stocks	Bonds		Corporations have proven themselves not to be trustworthy. Capitalism only works when government oversight is stringent.

527	WA		IRA		Stocks	Bonds		Corporations should be held accountable for the damage done to the environment .

532	IL		IRA				Other Investments	Customers need to know why and whether the investments they are banking on for their financial future are supporting or enabling a curtailing of the future they envision. What good is investing for financial stability in old age if the air isn't breathable or the water is undrinkable? Our elderly selves will have greater challenges thriving and enjoying retirement if the quality of our natural resources is compromised. Our investments in the future need to account for and ensure a world that our future selves desire to live in. Knowing about the risk profiles of certain investments allows for people to be better and more informed about the kind of world they will have in the days where they have earned rest and leisure.

536	VT	401k	IRA					Disclosing climate related financial risk is long overdue. This is common sense and should not require mass mobilization to push the SEC to do the right thing.
537	WA			Pension	Stocks		Other Investments	Disclosing climate-related risks is essential to understanding financial risks, not to mention being helpful to the investor concerned about limiting climate damage.
538	NY			Pension				Disclosure is healthy when it is in the best interest of investors, even when it costs the company.
539	NY	401k	IRA		Stocks	Bonds		Disclosure is necessary so investors can make informed decisions.

541	WA	401k	IRA	Pension				Disclosure on content of investments is important to me for two reasons: I don't want my small retirement kitty to support fossil fuels or chemicals or plastics, which are killing the planet. 550	WA		IRA		Stocks			Due to the climate crisis please implement the strongest possible climate rule to force corporations to report on their climate-related financial risks, their contributions towards climate change, and their plans for remaining solvent in a low-carbon economy.

551	CA		IRA	Pension	Stocks	Bonds		Each and every one of us in this world today, must insist on climate impacted responsibilities to prevent further damage to our world!
552	TX		IRA		Stocks	Bonds		Each company must take responsibility for long term health of its consumers, investors and surroundings. Short term gain is an illusion, detrimental to all. 563	CA	401k	IRA		Stocks	Bonds	Other Investments	Especially as the climate becomes more erratic and extreme, it is essential for investors to know whether our investments could be impacted by climate -related risk. At this point, companies know whether they might be impacted by climate and have factored that risk onto their business plans. It is only fair that investors are made aware of the risks, as well.
564	CA	401k	IRA		Stocks	Bonds		essential information to make informed decision about whether to invest
565	NY	401k	IRA	Pension				Even as the climate crisis worsens around us, working people like nurses, teachers, and firefighters who have a retirement plan like a 401K, pension, or IRA, do not have access to mandatory, standardized information about these risks for publicly-traded companies. The SEC's new proposed disclosures would give investors more information about all public companies' climate-related financial risks. It would also give small investors, like retirement savers with 401ks or pensions, access to the same quality, standardized information as large, wealthy investors. Together, the proposed disclosures will help level the playing field for all investors.
566	WA		IRA					Even the U.S. military has deemed rapid climate change due to global warming from carbon emissions to be an extreme threat to our country. 567	DE		IRA		Stocks			Ever since Congress gave banks the ability to offer investments, they have become very reckless at times with their depositors money. Mandated, standardized reports about climate related risks will make them less apt to make the riskier ones.

600	NY	401k			Stocks	Bonds		Financial risk due to climate change is a real factor and, as a citizen and extensive U.S. securities investor, I request that the SEC require disclosure of climate-related financial risks.
601	OH	401k	IRA	Pension				Financial risk is extremely important to me.
602	NC		IRA		Stocks	Bonds		Financing is how things get done in America, and in much of the world. So we must know what large banks are financing.
603	LA	401k	IRA		Stocks	Bonds	Other Investments	Finding this info easily is certainly not easy. Clearly this must be mandatory and reviewed frequently in these precarious times. It will focus our minds on climate change and it's risks.
604	CO		IRA	Pension				First I want my money to be in support of climate protection. Secondly, I think companies not supporting climate action are a big risk.
605	CA		IRA	Pension	Stocks	Bonds		For an enormous annual report, we do not get accurate information for informed voting!
606	NY	401k			Stocks	Bonds		For both fiduciary and moral reasons, people should know when the companies they invest in are subject to climate-related financial risks. My 401K is with Green Century Funds, a leader in ethical investing which delivers great returns.

609	MA			Pension				For reasons of financial security, health, and the well-being of our increasingly precarious planet (poisoned by those who value profit over lives), we deserve full transparency from the public companies who manage our investments.
610	CA	401k	IRA	Pension				For survival of civilization as we know and want it, we must ALL work on changing the tone of climate issues to one of urgency and cooperation. to hell with huge profits for the few
611	NC	401k		Pension				For those of us that have small retirement accounts, the loss of ANY amount is critical. I worked extremely hard to have anything for retirement and it is extremely important to me that I get plain English reports to make sure I don't loose any money.
612	CO		IRA	Pension		Bonds		For those who can afford short-term losses, maybe this isn't an issue. For those of us with working class income invested for retirement, it's a very different matter.
613	NY	401k						For too long climate-related financial risks have been regarded as "externalities" and ignored. Since these costs impact everyone, this information must be made readily accessible to all potential investors.
614	CA	401k	IRA				Other Investments	For utmost trust in the equity of the financial system, we need more standardizes and transparent financial disclosures. Otherwise consumers will believe that the system works only for the rich and connected and that the financial system works to disadvantage the less wealthy investors.
615	WA		IRA		Stocks	Bonds		For years we have tried to be socially responsible in our investing. We have divested from any corp. that we found was fueling climate change. It is getting harder for us to do this because of illness so this petition would be greatly appreciated.

618	PA	401k	IRA		Stocks	Bonds		Fossil fuels are risky and dangerous investments, investors have the right to know what unsound energy choices public companies make that will impact their viability long-term.
619	WA		IRA	Pension				Fossil fuels come with externalities that make them bad investments (pollution, climate damage, health issues, etc). We need companies using them removed from City, State, & Federal pension funds—they're harming us!
620	OH		IRA	Pension			Other Investments	Found out that a few companies recommended to me by financial planner were destroying the environment…
621	TX		IRA		Stocks	Bonds	Other Investments	Frankly, all reporting requirements should be standardized. The climate is changing through a combination of natural and man-made causes and it is essential climate related risks are clearly disclosed.
622	CT		IRA		Stocks	Bonds	Other Investments	Free enterprise requires transparency
623	MA	401k	IRA	Pension				Free enterprise requires transparency. Without information, investors cannot make informed investment decisions. This sets us all up for failure, individually and collectively.
624	MI	401k		Pension	Stocks		Other Investments	Free information to the public will allow citizens the choice to support ethical companies that choose to fight against the climate change our world has experienced and will experience into the future.
625	ON				Stocks			Free markets cannot operate if clients are not given the ability to make informed choices. A market without that ability is not "free"; it is simply an enabler of fraud.
626	WI	401k		Pension	Stocks	Bonds	Other Investments	Full disclosure is necessary if I want to control where my investments go.
627	IN		IRA	Pension	Stocks	Bonds		Full disclosure of all risks, climate risks included, should be mandatory for all publicly traded companies. Due diligence demands that for any pension plan.

628	CA		IRA		Stocks			Full disclosure of how corporations impact negatively on climate change is essential so that shareholders can demand change if we are to prevent the disastrous consequences of inaction now!
629	MA	401k	IRA		Stocks	Bonds		Full information about risks is always important for investing, and that includes climate-related risks, especially since these are rising over time and will continue to do so for the forseeable future.
630	FL	401k		Pension				Fully + honestly inform the public!!!

632	OR				Stocks	Bonds	Other Investments	Fund a world where my generation, my children and my grandchildren can all live a healthy life thru retirement.
633	MO	401k			Stocks			Fund managers need to listen to sound science and disclose where their investments are going, so we the investors may know.
634	CA	401k	IRA		Stocks	Bonds		Future corporate returns are tied to corporate performance. And everything has a climate impact, for better or worse. The companies that are environmentally worse will financially suffer worse and worse as time goes by. Investors should and must be made aware of this.
635	WA	401k	IRA		Stocks			Give me a "nutrition label" that tells me what percentage and which of my investments are going to what industries that affect climate and all other aspects of our environment and social welfare!
636	MN	401k						Given the decades between now and my retirement, I need to know how climate change will affect the investments I make now so that I can be supported in the future.
637	CA	401k	IRA		Stocks	Bonds		Given the history of duplicity within this community coupled with greed or desire for profits outweighed by any concern for the public good, oversight and transparency are critical. I personally will never forget the bilking that they engineered in 2008 with virtually zero punishment for their actions. Don't pretend that these people can be trusted.

639	OR	401k	IRA	Pension	Stocks			Global warming is already affecting investments, appraisals, and property values, and these effects are destined to grow much more swiftly and catastrophically in the immediate future.
640	MS	401k	IRA					Global warming is an insidious and growing danger to life of many species of both flora and fauna.
641	OR		IRA	Pension	Stocks	Bonds		Global warming is an undeniable catastrophe & I want to know which corporations contribute heavily to it so I can gradually reinvest in ecologically responsible interests.
642	WA		IRA	Pension	Stocks	Bonds		Global warming is leading to changes in weather patterns, sea levels, habitat for plants, animals and humans, viability of species and even human migration patterns. Current civilization cannot sustain itself in the face of all those changes. I know it's too late to reverse the trend, but we need to be able to do what we can to support and invest in companies who are taking this crisis seriously. That's why I want to know about the practices of the companies I invest in.
643	CA	401k	IRA		Stocks			Global warming is too serious of an issue to ignore. We all need to be more proactive.
644	AZ		IRA		Stocks	Bonds		Global warming threatens the viability of our entire planet. What could be more important?
645	PA		IRA	Pension	Stocks			Global Warming will devastate investments around the world as millions of people are displaced. Corporations need to be honest with their investors and divulge their analysis of future climate change risks. The SEC needs to mandate this.

646	TN	401k	IRA	Pension	Stocks	Bonds		Going forward, climate risks will dominate the investment landscape, stranding assets left and right as we transform our energy and agricultural and transportation and packaging sectors. It's imperative that we mandate proper risk accounting now, to be prepared, for a change, for what we all see coming.

650	WA		IRA		Stocks	Bonds		Greenwashing should not be tolerated. We need information to make environmentally forward moving investment choices.

654	OR			Pension	Stocks			Have read John Perkins book: "New Confessions of an Economic HIT Man" - Wall Street needs to update the business paradigm AWAY from total focus on short terms gains with no regard for the extinction issues facing this planet - NOW!
655	TX		IRA		Stocks	Bonds		Having spent 30 years as a consultant on industrial energy efficiency (including pro bono work for US DoE), and an MS in Chemical Engineering, I have found that US industrial companies pay only lip service to reducing GHG emissions and taking Climate Change seriously. They spend most of their "environmental" budget on misleading public advertisements, and virtually none on real projects to reduce fossil fuel consumption.
656	OR				Stocks	Bonds		Having standardized information from all companies makes it easier to compare them.
657	IL	401k	IRA	Pension				Help end Greenwashing. Mandate climate risk disclosures.
658	MA		IRA		Stocks	Bonds		Hidden finncial risk is unacceptable to me as I try to establish a successful retirement plan. Climate risks ate both very substantial and usually unmentioned, ignored, not counted. That must stop
659	CA	401k	IRA	Pension	Stocks	Bonds		Hiding Risk from investors with no choice. Divest 100% from fossil fuel guilty and need to pay us All back.
660	NC	401k						Honest and full information about investments in corporations whose line of business that endanger more climate change must be made known to investors.
661	CA		IRA	Pension	Stocks	Bonds		Honest assessment of risks from climate change is essential.
662	NY		IRA	Pension	Stocks	Bonds		Hopefully such reporting would provide Public Companies with a solid reason to focus on their potential Climate Risks and encourage them to disinvest from high risk climate damaging properties.
663	WA	401k	IRA	Pension				Hopefully this transparency will influence decision making to be more proactive and accountable regarding the climate crisis.
664	TX	401k	IRA				Other Investments	How about just forbidding stock funds from underwriting companies in the oil, gas and coal business?
665	OH	401k	IRA	Pension	Stocks	Bonds		How are you supposed to make responsible investing decisions without climate related financial risks? And if it's not standardized, it's too easy to be greenwashing.
666	MD		IRA		Stocks	Bonds		How can people be expected to buy something—anything—without knowing the risks involved or being able to find out details about the item and how it performs. This is crazy and unfair.

667	NY		IRA		Stocks			How can we make wise investments when we don't know the truth about their environmental impacts and the risks?
668	MN		IRA	Pension				How can we really choose if we don't have the information?
669	HI		IRA	Pension				How dirty are my investments?
670	CA		IRA	Pension	Stocks	Bonds		How do I analyze risk from companies who are not compliant with climate change outlooks for their business and products? My IRA's are filled with bonds, stocks, and mutual funds. I would guess my small pensions from electric utilities are also at risk here in California if they aren't under risk. Watch already.
671	MA	401k		Pension				how else are we to know?
672	TX		IRA		Stocks	Bonds	Other Investments	How much of our money is at risk and the future of our planet!
673	NY	401k	IRA	Pension	Stocks	Bonds		Huge climate shocks are coming and will disrupt the global supply chain, just as Covid has done. The financial industry must be prepared.
674	CO	401k		Pension				Humans have destroyed our environment and made detrimental changes to our ecosystems. We cannot continue on this destructive path. We must learn to live in harmony with our planet. Do not allow us to be in jeopardy. Please protect us all!
675	AZ		IRA		Stocks	Bonds		Humans have pushed Earth's climate & ecosystems past 'tipping points.' THERE IS NO PLANet B.
676	CA		IRA	Pension	Stocks	Bonds		I (we) worked hard for over 35 plus years and the Market is volatile. I (we) should be aware of the information
677	IL			Pension	Stocks	Bonds	Other Investments	I 20+ years ago i moved all my money to socially and environmentally conscious funds and investments where they have thrived. Doing good and doing well are not mutually exclusive. It is long past time we tempered our individual greed and gain with the greater good for all. A greener investment world is not just possible, but the only possibility that yields an environmentally and social just and sound future along with financial prosperity.
678	CA	401k			Stocks	Bonds		I abhor making money at the expense of the environment and health for all.
679	CA	401k		Pension	Stocks			I absolutely do not want to be investing in climate destruction
680	NH		IRA	Pension	Stocks			I agree it's a good idea to track companies climate related financial risks. Thank you.
681	NC		IRA					I already try to make decisions about where to invest retirement funds based on environmental impact and alignment with other values of racial and social justice. It would be wonderful if there was more transparency about this to inform my decisions.
682	ME		IRA		Stocks	Bonds	Other Investments	I always told my international business students that the U.S. business world was required to be open and honest about their business if they were listed on the stock exchange. Get an annual report, I would tell the skeptics. Sometimes they were surprised and suspicious that you could get, and for free, actual information about a company. But that is the way it works, and it needs to be even more so. Such open and honest information is essential for investors (and customers and employees and others) to know if a company would be a good investment, and a good company to work for, and a reputable fellow citizen. People care about that even more nowadays.
683	TX		IRA		Stocks	Bonds		I am 73 years old, and the value of my investments is already being negatively by the consequences of climate change, and the energy sector markets. I need to have information I need to make adjustments in the mutual funds, stocks, and bonds in my investment accounts, that are affected by the vagaries of the fossil fuel and energy sector companies,
684	OK	401k						I am a grandmother who is passionate about the environment.
685	NY	401k	IRA					I am a life-long socially conscious investor nearing retirement age and I do not want my retirement savings to contribute to catastrophic climate change.

686	MA		IRA	Pension	Stocks	Bonds		I am a physicist; my early work was on the carbon cycle and links to climate. This is old established science -action is urgently needed.
687	VA	401k						I am a Professor Emerita of Religion and Ethics who taught and wrote about economic and environmental ethics. I know how urgent it is that we take action to dramatically reduce climate emissions. For this to happen, it is crucial that the SEC require corporations to change the way they invest.
688	NE		IRA		Stocks	Bonds		I am a prudent invester.
689	OR	401k	IRA	Pension	Stocks	Bonds		I am a public employee, and I am appalled by the fact that tax payers are funding my retirement through investments that accelerate global warming and the destruction of human habitats.
690	WI	401k		Pension				I am a resident of the United States and of Planet Earth and that is why I need to understand the risks that we face.
691	CA			Pension	Stocks			I am a retired California public school teacher. CALSTRS where my pension comes from has and is invested in some fossil fuels. Many of us have petitioned CALSTRS to divest. According to news CALSTRS officials voted full divestment years from now.
692	SK				Stocks			I am a retired Canadian with some American stock investments through various mutual funds. As such I want these companies to reveal their climate damaging or enhancing efforts so that I can follow my conscience and invest in those trying to stop climate change.
693	IL	401k						I am a retired health worker who was a teacher. My last employer matched my contributions to my 401. I know the importance of that investment.
694	NY		IRA		Stocks	Bonds	Other Investments	I am a retiree who depends upon income and appreciation of diversified investments in addition to social security for my family's income. For years I have consulted with my financial advisor about social and sustainability issues and risks concerning the companies and funds we invest in. It has been frustrating that we have largely been in the dark on climate risks because current reporting is voluntary and not comparable. We don't know whether company's claims and third-party ratings are reliable because without mandatory, standardized reporting their is no way to compare companies and investment funds on climate risks. Please enact strong rules requiring standardized, comparable reporting by companies on climate risks of their GHG emissions, business operations, energy purchases and sales, and product and supply chain emissions. Thank you.
695	OR		IRA		Stocks	Bonds		I am a strong believer in climate change caused by humans. In fact some of my investments are with socially and environmentally responsible mutual fund companies. However, many are not. I would want to know which investments have climate related risks.
696	CA		IRA	Pension				I am a teacher and a CALSTRS member. I believe as a educator my retirement plan should not be funding the climate crisis.
697	MI	401k		Pension	Stocks	Bonds		I am a teacher please protect our retirements!!!!
698	AR				Stocks	Bonds		I am already retired and have investments through an individual plan, but I still want the information about public companies' climate-related financial risks.
699	FL	401k	IRA					I am already retired, but I have always been concerned about what my money was supporting. I didn't want my money to support armaments, guns, fossil fuels, and racist endeavors. Before I retired, I tried to find out where my money was going, but was rebuffed several times, and called "little lady" which also told me alot. People have a right to know what their money is supporting, especially when it concerns armaments, guns, climate-related financial risks, and all those sorts of risky and negative type investments. Hedge funds, and other retirement and pension funds should ONLY invest in goods/services which are good for people and for the environment and climate.

700	CA	401k		Pension	Stocks			I am an investor, my retirement depends on those investments, so therefore I want to know about every potential risk so that I don't end up loosing my nest egg. Is that so hard to understand?
701	WI		IRA		Stocks	Bonds		I am asking my financial advisor for exactly this information.
702	CA		IRA	Pension	Stocks			I am concerned about my investments being stranded in petroleum ventures and liabilities. I have written to my retirement board to examine its investment strategies, but their sleuthing can only go so far. SEC reporting requirements of corporations would be invaluable in determining investment risks.
703	TN	401k	IRA					I am concerned about the environment and want to invest my retirement savings in companies who support actions to help slow climate change. I do not want investments that support fossil fuels or fund fossil fuels.
704	NJ	401k	IRA	Pension	Stocks	Bonds	Other Investments	I am contacting you on behalf of a group of friends, family members and co-workers who are very concerned about the impact of climate change.
705	CA	401k	IRA	Pension	Stocks			I am dependent on my IRAs and pension for my future. Though many want to pretend climate risk is non-existent or inconsequential, we know it is real and worthy of tracking.
706	CA	401k	IRA	Pension	Stocks	Bonds		I am especially concerned about my long time holdings in vanguard and their support of petrochemicals and natural gas despite denials.
707	IL		IRA	Pension	Stocks			I am extremely concerned about climate change and do not want the investments in my pension fund to be invested in fossil fuels. So I feel strongly that as an member of 2 pensions funds, City of Chicago and the State Pension Fund of Illinois, SURS, that I and all other pensioners should know how our pensions are being invested.
708	CA		IRA		Stocks			I am extremely concerned about the increasing impact of climate change upon the sustainability (and profitability) of businesses, especially those held in retirement plans. It is imperative that investors and pension managers have the information necessary to evaluate the risks and mitigation efforts of companies in which they have a stake. A strong rule will allow for proper, equitable evaluation of such risks.
709	NC		IRA		Stocks	Bonds	Other Investments	I am extremely interested in what companies are doing to aid fighting our climate crisis and would choose those taking steps to decrease their footprint in an effort to help our environment.
710	CA	401k	IRA		Stocks	Bonds	Other Investments	I am finding out that banks and mutual funds where I have investments are investing my money in destructive fossil fuel, coal and plastics industries which goes completely against the Paris 2015 Agreement between 196 nations. If I had known this about them, I would never have placed my money with them.
711	CT	401k	IRA					I am hoping humans can still inhabit this planet when I retire.
712	MO		IRA	Pension	Stocks	Bonds	Other Investments	I am increasingly looking at climate impact of corporations/funds when I'm investing. Having more open disclosure of climate/environmental impact would be helpful.
713	TN	401k			Stocks			I am interested in knowing that my money is being held or invested in socially, politically, and environmentally responsible corporations
714	MD				Stocks			I am interested in supporting companies that are supporting a clean environment. Having information related to the financial risks of companies will allow me to make wiser decisions on where to invest my money.
715	NJ	401k	IRA			Bonds	Other Investments	I am investing in the future for my grandchildren. Climate change is real and affecting us in many ways already. It will affect every industry and business eventually and we must be ready. My investments are on a sound footing when climate change is a factor in their decision-making.

716	MN			Pension				I am living on a bare minimum and seeing my retirement going faster and faster for co-pays, dentist emergencies, etc etc HOWEVER I will always do my part to work for a better environmental justice, community environment, God's gifts to all of us.
717	WA	401k						I am nearing retirement age and cannot afford for anyone to take unnecessary risks with my investment accounts. Please do this to protect small investors like me.
718	OH		IRA	Pension	Stocks	Bonds		I am not a wealthy person. I'm also so tired of corporations protecting themselves and their financial without regard to the climate or to people like me who have worked hard for many years to save for our retirement. We deserve to be informed of our risks.
719	NY							I am not exactly sure what areas our retirement investments are in, but I feel that Corporations, Banks and Investment Institutions SHOULD BE environmentally responsible when investing our money!! It's very important that they are ALL made to be more transparent to the people and the government as to their investments!! We have LESS THAN 8 years to make a REALLY SIGNIFICANT CHANGE!! Or it JUST MIGHT BE TO LATE!!!
720	WI	401k						I am on the cusp of retirement and as a self-employed consultant, worked hard to put money into a SEP account for my retirement. I strongly support any effort to increase transparency in climate related financial risks. It is time for all of us, especially those with resources, to stop supporting investments that risk our future and our planet.
721	NV	401k						I am passionate about ensuring a livable world for my precious nieces and nephews and I do not want to unknowingly invest in companies which do not align with my values.
722	WA		IRA		Stocks	Bonds		I am realizing I have to plan for the impact of climate change in every decision I make. My daughter went to school in New Mexico and now her whole school has to evacuate for 2 weeks because of the forest fires. This was not even an issue we had thought about when she chose her school. I want my financial portfolio to be resilient to climate disasters.
723	WA			Pension				I am receiving payments from the Department of Retirement Services here in Washington state, and I have no idea what investments those funds are drawn from. This worries me. I feel irresponsible not knowing how vulnerable these funds are, or how much I am inadvertently contributing to propping up a fossil fuel system that is no longer viable.
724	MI		IRA	Pension				I am retired and depend on my investments. I truly believe that much of the investments in fossil fuel assets will soon become stranded assets. In addition, these investments for the future needs to take in consideration our children's and grandchildren's future. With the changing climate there has been too much denial of the consequences of the changing climate and its impact on business.
725	PA		IRA	Pension	Stocks	Bonds		I am retired and depend upon my investments for my livelihood. As such, an investment's safety is important to me. Climate change presents a number of major threats to companies' business. As an investor, I wish to know how a company plans to manage the risks that climate change presents.
726	SC			Pension				I am retired and I need to know how Ivan best protect my investments while supporting environmental issues and the climate.
727	CA	401k		Pension				I am retired and need protection!!
728	OR	401k	IRA	Pension	Stocks	Bonds		I am retired, financially dependent on a pension plan with stocks of fossil fuel companies. Ongoing fossil fuel abstraction and burning will in the future lead to a global disaster and possible bankruptcy of the pension plan. My future solvency depends on the ability of people and institutions to accurately determine the risks associated with continued investment in fossil fuel. Boards of directors, CEO's and other high ranking individuals should not be able to shield themselves from loss of income because of their own decisions, while the rest of us suffer from their lies and greed.

729	MD	401k						I am saving for retirement so that I can secure a good future my myself and my family. To allow companies to continue to put money into industries that are destroying the possibility of a good future is wrong. The SEC must take strong and decisive action.
730	NH		IRA		Stocks			I am seeking to place my investments in sustainable businesses and would like to have this basic information to guide my investments.
731	MD		IRA			Bonds		I am strongly committed to sustainable investing strategies such as those modeled by PAX World Funds
732	MA		IRA		Stocks			I am strongly in favor of requiring publicly traded companies to reveal their climate-related financial risks.
733	CO				Stocks			I am tired of banks devaluing stocks by 30% before telling the investors. We should be told before they do it.
734	WI	401k	IRA					I am totally ignorant on financial programs. Somehow these things need to be explained to nearly all people that is easier to understand and not be time consuming because none of us have time to study nor the desire to study these topics. I guess having someone that is trustworthy to make these decisions is the answer.
735	PA		IRA		Stocks	Bonds	Other Investments	I am trustee at my church and we have lower holding on oil stocks. We need more information to be good stewards.
736	MA	401k	IRA		Stocks			I am trying to invest in life sustaining companies that don't pollute, no weapons, etc. I would like to be able to access the information to make informed investments!
737	AZ	401k		Pension				I am very aware of climate change and what that will mean for my grandchildren. I want to know what is being invested where so I an be assured I have done everything to protect them and their future.
738	WA		IRA	Pension	Stocks	Bonds		I am very concerned about global warming and would like to be kept abreast of how my investments are impacted by climate change.
739	CA			Pension	Stocks			I am very concerned about how difficult it is to fight through the corporate protections against exposing which multi-funds are even indirectly reliant on fossil fuels and toxic chemicals that are created as by products of production or use. I love in an area in which such issues are a serious problem from industry and agriculture
740	CA	401k	IRA		Stocks			I am very concerned that my investments may be furthering the distraction of our one and only planet. What's the point in saving for the future if we are actively supporting its distraction.
741	CA			Pension	Stocks			I am very worried about global warming, environmental justice, and the effects of toxic pollution on poor communities. I want my investments to make the world better, not mire degraded and unjust.
742	MN			Pension				I am working for nuclear weapons elimination, we need to connect up with you. We can support, we are growing, and we need to have regulation on the very same companies who are working for our ultimate demise (and theirs)
743	OH	401k	IRA		Stocks			I and many other investors want to invest in sustainable, environmentally-friendly equities and other investment vehicles. It is outrageous that companies such as Exxon-Mobile can be included in an ESG index, and thus many sustainable mutual funds, when their performance is so abysmal. Ditto for companies such as Coca-Cola, Pepsi or Procter & Gamble when their single-use plastic packaging contributes so much to plastic pollution of our world.
744	NC	401k	IRA	Pension	Stocks	Bonds		I appreciate the power of the stock market and do not wish my investments to be harmed by decisions that favor fossil fuel use.

745	NY		IRA	Pension	Stocks	Bonds	Other Investments	I believe anyone that is concerned about the destruction of our planet should care how their money is used by Wall St. I'm considering closing my portfolio and looking for ethical companies that are just as concerned as I'm. Hopefully there are ethical companies left. What good will money be to anyone if we don't have clean air, water, food for all living beings. I hope we still have time.
746	MD		IRA	Pension				I believe as a small investor I should have the same information as Wall Street.
747	SC		IRA					I believe as investors we have a right to know where our money is going.
748	KS		IRA		Stocks	Bonds	Other Investments	I believe I have the right and duty to know how my investments affect the environment.
749	FL	401k	IRA	Pension				I believe in total transparency.
750	OH	401k	IRA	Pension	Stocks	Bonds		I believe in transparency of the finances of publicly traded companies as their decisions relate to climate.
751	MN	401k		Pension				I believe in transparency!
752	CA			Pension	Stocks	Bonds		I believe investors deserve transparency to be able to influence economic resilience.
753	CO		IRA		Stocks	Bonds		I believe it is extremely important to support companies that invest in renewable energy but not any fossil fuel related investments.
754	WA	401k						I believe people have a right to information about how their money is being invested.
755	IN			Pension	Stocks	Bonds		I believe that climate change is for real and I believe investors should be made aware of the stand of a company before and during any investment they have made.
756	NM		IRA		Stocks			I believe that continued investment in fossil fuels is very short-sighted and poses long-term risks to assets.
757	OR	401k	IRA		Stocks			I believe that investors deserve to have this information when they choose where to put their money and decide what they want to support.
758	WI			Pension			Other Investments	I believe that standardized information benefits us all!!!!
759	IL		IRA	Pension	Stocks	Bonds		I believe that the climate crisis is the most urgent issue that we face. Climate related events can affect companies' operations.
760	CO						Other Investments	I believe that we need to hit companies that do not embrace a climate friendly platform and plan for change in the pocketbook where it hurts the most.
761	MN		IRA	Pension	Stocks	Bonds		I believe the SEC should mandate standardized information about public companies' climate-related financial risks. The temptation and pressure for these companies to risk individual investor's assets by simply falling in line with broad corporate strategies that fly in the face of sound environmental and financial practices is too great for them not to be monitored by the appropriate federal agencies.
762	NY	401k						I believe we need to know where private business is hurting public government and citizens with its polluting practices. We end up doing the cleaning up of their messes with not impact to their bottom line but a tremendous impact on our environment and public health. We have very little opportunity to require companies to disclose ANY information. We need at least this bill to keep the flow of info moving!!!
763	CA							I can't afford to lose what little I have, definitely am concerned and need transparency! Thank you!
764	OK	401k	IRA		Stocks	Bonds	Other Investments	I can't see a reason not to, and it doesn't seem like a particularly burdensome regulation.
765	CA	401k	IRA		Stocks	Bonds	Other Investments	I cannot be truly informed about whether a company in which company to invest if I can't evaluate their environmental impact. Further, the requirement that they report it puts pressure on them to be more responsible is this absolutely critical area.
766	CA			Pension				I care about climate change and have a right to direct my dollars ethically. But I must have a right to know, to transparency in order to act ethically to preserve a habitable planet for most living things.
767	KS	401k	IRA					I care about our planet, and I want my investments to reflect my values.

768	AZ	401k	IRA			Bonds		I care about the environment that helps to keep us all alive and I believe everyone should and that information about how companies treat our environment should be available!
769	IN			Pension				I care about the future of the earth. I work to care for it in all my life, and my pension should work for it, too.
770	VA	401k			Stocks			I care about the health of our planet. I do not want to support companies who still use antiquated sources of energy. None carbon producing forms of energy are now the future .
771	NC	401k	IRA		Stocks			I care about the planet.
772	IL	401k						I care about where my money goes
773	NV	401k	IRA	Pension	Stocks			I care about where my money goes. I want transparency and care about the future of our world.
774	CA		IRA					I care about whether the companies I do business with are engaged in taking care of our environment.
775	MA		IRA	Pension	Stocks	Bonds		I care deeply about limiting climate change and want to know my investments are supporting companies that share my values.
776	CA	401k	IRA	Pension	Stocks	Bonds		I care deeply for life on earth and do not want to be invested in its destruction. This should be common sense. Those with control over capital should not be allowed to ruin our planet for their own gain.
777	CA	401k	IRA	Pension	Stocks	Bonds	Other Investments	I care very much about climate risk and not solely because of the possibility of investment loss. Our lives and the world around us are at risk.
778	CA		IRA					I carefully evaluate my investments for financial and climate responsibility. This regulation is crucial for informed decisions. Thank you for passing.
779	NM				Stocks			I carefully look at what the stocks I own are involved with and do not support nor purchase climate/environmentally damaging companies.
780	WA		IRA		Stocks			I choose to financially invest in my future and hopefully that if my children. I do not wish to invest my money in companies that have no consideration or concern for our future; nor do I wish to invest with those companies that behave with lack of consideration, and care for climate preservations. Why would I give my money to those who would choose personal profit, over the health of our planet and it's inhabitants, people included? As a consumer in a capitalist society, it is unrealistic to expect me to continue giving my hard earned dollars to those I do not wish to support.
781	PA				Stocks	Bonds	Other Investments	I consider climate change an existential survival threat not only to the markets but human survival. Corporations need to invest responsibly and the minimum is to disclose the relevant risks they are taking
782	NE						Other Investments	I contacted the folks responsible for my retirement fund early on and asked for an option to invest in companies that treated labor well. They didn't have any other option besides Social Choice. Given the state of our global climate emergency I would appreciate your mandating that my company take climate risk into their investment decisions… and consider mandating a labor option in the future.
783	WA	401k		Pension	Stocks			I could do a better job of managing my money in a way that seems appropriate to me, IF ONLY I had the information!
784	MA			Pension				I definitely want to know what my pension company is doing to prevent more damage to the planet, and what they're investing in that supports change no fossil fuels, ending single use plastic, electric cars, etc. Right now it's like being a lung cancer patient and finding out your health insurance company invests in tobacco companies!! This information has to be public.

785	CA		IRA		Stocks	Bonds		I defnitely care about what my investments are being used to support - I don't want any of my funds either directly or indirectly to support fossil fuel companies or other entities not focused on decarbonization and a sustainable energy future.
786	NE			Pension				I depend on investments I carefully monitor for social responsiblity!
787	IL	401k	IRA					I deserve as much information as possible to be able to intelligently choose my investments based on their known risks.
788	CA	401k		Pension				I deserve to know if the companies my pensions are invested in are taking into account the risk of climate change.
789	VA		IRA		Stocks		Other Investments	I deserve to know what my money is funding.
790	WA		IRA		Stocks	Bonds	Other Investments	I deserve to know whether or not my investments are contributing to climate change.
791	TX	401k						I did have investments in my annuity but I divested out of Big Oil & Gas 20 years ago. Everyone should be aware of the dirty work their money might do to turn a bloated profit. They might actually care at some point.
792	GA		IRA		Stocks	Bonds		I direct my financial advisor to companies that prioritize reducing climate change. Fossil fuels, for example, are out. So I want annual updates on their performance.
793	ME							I do not provide anyone with information about my investments. I am concerned about the environment, so support public information being made available about environmental impacts of companies.
794	CA		IRA		Stocks			I do my best to invest as green as I can, this information is necessary if we want to have a planet to live on.
795	NM	401k	IRA	Pension	Stocks	Bonds		I do my best to invest in companies that support the environment rather than damage it, but I must have accurate, detailed information to accomplish this.
796	WA	401k		Pension	Stocks			I do no want companies to profit at the expense of climate change and harm to indigenous communities and wildlife.
797	CA	401k	IRA	Pension	Stocks	Bonds		I do not ant to invest in the fossil fuel industry because fossil fuel use is destroying our environment, our planet and is a great threat to public health.
798	NY	401k	IRA	Pension	Stocks	Bonds		I do not want my funds to support climate deniers and climate destroyers. Nor do I want to lose my funds when the stock value of corproations I have invested in go down.
799	MD	401k	IRA	Pension	Stocks			I do not want my funds to support fossil fuels, weapons, manufacturers of products that cause harm or companies whose owners treat employees in humanely. Finding funds which meet my requirements is extremely difficult.
800	MA		IRA	Pension	Stocks			I do not want my hard-earned money invested in companies that contribute to global warming!!
801	AZ		IRA					I do not want my invested money to contribute in any way to the destruction of our planet!
802	MA	401k	IRA		Stocks	Bonds		I do not want my investments to be against my desire to support our environment. I can see that most oil and gas companies care little about the people they are hurting.
803	CA			Pension			Other Investments	I do not want my money going to destroy the earth.
804	OR	401k	IRA	Pension				I do not want my money supporting fossil fuels or big agriculture.
805	PA		IRA		Stocks	Bonds		I do not want my money to contribute in any way to the destruction of our planet
806	MN	401k	IRA	Pension			Other Investments	I do not want my money to support threats to the environment.
807	GA	401k	IRA	Pension	Stocks	Bonds		I do not want my retirement accounts funding an unsustainable investments that will make the world less livable and more costly for myself, my family, the country, or the world.
808	NY	401k	IRA					I do not want my retirement funds invested in activities which harm the climate or the environment in any way.
809	CA			Pension	Stocks			I do not want my retirement funds supporting the fossil fuel industry. We need to phase out these industries as quickly as possible

810	MN	401k	IRA	Pension				I do not want my retirement money to be funding climate change. I want my pension fund to divest. The retirement fund that I control is in fossil fuel free investments; at least as far as I know. I want to know about the climate-related risks of the companies that I do invest in.
811	MN						Other Investments	I do not want my TSP to fund the destruction of our planet!
812	WI		IRA	Pension	Stocks	Bonds	Other Investments	I do not want shortsighted investments that harm the long term benefits of a healthy environment. I have sold ExxonMobil and other stocks that contribute to climate change.
813	VT		IRA					I do not want to be invested in polluting, lying corporations but it is often difficult to determine.
814	NY		IRA					I do not want to contribute to climate change through my investments, and would prefer to know what role entities have played in contributing to climate change and/or modifying their strategy, and/or extractive, manufacturing activities to ameliorate it.
815	IL			Pension			Other Investments	I do not want to give my money to companies just because I can reap rewards later. I want to also have the opportunity to make informed decisions about the type of companies I invest in.
816	OH			Pension				I do not want to invest any of my pension monies in companies that pollute the air my nephew breaths. I want to know what companies are spewing I'm into the air or water. Please let me know who they are.
817	CA	401k	IRA	Pension	Stocks	Bonds		I do not want to invest in anything that adversely affects the climate.
818				Pension	Stocks			I do NOT want to invest in anything that might damage the climate, but it's not easy to tell what's what
819	SC	401k					Other Investments	I do not want to invest in companies that are destroying the world my children and grandchildren will live in.
820	WI				Stocks	Bonds	Other Investments	I do not want to invest in companies that are not helping to reduce CO2 emissions.
821	MA	401k	IRA		Stocks			I do not want to invest in companies that hurt the environment or people.
822	HI		IRA		Stocks	Bonds		I do not want to invest in or profit from companies doing harm to the environment.
823	PA			Pension	Stocks	Bonds		I do not want to support companies that are contributing to our global warning. I try to get rid of the stocks that support aspects of expanding use of fossil fuels.
824	FL		IRA	Pension	Stocks	Bonds		I do not want to support companies who are negative about climate change.
825	CT	401k			Stocks			I do not want to support companies who don't care about the environment, or the future of our planet.
826	CT		IRA	Pension				I do not want to support entities that profit from the rape, pillage and destruction of Mother Earth!
827	IL			Pension				I do not want to support I industries that pollute our environment.
828	ME		IRA		Stocks	Bonds		I do not want to support industry that is driving climate change. As a retiree, I want to know about my investments.
829	TX				Stocks	Bonds		I do vote with my money. Knowing what one invests in is very important. We need someone other than the issue-oriented organizations that inform their followings when something is wonky to protect investors from their funds being used against their wishes. If the SEC can't do it, who can?

830	MA			Pension				I don't believe this has as much to do with climate-related financial risks as (along with many others) the TRUE ISSUES needing to be addressed (again) are the CONTINUED financial CRIMES of Wall Street and financial institutions, along with our governments failure to stop them and hold individuals accountable! Millions of Americans still have not recovered from the last financial crisis and continued illegal foreclosures. It's SICKENING that MBS derivatives are in the quadrillions, these executives have more money despite Covid, while We The People suffer!
831	IL	401k						I don't have a lot of money to fall back on. I am relying on my 401K to supplement my income in my old age.
832	MN	401k	IRA		Stocks	Bonds		I don't like my money supporting oil companies, or companies that insure, or other environmentally damaging businesses.
833	NV				Stocks	Bonds	Other Investments	I don't need to tell you WHY, do I??? It's time to play fair!
834	CO	401k			Stocks			I don't think about how I'll make my parents proud anymore. I think about what will make my kids and grandkids proud now, and knowing that I invested in projects and companies that not only are transparent about their environmental impact, but actively work to improve it is crucial for me as an investor, a father, and a steward of earth. Without this transparency, responsible investing is not possible.
835	WI	401k	IRA			Bonds		i don't want even one dollar of my retirement to go to support any fossil fuel projects.... I DO supprot investment in renewable energy projects...
836	NM		IRA		Stocks	Bonds		I don't want my investments funding fossil fuel's and climate destruction. Clean investments only.
837	FL	401k	IRA					I don't want my investments threatening future generations.
838	FL		IRA	Pension	Stocks	Bonds		I don't want my investments to contribute to climate change.
839	NC	401k	IRA	Pension	Stocks	Bonds		I don't want my investments to speed our planet's death!
840	NM	401k	IRA	Pension				I don't want my investments used to harm the planet or donating to political parties I don't agree with.
841	VA		IRA	Pension	Stocks	Bonds		I don't want my money destroying my grandchildren's chance for a decent life. Knowing the climate-related financial risks of public companies will help investors and consumers exert pressure on companies to shift toward more sustainable practices and policies.
842	WI	401k	IRA		Stocks			I don't want my money invested in anything that is a risk for the climate
843	WI	401k	IRA	Pension				I don't want my money propping up companies destroying the earth.
844	TX		IRA					I don't want my money to be the cause of disastrous harm to the earth's climate, leaving people without safe places to live, to work, to breathe. Most of the people negatively effected will be those who are not super rich because the rich will have resources to "avoid " the harm, until the planet is destroyed and they and their families will have to face the consequences too. Wall Street should be ashamed of their absolute greed in allowing climate-related risks--when clean air, water, land is gone there won't be any left for them either.
845	CA	401k	IRA		Stocks			i don't want my money to be used for fueling climate collapse
846	IN				Stocks	Bonds		I don't want my money/investments used to destroy our environment for future generations and used to keep the guilty polluting corporations in power.
847	VA		IRA	Pension				I don't want my retirement funds and savings to not be there when I need them. AND I don't want to fund climate disaster.
848	NY	401k	IRA	Pension	Stocks	Bonds		I don't want my retirement money to be invested in fossil fuel industries because I am concerned about the effects of climate change on my children and grandchildren.
849	PA		IRA	Pension				I don't want my retirement savings invested in companies that are endangering the planet. It's bad business, and devastating to our one and only life-supporting planet.

850	FL			Pension				I don't want the earth to die of greed.
851	TN	401k						I don't want the money I invest ruining the planet.
852	CA	401k						I don't want to be blindly contributing to a problem
853	IL		IRA	Pension	Stocks	Bonds		I don't want to be invested in stocks that I'll hasten or be impacted by climate change.
854	CT	401k	IRA	Pension	Stocks			I don't want to be investing in companies that are part of the problem. We need to encourage change toward a better future!
855	CA	401k	IRA	Pension	Stocks	Bonds		I don't want to financially support or invest in companies that don't align with my politics.
856	CT	401k	IRA	Pension				I don't want to fund my retirement with companies that help kill the planet.
857	WA		IRA				Other Investments	I don't want to have my hard-earned money support fossil-fuel investments nor for insurance companies which insure fossil fuel companies or infrastructure at all. I've worked too hard for many years to clean up our environemnt and want you instead to support truly clean energy efforts.
858	WI		IRA					I don't want to invest in any business that is not environmentally friendly. I support requiring standardized information about companies climate-related financial risks to help people decide how they want their money to work toward positive ends.
859								I don't want to invest in climate be destruction
860	CA	401k						I don't want to invest in companies that are destroying my daughter's future.
861	MA	401k	IRA		Stocks	Bonds		I don't want to invest in companies that are destroying the planet by extracting and producing fossil fuels. I don't want to invest in companies that are ignoring the carbon bubble -- the inevitable moment when fossil fuel investments become worthless because policy makers and the public understand the risk of climate catastrophe.
862	CA	401k		Pension				I don't want to invest in companies that are harming the environment.
863	AZ		IRA		Stocks		Other Investments	I don't want to invest in companies which harm the environment.
864	CA	401k		Pension				I don't want to invest in fossil fuels!
865	OR	401k	IRA	Pension	Stocks	Bonds		I don't want to invest my money in fossil fuels PERIOD. I don't care how much money they're making for their shareholders- they continue to destroy the planet and fight in court to avoid responsibility. We have no time left for this and it needs to be reflected in how the banks invest OUR money.
866	CA	401k	IRA					I don't want to make dirty money
867	NC	401k						I don't want to support any company that is destroying our planet and it's climate.
868	TX						Other Investments	I don't want to support companies that are helping to destroy our wonderful planet. If they don't care about it and our children's future then I don't want to help them kill everything.
869	CA		IRA		Stocks	Bonds	Other Investments	I don't want to support companies that destroy our planet. I've switched my TIAA investments to social choice, as much as is possible.
870	CA	401k						I don't want to support killing the planet for money.
871	CA			Pension				I don't want what is left of my retirement funds to support the destruction of the planet my grandchildren will experience!
872	AZ		IRA	Pension	Stocks	Bonds		I expect honest, transparent and accountable information from public companies and the government. No "foxes watching the hen house".
873	CA		IRA	Pension				I feel strongly in general that we need as much transparency as possible in public companies, because that which is hidden always hurts the average person and not the companies and wealthy.
874	CA	401k	IRA					I feel that the major risk of our time is climate change and that all businesses must plan for this, or risk substantial, possibly catastrophic, losses.

875	PA	401k	IRA	Pension	Stocks	Bonds		I feel that we must transition to renewable forms of energy. I would prefer to invest in companies that share this view or at least do NOT fund fossil fuel projects.
876	VA	401k	IRA		Stocks			I feel these companies' responsibility does not end with financial gain, but also with looking toward the future and assessing climate related financial risks as well. Not only for stock holder's benefits, but for the benefit of all.
877	VT		IRA		Stocks	Bonds		I feel very strongly about our responsibility to the earth and my children, god-children and granddaughters; and I depend on my IRA because I have been self-employed and my husband has no pension. We live entirely on social security and my quarter time self employment (we are on our late sixties), which is minimal. And we built our home with our own two hands and prepared for this time all of our lives. Most important though: what little money I have I want to put in ethical hands that respect and care for the future and life on earth. This is vitally immediate and important to me. Please attend to these issues and give these public companies using our money some boundaries and accountability.
878	PA		IRA	Pension	Stocks	Bonds	Other Investments	I feel we need to know how our money is used to support companies that hurt our atmosphere.
879	TX	401k			Stocks			I find it very troubling that I cannot support companies that understand the urgency and necessity of acting on climate change now because companies keep investors ignorant. Ignorance is not bliss.
880	NH	401k	IRA	Pension	Stocks	Bonds		I find this information very hard to obtain
881	MA			Pension	Stocks	Bonds		I frequently adjust my portfolio when new data becomes available and a company's climate-related financial risk is one factor I always consider.
882	NC	401k	IRA					I had moved my investments to companies with environmental and socially responsible ratings. I agree that transparency could be improved for all companies!
883	FL	401k						I had no ideal that Vanguard,who holds my 401K, was funding climate change projects. I want to know where my money goes.
884	NC	401k			Stocks	Bonds		I had to delay retirement because of the debacle in 2008, and I could not survive financially with another crash like that. I'm very angry with the shenanigans that Wall Street and Banking are allowed to get away with ; nothing seems to have been done to prevent another such disaster, and in fact regulations seem to have been rolled back. There should have been more accountability and jail time for those involved back in 2008, which may have acted as a deterrent.
885	CA	401k	IRA		Stocks			I hate the thought of trying to invest for the future while my investments actually destroy the future
886	CA			Pension				I have 2 pension plans, one with Calpers and the other with SFERS. I'm sure both are invested in equities and other types of investments. I also have social security. If I was to lose my pensions I would not be able to afford rent, utilities and food.
887	CA	401k	IRA	Pension	Stocks	Bonds		I have a lot of money in the stock market and my husband and I have asked our financial advisor to move all of it out of oil and gas funds. We know we will lose money right now. We don't care. We have a 12-year-old child and we want them to have a future. My God, ANYTHING you can do to help us survive the ravages of climate change you need to do! Please! We are doing our part--do yours!
888	AZ		IRA		Stocks	Bonds		I have a right to know how the climate crisis factors into companies, & planning and projected outcomes if I am to make informed financial decisions. Morally, it is unconscionable for me to invest in companies that are not aggressively fighting climate change.
889	CA		IRA	Pension	Stocks			I have a right to know the truth about the businesses I invest in.
890	NC	401k		Pension				I have almost no information on how my pension funds are invested.

891	CA	401k	IRA		Stocks	Bonds		I have already asked my financial planner to start shifting my investments out of fossil fuel friendly companies and investment funds. We need to clearly see what fund invest in do that I can invest accordingly.
892	MN			Pension				I have always advocated for social, economic, and environmental justice, and we all must be vigilant in these times.
893	CA		IRA		Stocks	Bonds		I have an excellent financial manager, who does what I tell him is important to me - but he needs to have all the information available to us about where the companies investments are located. I do NOT wish to support coal or oil companies, but support sustainable energy and business.
894	CA		IRA	Pension	Stocks	Bonds		I have an excellent financial planner. I chose her because she only invests in socially responsible funds. Everyone should do this.
895	TX	401k	IRA		Stocks	Bonds		I have an investment counselor who handles all my finances.
896	WA	401k	IRA		Stocks	Bonds		I have asked my 401K and IRA providers to provide climate-smart investment options and have received very limited support. Standardized information from all public companies would go a long way to leveling the playing field when it comes to avoiding risk-heavy investments. I strongly support this initiative!
897	IA	401k	IRA	Pension	Stocks	Bonds	Other Investments	I have become so concerned about the effects of climate change that I have personally removed fossil fuel investments from my portfolio. The Department of Defense includes climate change in its planning for the future, and so do I.
898	IL		IRA		Stocks	Bonds	Other Investments	I have been divesting from harmful industries for decades, long before it became known as "socially responsible" or CSG. In part, that was before the Internet existed, when it was exponentially harder to find out what any given fund was investing in. Investors deserve to be able to find out whatever they want to know about a company's or a mutual fund's activities. Transparency can only aid our society's improvement in this regard.
899	TX	401k	IRA	Pension	Stocks			I have been doing the leg work myself. Quit making this important information so hard to find!!!
900	MD		IRA		Stocks			I have believed for a long time that humans are by far the most destructive of all invasive species. The human population is growing while the available living space is shrinking because of climate change that causes rising sea level. We are also causing the loss of wildlife by pollution and carbon emission. For future generations we must do all we can to preserve wildlife and the natural environment.
901	MD		IRA		Stocks			I have children who will have to live here after I'm gone.
902	KY		IRA					I have deep concerns that what I've saved up for all my life may not be enough with all the impacts of climate change and the extra expenses of extreme weather. We need to know the impact on our lifetime savings
903	CA		IRA	Pension	Stocks			I have found it difficult to impossible to assess the climate impacts of my investments. We all need to pay attention and steer our way to less climate danger.
904	CA	401k						I have grandchildren and I want them to live in a livable world! I'm old enough to remember rivers catching fire! I lived in NYC and remember not being able to see the buildings two blocks away! One of the horrible fires in CA a few years ago came within a mile of their house. There is no Planet B! And our planet is so beautiful! If we humans are so smart we should act like it!

905	NC	401k		Pension	Stocks	Bonds	Other Investments	I have grandchildren. I recognize that corporations (together with governments) are the most effective actors to address climate impacts, so their policies and actions will make a big difference on greenhouse gases, ocean acidity and productivity, reshaping of rainfall/precipitation patterns, sea level rise and indirect climate risk factors such as susceptibility to fire, disease migration and many others. I want to support corporate activity that is highly aware of these factors and undertakes to be responsible in limiting climate-jeopardizing activities, and where possible, adding to our existing tools for mitigation and adaptation to climate damage and risk.
906	NY	401k		Pension	Stocks			I have had my 401k and Ira through fidelity for years. I will be 65 this month and planned to convert some funds to a Fidelity managed annuity. But the recent announcement about Crypto options from Fidelity is so environmentally irresponsible I a looking for a new financial institution. I need to know where they stand on environmental issues. This is the primary concern for me. Leaving the planet in a better position is existential. Leaving money is not important to me at all.
907	WA		IRA		Stocks	Bonds		i have investment in mutual fund which don't consult me about where they put my $$ i cannot afford to loose any
908	PA		IRA		Stocks	Bonds	Other Investments	I have investments in part for my children and their children. What life are they to have if my investments if all of our investments are contributing to the rapid degradation of the planet? Where will people move to? How will they support themselves? How will they eat? We have to know where our money goes and we have to have a say in what businesses are supported with our investments.
909	PA			Pension				I have little future to save for if the planet is unlivable. Tracking climate related risks seems like an obvious beginning to fiscal responsibility in the future.
910	NY		IRA		Stocks	Bonds	Other Investments	I have made comments about climate change when I return my proxy.
911	CA		IRA	Pension	Stocks			I have made it a point, in my personally monitored stock portfolio, to avoid polluters, tobacco companies, and anything else that might be dangerous to the health and well-being of humans and animals on the planet.
912	OR		IRA					I have major concerns about global warming and climate change. I want my investments to reflect this concern.
913	PA		IRA				Other Investments	I have most of my retirement income through a 403b with CREF. While they can do research they can not research what is not disclosed.
914	NJ		IRA				Other Investments	I have mostly index funds, but would like to be able to see what the companies in those funds do climate-wise. Then I could talk to the investment company that runs the fund.
915	NV	401k	IRA	Pension	Stocks	Bonds		I have moved over half of my assets into divestment accounts to pull my investing away from supporting fossil fuels. If we are going to green up our transportation and energy sectors, we must also green our financial system.
916	IL	401k			Stocks			I have no choice but to invest in stocks for retirement. I do not want to invest in companies that are not doing all they can to deal with climate change, do not create a good work environment regarding diversity and equity. We have strayed very far from a civil society and full on into vulture capitalism and I want to support companies with a social and moral conscious. I would also like to see a law that limits the percentage management can earn compared to the workers. This has become unconscionable.

917	OR				Stocks	Bonds	Other Investments	I have numerous investments, both in the version of a 401K issued to employees of healthcare non-profits (I can never remember the special designation), and in both mutual funds, a family trust account, and some small investments in individual stocks and bonds. I try to choose to best mitigate risk, and do what I believe is ethically best on numerous levels, but it's impossible to do that if I don't have all the information, and if corporations aren't being entirely transparent. I also try to educate myself about potential future risks, both to specific industries in which I invest, and to our economy in general, and I believe we are in EXTREME danger from Climate Change for which we are grossly unprepared, and much of that preparation must be undertaken by private corporations to protect their holdings, or their value will be obliterated. If they aren't transparent about how they are both possibly going to be effected, and what steps they are actively taking to mitigate, divest, or prepare for the inevitable problems that are coming, I have an absolute right to be kept fully informed, frequently, of their malfeasance in this regard.
918	CA		IRA	Pension	Stocks			I have opted out of every fund that I know invests in fossil fuels, but it can be difficult to tell without receiving accurate, annual information about climate-related financial risks. The company should be telling us this so that we can make informed decisions about our investments. I do not want to invest in companies that are contributing to climate change, and I want to know the risks I am taking when I choose to invest.
919	MD		IRA		Stocks	Bonds		I have read that private equity firms are buying fossil fuel properties from the big oil companies and operating them them in a way that pollutes even more. We must know the truth about what is happening so that meaningful steps can be taken to reduce CO2 emissions.
920	IL	401k	IRA	Pension	Stocks	Bonds	Other Investments	I have recently seen some of my annuities go down significantly due to the ups and now big downs of the market. I also have a 457b.
921	NE				Stocks	Bonds		I have requested numerous times over the past 11 years since retiring that my funds be divested from any fossil fuel corporations. The answer was always the same: my advisor would say that the package my money was invested in couldn't be divided up in that way. I am not a financier and I lack the know-how and vocabulary to push back. I hope you will support this legislation to help retirees like me have more success in removing our money from the fossil fuel industry.
922	NY		IRA					I have selected fossil fuel -free funds and they have done well, but we should make it easier for the average investor to do so.
923	AZ	401k	IRA					I have shares in public utilities and want to ensure environmental impact is measured.
924	WA	401k	IRA	Pension	Stocks	Bonds		I have significant assets in my retirement and pension plans. I would like to know how these assets are being invested so as to minimize my financial risks as well as to avoid being invested in companies that are accelerating climate change.
925	NJ		IRA		Stocks			I have stocks inside and outside my IRA, and every year I at least skim the annual reports in order to vote at the annual meetings (by proxy, of course). The more standardized the financial disclosures, the easier that process is; I have been tracking CEO pay ratios, and it is very informative, including what details they supply. As a climate activist off and on since the first Earth Day 52 years ago, and seriously in the last decade or so, standardized information about climate risks would help me from both an ethical (choosing investments based on principle) and a financial perspective (avoiding the worst financial risks of climate change).
926	CA				Stocks		Other Investments	I have TIAA-CREF.
927	PA						Other Investments	I have to handle my own IRA, Roth, and Sep because they have invested in fossil fuel.

928	TX	401k	IRA		Stocks			I have to research like crazy to see if the companies my 401k management invests in are behaving themselves, and evem then i'm not sure if most of it isn't greenwashing.
929	FL		IRA		Stocks	Bonds		I have to say first that I think investment companies both hide information and honestly do not know the answers to our questions. I have an impossible time reading proxy information(to VOTE yeh or nay) because it's legalize. Do I think I know a thing about how extraction of Lithium hurts the environment? Do I think I know enough about 3D printing to say what printed items are made from? Absolutely nothing is offered to investors to glean what is out there...and if there is something negative, why aren't Companies automatically FORCED to stop the destruction. IDK
930	WA				Stocks			I have traded over 5k in stocks, plan to do more, it would help you, me and the people to have all the possible knowledge of the climate risks
931	NJ	401k	IRA		Stocks	Bonds		I have tried to divest my retirement accounts from fossil fuels, but it's very difficult to determine just where many funds/plans have their money. Even so-called "green" or ESG funds are often not transparent. As investors we have a right to know if our investments are safe and also if they meet our ethical/moral requirements. Unfortunately, neither the corporations themselves nor major retirement investors are giving us the information we need. That's why we need the SEC to require disclosure.
932	WA		IRA					I have tried to make socially responsible investments in my IRA. We know that Climate Change is a real threat to our planet and need to be aware of how our investments are involved in greenhouse gas emissions and vulnerable to the risks of climate change.
933	VA		IRA		Stocks	Bonds		I have tried with only partial success to understand how my retirement funds are being invested. I would so welcome legislation that allowed me to make informed choices when investing.
934	PA		IRA	Pension	Stocks		Other Investments	I have very little control over my own money. But - if I know more, I can make better-informed Decisions.
935	IN	401k	IRA	Pension		Bonds		I have worked for 45 years to be able to be financially secure during my retirement.
936	NY		IRA	Pension				I insist on the right to know where my money is being invested and to reject investment in companies that do harm to the environment, wildlife or people!!!

937	OR						Other Investments	I invest for my future, but moreso for the future of my children, and my grandchildren yet unborn or imagined. I have a right to demand that my investments be treated with precisely that level of foresight. This is not our world. We didn't inherit it. We're borrowing it from our great grandchildren. I have the right to have my investments reflect that. And if my investments are instead used to sabotage the future for short term gains, I have the right to know that. Banking is a service. I will make use of the services of only the banks and institutions who're unafraid of transparency. And I will purge my investments from those who do not.
938	OR	401k	IRA	Pension	Stocks	Bonds		I invest in clean. I need to be better informed about pollution if I am to invest I choose.
939	PA	401k	IRA					I just read that Corporate profits are at a monumental high and their corporate stock buy backs are continuing to rob the middle and poor class people.
940	NY	401k	IRA					I just turned 83 and rely on my investments for my living expenses.
941	NY		IRA	Pension				I just want to know the possible consequences of where my money is invested.
942	IL	401k		Pension				I know my pension plan was being mismanaged. The person from co. Handling retired 2 years before I tried to take mtpension. I was just old this person who retired and o longer worked for o. Had to sign off for me to get my pension. I had been disabled working for said co.. I informed the pension plan that the administrator had retired 2 years earlier and had to fight with co. (Old employer)to begin Receiving my pension. Plus the new person from accounting only knew howto do a lump some, which I did not want. The distribution of pensions should not be based on what the company wants to do. So receiving annual updates and access is vital to avoid fraud and incompetency.
943	FL		IRA					I know that insurance companies like Liberty Mutual fund worldwide dirty energy and exploitation of the environment, so we campaign against them. The same should be for ETF;
944	OH		IRA	Pension	Stocks		Other Investments	I like to invest in companies that support my values.
945	WA		IRA		Stocks			I like to know what public companies are doing to mitigate climate change.
946	OH	401k	IRA	Pension	Stocks	Bonds		I like to research all the company's we are invested in.
947	CA		IRA	Pension				I live and work in cities with the worst air pollution in the nation. My kids do not intend to have children of their own because of the devastating state of the planet. As a scientist, I have been worried about global warming for decades. We have so few years left before tipping points make everything permanently worse. Yet we still invest in polluting industries; we still subsidize polluting industries; and we still shield from harm the lying rats who run those industries.
948	MN			Pension				I live on my pension and thats all I have!
949	NY	401k	IRA					I live on this and my Social Security. No one deserves to be cheated.
950	CA		IRA		Stocks			I love this planet & believe it needs our protection

951	CA	401k	IRA		Stocks	Bonds	Other Investments	I make sure that I know about any climate related risks of any company I may consider investing in.
952	CA	401k			Stocks	Bonds		I make to make sure I'm divested of fossil fuels! It's evil to continue to enable these companies. We are headed toward a brick wall at 100 miles an hour, and the government needs to step in and take us off the path to extinction!
953	CA	401k						I may care short term for my 401 k but I still think long term for the planet
954	OH				Stocks	Bonds		I myself would appreciate (and benefit) by knowing that any money that I have invested is not being used for the subsequent investment in a commodity that I feel is no longer sustainable to us as a species living on this planet.
955	MA		IRA				Other Investments	I need all the information I can get to make prudent decisions about my future.
956	CA	401k						I need climate financial risk information so I can move my money to investments that don't harm the climate.
957	WA	401k						I need information so I know I am taking care of the planet with my money, not exploiting workers, or causing damage to people in other countries.
958	CA		IRA	Pension	Stocks	Bonds		I need my investments to create life and well-being for the future generations- our children and theirs and more! Not to create ever more lethal climate catastrophes, heat waves, viruses, toxics!
959	NJ	401k						I need my retirement money to live on. I want total transparency with my investments.
960	TN	401k	IRA	Pension				I need stable investments to make sure that I am comfortable and able to support myself when I transition from full time work. I want to be a responsible citizen and take care of the planet we call home.
961	CA		IRA		Stocks			I need the climate related investments risks so I can adjust my porfolio away from the climate destroying companies.
962	CA	401k	IRA	Pension	Stocks			I need the money for the rest of my life.
963	CA			Pension				I need this annual, mandated information to make choices in my investments
964	MI		IRA					I need this information because I want my investments to be in companies that are environmentally friendly or working to become environmentally friendly.
965	CA		IRA	Pension	Stocks	Bonds		I need to be able to make informed choices
966	MI	401k	IRA	Pension	Stocks			I need to be informed of my options.
967	NM	401k						I need to fully understand the risks of my investments.
968	WI		IRA	Pension				I need to have my money optimized in an ethical manner.
969	NY	401k			Stocks	Bonds		I need to have this information in order to adjust my investments to reduce my risk exposure to climate change.
970	WA		IRA	Pension			Other Investments	I need to invest with the confidence that I'll have enough money to retire in 20-25 years, and that I've done it by reducing climate change rather than maximizing it.
971	MI	401k	IRA		Stocks	Bonds	Other Investments	I need to know about climate-related risks in my investments so I can make wise decisions. This information will also raise general awareness of the economic costs and risks of climate change.
972	CA	401k	IRA		Stocks	Bonds		I need to know how much of my portfolio faces climate risks
973	MO	401k	IRA	Pension	Stocks	Bonds		I need to know how my.money is being used
974	MN		IRA	Pension	Stocks			I need to know if behavior is strictly for today's profit, or is behavior and decision making process geared to long term viability.
975	MA			Pension	Stocks	Bonds		I need to know if some companies I've invested in climate related financial risks.
976	CA		IRA		Stocks	Bonds	Other Investments	I need to know that my retirement income and long-term care is safe.
977	CA	401k	IRA		Stocks	Bonds		I need to know what my invested money is funding in terms of business impacts to climate change. It is not fair to be in the dark about what companies are doing with my investment as it impacts global health.

978	NY				Stocks	Bonds		I need to know what my money is really being used for.
979	MD		IRA		Stocks	Bonds	Other Investments	I NEED to know what organizations are doing with the money I am investing! Knowledge gives me the power to support and invest in organizations that preserve, protect, and restore our planet, fight against Climate Change and are aligned with my values and desires.
980	NY				Stocks			I need to know what the companies are doing and how well they are faring.
981	WA	401k	IRA		Stocks			I need to know what the risks from climate change are on my investments as well as have the information I need to evaluate whether a company's climate impacts are compatible with my values.
982	UT	401k			Stocks	Bonds		I only want to invest in products that reflect my beliefs. Foremost among these is investing in plans that are climate change conscious and do not want to invest in businesses that profit of climate threatening products
983	CA	401k			Stocks			I only want to support climate conscious companies and stocks.
984	WA		IRA	Pension	Stocks			I own some stocks, making me an "owner" of some companies. But I really do not know what those companies do in relation to the environment. I would like to know.
985	WA		IRA		Stocks			I participate in a campaign called Stop the Money Pipeline whose strategy to avert civilization-destroying runaway climate disruption is simple: don't give money to the companies who are making that disruption happen. (This should be expanded to include companies throwing money away on things like coastal real estate.) Polluting industries are also taking terrible risks with investors' money given that worsening climate chaos will eventually lead to government demands that would throw these companies into financial disarray. The more we can incentivize them to start doing the right thing sooner, the better--and the people they listen to most are their wealthy investors. Please make a rule that clarifies the unacceptability of leaving those investors' long-term financial security in the lurch by allowing companies to ignore how their operations harm the global climate and vice versa.
986	WI	401k	IRA	Pension	Stocks	Bonds		I prefer to invest in socially responsible companies.
987	CA							I prefer to invest my money with financial institutions that make investment decisions on climate issues. I need this information to make informed investment decisions.
988	KS		IRA	Pension	Stocks			I prefer to invest only in companies that work to mitigate climate change risk.
989	WA		IRA		Stocks	Bonds	Other Investments	I prefer to survive long-term
990	ME		IRA	Pension	Stocks	Bonds		I realize we need to be aware of our impact on Climate Change and Global Warming. It would help me make informed decisions in my investments.
991	NY		IRA	Pension				I really want to know and compare how companies which I invested in are adjusting to climate change. If information they report is standardized, I believe it will be easier to spot those that are greenwashing their actions.
992	CA		IRA	Pension				I recently asked my Fidelity advisor to divest the oil company stocks, which they did for me. However, I am sure there are many other companies that have contributed to climate change and I would like that information to inform my investments.
993	PA	401k	IRA		Stocks	Bonds		I rely on these investments to support myself for the rest of my life.
994	CA		IRA	Pension	Stocks	Bonds		I see mandated, standardized information about climate financial risks as similar to how loan information was done. It keeps confusion to a minimum.

995	OH	401k	IRA	Pension				I see many companies talking the talk, but not actually being active in fighting climate change. A published list of the "good guys" would help activists, like me, and also put the companies out there in the public eye.
996	VA	401k	IRA		Stocks	Bonds		I seek to develop a green and clean portfolio of investments in high-scoring ESG-rated firms and funds. I look to the US Government to provide me with the information helpful to making my investment decisions. Such a government role, facilitated by the SEC with this information requirement is essential to efficient and effective performance of our free market system.
997	NY		IRA					I should be able to invest my money according to my standards and ethics.
998	CA	401k						I should be able to know if I'm investing in companies that are taking away my future, polluting and killing folks in BIPOC communities, and making risky investments that won't pan out in the long-term. There needs to be more transparency to make sure we know where our money - our retirement savings - are going if we are to truly invest in our futures, not against them.
999	MI	401k	IRA					I should be able to receive the same information as big corporations, their C-suite executives, and wealthy investors. Why is Warren Buffet or Bill Gates any different from me other than their wealth.
1000	AZ	401k	IRA					I should have the ability to choose investments from companies that are environmentally and morally responsible.
1001	NY		IRA		Stocks	Bonds		I should have the opportunity to move my money out of companies that have policies and practices of which I disapprove.
1002	NM	401k						I specifically invest in socially responsible companies. I would love for that to be easier than it is.
1003	AK	401k	IRA	Pension	Stocks	Bonds		I strongly believe in the need for Wall Street and large Corporations to use my invested money in environmental responsible ways. We must stop funding the ravage fossil funds are doing to our world.
1004	WA	401k	IRA		Stocks	Bonds		I strongly believe in, and practice, "voting with my wallet". Investors deserve full transparency about how our money is being used.
1005	AZ	401k	IRA	Pension	Stocks		Other Investments	I strongly support annual mandated standardized info about public companies' climate-related financial risks because I want to make informed choices about my investments, given the current climate catastrophe. Thanks.
1006	MD	401k						I strongly support mandatory standardized information about climate-related financial risks. Without a clear picture of climate impacts from financial activity, its investors have no way of knowing what they are or are not supporting.
1007	NY		IRA		Stocks			I strongly support the SEC's climate-related disclosure rules. I'm counting on my IRA and stock investments to supplement my social security funds for retirement and need to understand the risks to help me make good financial investments to secure my future. Thank you.
1008	NY	401k						I strongly support these disclosures and am proud and excited by the SEC pushing this important work forward as it is critical for companies to disclose their ESG information and risks to the public!
1009	TX	401k	IRA					I support annual mandated information about climate related financial risks. This information would be helpful when deciding on what companies I should invest in.

1010	WA	401k	IRA	Pension	Stocks			I support annual mandated standardized information about climate related risks so that I can choose my investments wisely both in terms of their impacts on communities and their impacts on my returns. Information is always helpful; I want to be a better educated and informed investor. You can help me make that happen.
1011	AZ	401k	IRA		Stocks	Bonds		I Support annual Mandated Standardized information about public companies climate-related financial risks. I need to know about these risks when I invest my funds.
1012	MD		IRA		Stocks			I support annual mandated standardized information about public companies' climate-related financial risks because I want to invest in stocks and other financial instruments that are helping us reach our national stated goals regarding the slowing of climate change. If we do not know about companies' climate-related financial risks, we are flying blind and not slowing climate change.
1013	VA		IRA	Pension	Stocks	Bonds		I support annual mandated standardized information about public companies' climate-related financial risks because it's good for the public. Companies should be bound to conduct their business in ways that are ethical and good for the public.
1014	CO		IRA		Stocks	Bonds	Other Investments	I support annual, mandated standardized information about public companies climate-related financial risks because investors should be informed about how their financial decisions affect the climate. We need to address climate change urgently and this added transparency could help to drive the switch from fossil fuels to cleaner energy.
1015	WA	401k	IRA				Other Investments	I support annual, mandated standardized information about public companies' climate-related financial risk because companies shouldn't put profits ahead of the future of our planet.
1016	CA		IRA	Pension	Stocks	Bonds		I support annual, mandated standardized information about public companies' climate-related financial risk because I have a right to protect my financial future (and the SEC has an obligation to protect my right) and because I need this critical information to make informed financial decisions.
1017	TX	401k	IRA				Other Investments	I support annual, mandated standardized information about public companies' climate-related financial risks because all investors should have access to any information that affects their investments.
1018	OR		IRA		Stocks	Bonds		I SUPPORT ANNUAL, MANDATED STANDARDIZED INFORMATION ABOUT PUBLIC COMPANIES' CLIMATE-RELATED FINANCIAL RISKS because frankly it is, as they say, a no brainer. It is a major issue of our time and not something the SEC can ignore and investors have the need and the right to know this information. Thank you for your service.
1019	VA						Other Investments	I support annual, mandated standardized information about public companies' climate-related financial risks because it makes me a more informed investor.
1020	CT	401k	IRA		Stocks			I support annual, mandated standardized information about public companies' climate-related financial risks.
1021	AZ							I support anything that will make climate a front and center subject in the world.
1022	MA			Pension				I support divestment and don't want my funds invested in killing the planet
1023	MA	401k	IRA	Pension	Stocks	Bonds		I support halting Climate Change. I show that support by investing my money in alternative energy ands socially responsible companies. People have the right to know who those companies are and who they are not ! Transparency Now ! We will find out !
1024	FL		IRA	Pension	Stocks	Bonds		I support mandated and standardized information about public companies and their climate-related financial risks.
1025	NC		IRA		Stocks			I support mandated climate risk information. My wife and I are retired and need this information to ensure that our investments do not support increasing the threats posed by the climate crisis.
1026	MN		IRA		Stocks	Bonds		I support mandated information about climate-related financial risks because 1) It's ethical; we live here and hope to continue; and 2) it affects my future wellbeing.

1027	MN	401k	IRA	Pension	Stocks	Bonds		I support mandated information on climate related financial risks because we should have information on how our money is invested .
1028	MT		IRA					I support mandated information to be disclosed by all companies when it comes to their climate financial risks.
1029	CA	401k	IRA	Pension			Other Investments	I support mandated standardized climate-related risk information on all of my investments. It would be next to impossible for an individual investor to dig up this info company by company.
1030	TX	401k						I support mandated standardized info about public companies.
1031	PA				Stocks			I support mandated standardized reporting on climate-related financial risks because some companies, maybe most companies, have short-term profits in mind, not long-term decisions for the common good. What is good for the planet is good for the people.
1032	OH		IRA	Pension				I support protection of pensions and IRAs against any potential risks, including having full knowledge about public companies' climate-related financial risks.
1033	MA		IRA	Pension	Stocks	Bonds		I support standardized information because can't go ongoing nothing about a life-changing issue, and need ot know the facts in order to do what needs to be done.
1034	CA	401k	IRA		Stocks			I support the SEC requiring climate-related disclosures since they would be standardized, making them comparable between different companies to help investors like me made decisions about the risk current and proposed investments may have.
1035	WA				Stocks	Bonds		I support the SEC transparency rule so I can exercise my freedom to investment in what I want, not what is packaged for me.
1036	CA	401k	IRA	Pension				I support the SEC's new rule because it's only fair. People need to know what their hard earned money is doing and what the risks are. They should not be pawns of the system. Most employers do not offer pensions any more, so people retirement hope are all invested in their 401Ks. Also they may not want to support Fossil Fuel infrastructure.
1037	VT		IRA	Pension				I support this because the activity and finances of public companies contributes significantly to climate changes.
1038	WI		IRA		Stocks			I support this cause because big businesses need to be held accountable for their environmental actions.
1039	CA						Other Investments	I support this cause because companies who are entrusted with a person's funds should have transparency.
1040	MN	401k	IRA	Pension	Stocks			I support transparency in how companies are impacting the climate so I can make better decisions about my investments.
1041	NJ			Pension				I switched my bank, and my phone to fossil free companies. Got a lot of my friends and family to switch as well.
1042	OR	401k					Other Investments	I take care in my daily life to do things like reduce plastics, not waste energy by watching the thermostat, combining trips by car, etc. But even though I do those things to save electricity, gas, water, landfill space, it is small compared to what large companies could do. I have found it hard to choose mutual funds that care as much as I do.
1043	NM		IRA		Stocks			I take climate change seriously. I'm in the process of switching my investments to companies that share my values.
1044	OR	401k	IRA	Pension	Stocks	Bonds		I take into consideration which companies invest in what types of projects. I make my best attempt to be cognizant of investing in a socially responsible way.
1045	CA	401k	IRA	Pension				I think Climate Change is the largest threat to humankind, and to the world habitat in general, in my lifetime, and I'd like to have information about the climate implications of financial investments.

1046	PA		IRA				Other Investments	I think everyday investors who have their important life retirement savings invested in various funds need more transparency on what companies are doing that contribute to climate change and even more important what they are doing to reverse this existential risk to humans here in the US and vulnerable people all over the world.
1047	HI	401k	IRA	Pension	Stocks			I think everyone deserves annual updated information concerning our retirement & investments
1048	WA		IRA					I think if a company is publicly traded, there should be transperancy.
1049	MO				Stocks	Bonds		I think investors should be able to get accurate information on not only a company's directly created climate-related risks, but also the risks created by the use of the products the company makes. The end use is by far the most potent and critical part of the disclosure.
1050	ME	401k	IRA		Stocks	Bonds		I think it is grossly unfair to use investor money to finance fossil fuel extraction/ development. This mandated disclosure is a great start to cleaning up this poor practice.
1051	NY			Pension				I think it is important to know what our investments are based upon.
1052	WA		IRA	Pension	Stocks	Bonds	Other Investments	I think it's especially important for large managed pension plans, which most of us have no input into the investments.
1053	MD	401k						I think it's important that everyone know where their money is going, and who it is funding. Transparency is key.
1054	CA		IRA					I think it's important to know which companies are curtailing efforts to protect our environment.
1055	AZ	401k			Stocks			I think that 100% transparency is important to gain the trust of public companies. If there isn't that transparency, people can't trust what they truly are saying or doing.
1056	KY			Pension	Stocks	Bonds		I think that corporations and businesses need to be held accountable in their support of our national plane to reduce our carbon "footprint." Large manufacturers need to be brought into compliance with the national plan to be safer environmentally. I want companies to be forced to alter their mindsets and their business policies for the survival of our planet.
1057	NY	401k		Pension				I think that we should have complete information on the institutions providing our income in retirement.
1058	MT	401k		Pension		Bonds		I think we all deserve to have the same information when it comes to our investments
1059	NC	401k	IRA	Pension	Stocks	Bonds		I told my stockbroker many years ago that I want my investments to be in companies that try to be as green as possible.
1060	CA		IRA					I tried to invest in companies that were mitigating their climate change emissions but there wasn't/isn't adequate info.
1061	MI		IRA	Pension	Stocks	Bonds	Other Investments	I try not to be supportive of banks and corporations that don't reflect my values. I need to know what these banks and companies are doing in order to support those whose values are in line with my own.
1062	CA	401k	IRA		Stocks	Bonds		I try to avoid investing in fossil fuels and business at risk from climate change. Disclosure rules would make it easier to choose the right companies for my investments.
1063	VA	401k	IRA	Pension	Stocks	Bonds		I try to be a responsible investor by relying primarily on social responsible funds. But I am sometimes hindered in carrying out my own responsibilities as an investor by the difficulty in obtaining accurate information about companies' environmental footprints and climate-related risks.
1064				Pension	Stocks		Other Investments	I try to ensure that all my investments are environmentally friendly and welcome transparency of public companies regarding climate-related financial risks.
1065	NC	401k	IRA	Pension	Stocks			I try to invest in companies with ESG commitments, so I endorse full, honest disclosure, not empty promises. Thank you!
1066	CA				Stocks	Bonds	Other Investments	I try to invest in environmental friendly investments. When I discover any of are involved in less than earth-friendly products I plan to devest of them as soon as possible

1067	MA		IRA		Stocks	Bonds	Other Investments	I try to invest inways that will support efforts to reduce climate impact and increase clean energy but it is very difficult to get the information.
1068	CA	401k	IRA	Pension				I try to keep up with my investments and have divested from companies that fuel assault weapons, tobacco, and Monsantos. I will continue to divest from companies that don't try to be better. I'd rather have less money, than ill-gotten money. I vote with my dollars.
1069	VT		IRA	Pension	Stocks	Bonds		I try to make sense of the annual reports of the stocks I own, but it's not easy. It would help to have a mandated format for reporting climate related financial risks in plain language.
1070	NC			Pension	Stocks			I urge public corporations & Wall St. financial information mandated via SEC standardized & accessible for investment risks & decisions to act on (climate related, economic justice/equality matters).
1071	OR	401k		Pension	Stocks	Bonds		I urge the SEC to adopt the climate disclosure rule, and not rely on companies to self-disclose (never a winning strategy!) I want companies to disclose how they are affecting the environment and indigenous peoples who rely on the natural world. I have ESG investments at Vangard, and I really feel that I may need to sell them and move my money-- it wasn't clear to me how negative a portion of the holdings are. If we know how Vanguard and other investment companies are investing our money, we can pressure them to change.
1072	MO							I use this info to guide my investment decisions and hold it in the highest regard
1073	FL	401k	IRA		Stocks	Bonds	Other Investments	I vote with my money and the SEC has a responsibility to thwart misinformation
1074	CA		IRA					I want a healthy future for my daughter and all who come after me.
1075	IL		IRA		Stocks	Bonds		I want a say in my investments.
1076	PA	401k	IRA		Stocks			I want access to the same quality, standardized information as large, wealthy investors.
1077	FL	401k		Pension	Stocks	Bonds	Other Investments	I want full information when deciding what stocks, bonds etc. I invest in and Climate Change related risks need to be taken into consideration!
1078	CO			Pension	Stocks	Bonds		I WANT HONESTY IN ALL MATTERS FINANCIAL AND OTHERWISE.
1079	IL	401k	IRA					I want my assets to be as well protected as possible from the growing threat of global warming and climate change as possible. Public notification allows me to make the best choices for my family's financial future.
1080	IL	401k		Pension				I want my grandchildren to inherit a habitable planet!
1081	NH	401k	IRA	Pension	Stocks			I want my hard earned money to preserve and enhance our planet, not destroy it.
1082	CA	401k	IRA	Pension	Stocks	Bonds		I want my investment in MY future to be an investment in the future of the World and life as we know it.
1083	IL	401k	IRA		Stocks	Bonds		I want my investment to work for a clean energy future.
1084	MN	401k	IRA	Pension	Stocks	Bonds		I want my investments and returns to be as climate-friendly for me and others following my demographic. This action will help ensure that companies that receive public investments do so in an ethical and responsible manner that will allow investors to make good investment decisions.
1085	CA			Pension				I want my investments OUT of fossil fuels as soon as possible. I hate the idea that they're being used to fund these industries.
1086	WA	401k	IRA		Stocks	Bonds		I want my investments to be clearly defined by the climate risk they will be taking on, and I want the stocks I follow to be safe for the future of humanity.
1087	CA		IRA	Pension			Other Investments	I want my investments to be climate friendly and need the tools to choose.
1088	WA			Pension			Other Investments	I want my investments to be climate friendly. I do not want to support damage to the climate, or to the earth.
1089	IL		IRA	Pension	Stocks			I want my investments to be used for the good of the environment and earth.

1090	KY	401k	IRA	Pension	Stocks	Bonds		I want my investments to help the environment and the future of the earth, NOT degrade and destroy it.
1091	TX		IRA		Stocks	Bonds		I want my investments to honor our climate and future and hope that they do. I think all public companies should be limited from hurting our climate future.
1092	FL	401k	IRA					I want my investments to match my priorities
1093	CO				Stocks			I want my investments to pay off in 30 years when I retire. I want to know what companies are planning for that timeline, with the reality of climate change that is already underway; and that are planning with my children's and grandchildren's future in mind, and working to mitigate further effects of climate change.
1094	IA	401k						I want my investments to support only what I believe in.
1095	OR	401k	IRA	Pension	Stocks			I want my money supporting the FUTURE -- and my children and grandchildren will have no future if we do not take care of Mother Earth. "If Mamma ain't happy, ain't Nobody happy."
1096	WI	401k		Pension				I want my money to be invested ethically and in lone with my beliefs and the only way that can be done is if companies are transparent about their sustainability and their impact on climate change.
1097	TX			Pension				I want my money to come from companies who are ethically and morally responsible for the Earth and all humans who live on this planet.
1098	PA			Pension				I want my retirement investments to be transparent
1099	VT	401k	IRA	Pension				I want my retirement savings to contribute to a greener future, not one mired in climate change.
1100	OH		IRA	Pension				I want no part in planetary destruction
1101	NJ	401k		Pension	Stocks	Bonds		I want the companies that I've been invested in to be better responsible for their actions and products, ethically and environmentally. I frequently change my portfolio to reflect that in my investments.
1102	MD	401k						I want the knowledge so I decide if my 401K's are being invested in policy's I approve of.
1103	AR	401k	IRA	Pension	Stocks	Bonds		I want the public companies to be invested in clean energy. There is no planet B -- we are on the path to destruction with fossil fuels.
1104	HI	401k	IRA	Pension	Stocks	Bonds		I want there to be a future worth saving for and a habitable planet to pass on to my child.
1105	IL			Pension				I want this valuable information for myself and for my pension plan administrators for transparency and good governance, and to stop public companies' from being silent or just green washing on this issue.
1106	CA	401k	IRA		Stocks	Bonds		I want to be able to compare environmental impact across different investments, and hold companies responsible by keeping my money out of business that hurts my children's planet.
1107	OR		IRA	Pension				i want to be able to control where my money is invested, but to do that, i need information.
1108	NV			Pension				I WANT TO BE ABLE TO DO SOCIALLY CONSCIOUS INVESTING. PLEASE DEMAND FULL DISCLOSURE.
1109	MA	401k	IRA		Stocks			I want to be able to fully understand the climate/financial risk that is in my retirement money to make sure my portfolio characteristics are truly in line with my risk tolerance. I'm depending on this money in my old age!
1110	OR	401k	IRA		Stocks			I want to be able to have that information so I can invest in companies that I think present a safe, valuable, long term investment.
1111				Pension				I want to be able to know where my money is being spent so I can make informed decisions about how my money is invested.
1112	CA		IRA		Stocks	Bonds		I want to be able to make informed choices about the companies I support.

1113	CA		IRA				Other Investments	I want to be able to make informed choices, investing my money in climate-neutral companies and eschewing the big (and hidden) polluters!
1114	MD		IRA		Stocks			I want to be able to more accurately assess the climate risks affecting my investments, and I want the asset managers who put together the funds I buy to be able to do the same. In addition, I want to limit warming to safe levels. Ratcheting up pressure on financial actors by including scope 3 emissions in disclosure requirements is a powerful lever to make that happen.
1115	WA	401k	IRA	Pension				I want to be able to see to what extent my investments are used to finance fossil fuel enterprises, because I want to get rid of any such investments. The future of our planet and its climate depends on ending all use of fossil fuels ASAP.
1116	CA		IRA	Pension	Stocks	Bonds		I want to be an informed investor.
1117	MA	401k						I want to be check that my money is not being used to support the fossil fuel industry.
1118	PA	401k	IRA	Pension	Stocks	Bonds		I want to be fully informed
1119	CA				Stocks	Bonds		I want to be informed about my investments so I can make informed decisions. I do not want my money going to fossil fuel projects. These guidelines will help me do that.
1120	AZ		IRA					I want to be informed so I can make appropriate choices about investing and divesting.
1121	CA	401k	IRA	Pension				I want to be more responsible with my investment monies
1122	MT		IRA		Stocks	Bonds	Other Investments	I want to be sure my investments are not contributing to the climate catastrophe.
1123	MA	401k	IRA	Pension				I want to be sure none of my hard-earned money is supporting activities that hasten the end of the world as we know it.
1124	CA			Pension	Stocks	Bonds	Other Investments	I want to divest from fossil fuels. Given the accelerating climate crisis, we need to shift from fossil fuel to renewable energies as quickly as possible. As a responsible investor, I need clear information where my money is going and what I am supporting. Secondly, fossil fuel investments are bound to loose value in the foreseeable future, and I also need to be able to gauge the risks associated with my investments. Please mandate banks to disclose.
1125	CO	401k	IRA		Stocks			I want to find alternate investments into which I can reinvest the required minimum distributions from my existing accounts. I want to know what is both beneficial to the planet and carries the least risk from environmental changes.
1126	SC		IRA		Stocks	Bonds		I want to go back to when the anti-trust acts had meaning and corporations didn't rule and business didn't buy votes in Congress. Let's hold people accountable -- heh, what an idea!
1127	MO	401k						I want to have all the information I can get to protect my investments and the sustainability of the planet for future generations.
1128	NY	401k	IRA	Pension	Stocks	Bonds		I want to have input into what I am spending my money on.
1129	WA		IRA	Pension				I want to help decrease our dependence on fossil fuels so that we are helping to protect our planet from disaster. So I really want to know how Wall Street is investing our money, no only mine but that of millions of Americans.
1130	CA		IRA					I want to invest in a healthy future for everyone and the more information I have the better decisions I can make.
1131	MD				Stocks	Bonds		I want to invest in companies that are actually helping end climate change. Add rules to make efforts to end climate change available to investors and companies.
1132	CT		IRA		Stocks			I want to invest in companies that are effectively reducing their carbon footprint through direct action in their operations and need full disclosure from the companies about their greenhouse gas emissions
1133	MD							I want to invest in companies that are green rather than those that benefit from practices that damage the environment. Money talks. I think one way to motivate big companies to make changes is to stop supporting them financially.

1134	OH	401k	IRA					I want to invest in companies that support a healthy climate for all
1135	TX	401k	IRA	Pension	Stocks	Bonds		I want to invest in companies that take climate change seriously, not ones that see it as a threat to their company's existence.
1136	NJ			Pension	Stocks	Bonds	Other Investments	I want to invest in companies that take climate change seriously.
1137	LA		IRA		Stocks	Bonds		I want to invest my money in companies that are working to protect the environment. I see too much green washing, and we need more information.
1138	MA	401k	IRA					I want to invest my money in forward thinking reliable companies, not companies that profiteer off of Americans.
1139	ME	401k	IRA		Stocks			I want to invest responsibly. It is a real challenge to do so now, because I need to do so much research to find out even the most basic details about public companies and how "green" or responsible they are. Even with the lack of available details, I can tell that the "green" funds that I currently invest in a far from green. For example, most of them include stock from Microsoft or Apple.
1140	CA		IRA		Stocks	Bonds		I want to know about the companies I invest in. If they are relying for their profits on practices that will likely fail under the pressure of a changing climate or reduced use of fossil fuels, I deserve to know about it.

1146	NY	401k	IRA	Pension				I want to know how much they are investing in fossil fuel companies and how much they are investing in renewable energy, so I can advocate for the latter.

1148	FL		IRA		Stocks			I WANT TO KNOW HOW MY INVESTMENTS ARE MAKING THEIR MONEY.
1149	CT		IRA					I want to know how my money is used in my investments because I want to avoid adding to the extreme danger we are now facing from climate change, which has been driven by placing too much importance on profits alone. 1151	NY	401k	IRA					I want to know if any of my funds may have potentially stranded assets or are engaged in practices that could be litigated in the future.
1152	NH	401k			Stocks	Bonds		I want to know if I am at risk of losing my children's college funds, and my ability to take care of myself into my old age. I have the right to fully understand the risk I am taking as an investor, and to make informed choices.

1157	CA	401k		Pension				I want to know if the companies I am invested in are exposed to climate risks
1158	WA		IRA	Pension	Stocks			I want to know that companies are looking and planning ahead for realities that are coming rather than focusing on short term profits.
1159	PA		IRA	Pension			Other Investments	I want to know that my investments are furthering healthy growth in the economy, not supporting destructive entities.
1160	PA			Pension				I want to know that my investments are safe from climate-related financial risks. Climate issues must be taken into consideration in everything we do as we move forward.
1161	WA		IRA		Stocks			I want to know that my savings and investments are working to help , not harm, other people and life on this planet. It may be that whatever I do to try to improve my family and society at large is undone by the ways that my savings are invested. I would like to have control over how this money is used.
1162	MD	401k		Pension				I want to know the climate effects of companies in order to make decisions about my investments.
1163	MI			Pension	Stocks			I want to know the financial risks of my investments as regards climate instability. I want a yearly assessment and report.

1169	WA		IRA	Pension	Stocks	Bonds		I want to know the risks I may take in the investments my funds have and will continue to support. I want to be able to choose only more environmentally supportive investments.
1170	CA			Pension	Stocks	Bonds		I want to know the security of my retirement.
1171	CA	401k	IRA		Stocks	Bonds		I want to know to what extent public companies are involved in activities that negatively affect the climate since global warming and all that it entails will create a world crisis.

1190	CO		IRA		Stocks	Bonds		I want to know whether my companies support reducing fossil fuels. NOW
1191	CA	401k	IRA		Stocks		Other Investments	I want to know whether my money is funding activities that are accelerating climate change - and move it to companies/funds/places where the money has both less climate-related financial risks, and ideally is working to mitigate, adapt, and reduce climate risks (both financial and non-financial) for the world.

1209	IL		IRA	Pension	Stocks			I want to remain solvent and informed.
1210	MO		IRA					I want to save for retirement and/or emergencies like anyone else. It should be a basic right to save money for retirement without directly funding projects and companies that cause harm to yourself and others. It's counterintuitive to save for emergencies by supporting companies that cause or contribute to those emergencies, and it's unamerican to allow companies to hide this kind of information from investors, therefor refusing Americans the right to make informed decisions.
1211	TX	401k	IRA	Pension	Stocks			I want to see that the investments that others are taking care of for me, in my accounts, are not hurting the earth. I want transparency.

1217	OR	401k	IRA	Pension	Stocks	Bonds		I was taken advantage of by Sears Bankruptcy. Please find it in your heart what little that might remain to take action for our children and children's children to assist in transparency for public companies. The future belongs to all not just a few who are above any regulations. Thank you.
1218	MO	401k			Stocks			I wat ALL information regarding my investments! I pay attention to what I am invested in and want to align with stocks that are investing in companies and areas within society that I think work for the good of this country. So, YES, I want to know more about environmental issues and my portfolio. Company information should be publicly disclosed. Period! 1228	NC	401k						I won't invest in any fossil fuels, mining, animal farming or research.
1229	WA		IRA					I work for a large tech company by managing their carbon emissions for corporate facilities, and see how much of a company's impact is from Scope 3 emissions. If the SEC does not create mandatory disclosure for Scope 3, we will omit the majority of a company's emissions from SEC regulation.
1230	NJ	401k		Pension				I worked for 40 years as a nurse & as a nurse-midwife. Most of the years, I cared for poor women in clinics. I could have made much more money in law or business, but I wanted to help women in need. I am in a pension plan & have a tax-deferred annuity. They are an important of my retirement income. I deserve to know if my savings are at risk because of climate change.
1231	CT	401k	IRA	Pension	Stocks	Bonds	Other Investments	I worked for years to save the money in my retirement accounts and I want it protected from financial firms that would allow it to be compromised by climate change and flooding, etc.
1232	MA		IRA	Pension				I worked hard as a social worker for low pay and I want my investment plans to support a just and safe environment and not to sink into stranded assets and climate warming menaces.
1233	IL		IRA	Pension	Stocks			I worked hard for 40 plus years, and I skimped and saved to be able to have money to leave my children. I already lost all of my money from Social Security, because my last job of 34 years was in teaching. Due to the windfall amendment, because I worked essentially for the city, I am not allowed any of the moneys that I contributed to Social Security from other jobs. I am also not permitted to collect half of my husband's Social Security. I can't afford to lose my retirement accounts, because I may have to fall back on them to live.
1234	TX		IRA		Stocks	Bonds		I worked hard for many years and saved 10% of my salary the entire time. I am now 79 and unable to work at a job anymore. I don't want to lose my hard-earned investments because there is pertinent information about a company I am invested in that may impact my income when I am not being told this information.
1235	UT	401k	IRA	Pension				I worked hard for my money and I don't want it going to climate destroying companies/industries.
1236	MD	401k	IRA	Pension	Stocks			I worked hard for my money, and don't want to lose it. I also am concerned about climate change and its impact on our future.
1237	PA	401k	IRA					I would appreciate a reliable means of comparing the environmental impact of my investments and potential investments in order to help minimize my dollars impact on the property on our environment.

1246	CT	401k	IRA	Pension				I would like to be able to request moving my retirement money to non fossil fuel investments.
1247	MI	401k	IRA					I would like to be able to retire.
1248	CO	401k	IRA					I would like to have access to the climate-based risks of my investments to help me make good investment decisions.
1249	CO		IRA	Pension	Stocks	Bonds		I would like to know how my investments are affecting the lives of people, including myself and others who are not as fortunate as I am. Disclosures like these are essential for citizens to make choices in how we invest and consume products.
1250	CA			Pension	Stocks	Bonds		I would like to know my investments fight climate change.
1251	UT	401k	IRA	Pension	Stocks	Bonds	Other Investments	I would like to know that my money is not being invested in climate degrading businesses.
1252	MI						Other Investments	I would like to know the type of climate impact the funds I am invested in have on the environment as I am a lifelong environmentalist.
1253	NJ		IRA	Pension				I would like to know what condition my investments are in.
1254	TX	401k	IRA	Pension	Stocks	Bonds		I would like to know what I am investing in. I also don't want to invest in a stock that isn't environmentally sound.

1261	MO	401k						I would like to stop supporting polluting industries with my nest egg.
1262	FL		IRA	Pension	Stocks			I would like to think it would keep 'em honest.. Unfortunately, the big companies will find a way around while the little companies comply.
1263	AZ		IRA	Pension	Stocks			I would never knowingly invest in a company that burned the Amazon Rainforest or poisoned indigenous people, so when I found out that Schwab's ishares fund included BlackRock, I asked to divest from that fund and join an environmentally responsible fund. My financial adviser didn't know of BlackRock's uncaring actions either!
1264	OR	401k	IRA	Pension				I would not have my funds invested in companies who are in the fossil fuels sector.
1265	WA	401k	IRA					I would prefer to invest with companies that work to protect and preserve our environment
1266	MI	401k			Stocks	Bonds		I would prefer to not help these companies financially, on top of risk my retirement with climate crisis publicity. Let's start to help the citizens and require the disclosure of fossil fuels.
1267	WA				Stocks	Bonds		I would really appreciate a guide to invest.
1268	KY	401k	IRA	Pension	Stocks	Bonds	Other Investments	I would think it vital for investors to have all information necessary to make decisions.
1269	MO			Pension	Stocks		Other Investments	I would very much like to be informed!
1270			IRA	Pension	Stocks			I, as a retired biologist from the Fish and Wildlife Service, believe this is the only way the SEC can ensure that all interested parties can get full disclosure! In this era we all need to know whether the corporations we invest in are fully protecting our precious environment!

1271	NH	401k						I, as an investor, should have a right to know if a company holds my values of trying to protect our planet and the desire to hand my children and all children a healthy environment to grow up in an live on in the future.
1272	KY						Other Investments	I, like many others, would prefer not to invest in fossil fuels and contribute to the destruction of the planet.
1273	OR		IRA	Pension	Stocks	Bonds		I'd feel calmer knowing that corporations understand that money in fossil fuels is a foolish move now that it is clear what is happening to our climate. Help those execs see the big picture, please.
1274	MN	401k	IRA		Stocks			I'd like to avoid investing in polluters and those companies at risk from climate change.
1275	AZ		IRA		Stocks	Bonds		I'd like to easily know whether my investments are helping or hurting our living environs.
1276	VA				Stocks	Bonds		I'd like to know how much damage companies I financially support are responsible for. On a larger scale I believe that with more exposure of the damage caused we might prevent the next Cancer Alley from forming.
1277	NY			Pension	Stocks			I'd like to know if companies I'm invested in share my views on climate related issues.
1278	TX		IRA				Other Investments	I'd like to know where my cash is and that it is generating profits rather than losing money or becoming stagnant. Full disclosure is necessary.
1279	CA	401k	IRA	Pension	Stocks		Other Investments	I'd really like to know that the fees earned off my investments are not supporting companies taking climate-related risks or damaging the environment.
1280	NY	401k	IRA	Pension	Stocks	Bonds		I'm 78 yrs old and still working. I invest in EFTs, stocks and bonds geared toward green energy alternatives, from wind to solar to the latest battery designs. I would like all companies to be transparent about their energy usage, where it comes from and what they are doing to help or hinder the world climate.
1281	WI						Other Investments	I'm 83. I don't have time for making investment mistakes and the making time consuming corrections. I need to have environmental information needed to make investment decision carefully to avoid risky areas. Thank you.
1282	FL	401k	IRA		Stocks	Bonds	Other Investments	I'm a clinical pharmacist and I, along with the medical community, recognize that climate change and air pollution from the burning of fossil fuels are our greatest health threat. To allow financial organizations contribute to practices known to devestating human health with no accountability cannot continue. Investing in these practices further advances us towards devastation of our health and our economy. We can not wait any longer. Please do the right thing today.
1283	CO	401k		Pension				I'm a former professor of management who taught sustainability management at the University of Tulsa School of Law. The principles of full cost/life cycle accounting require that we include consideration of climate risk. It's imperative that investors have standardized information to assess the real risks of their investments.
1284	NC	401k						I'm a high school teacher and sustainability coordinator. Next year, my students in Environmental Sustainability will begin working with our economics class to examine the environmental impact of our school's endowment. Complete information from the companies we've invested in, including Scope 3 emissions, is essential to understanding whether our investments are supporting or undermining the future for our students.
1285	CA	401k			Stocks			I'm a new mom and I believe we can solve the climate crisis if everyone does their part. Transparency is a much needed step in the right direction!

1286	NH		IRA					I'm a nurse. This IRA and social security are all I have to retire on. I need to know that the money will be there when I need it, and not lost to damage from climate change which is already happening
1287	FL	401k	IRA		Stocks			I'm a proponent swift, science based action on Climate Change. Corporations are notorious for hiding their funding impacts as a result. I expect full transparency on Climate related funding risks!
1288	MD	401k	IRA	Pension	Stocks	Bonds		I'm a retired climate scientist, and it really bothers me that even companies not in the fossil fuel business are supporting extraction by their finances
1289	CA		IRA		Stocks	Bonds		I'm a single woman with a VERY modest Social Security payment, I took SS at 62 after receiving a diagnosis for terminal breast cancer. Quite remarkably, I survived. I have my own small business and pay a lot of attention to the changing climate as I am a voice for tropical vanilla growers as I've had an online presence since 2001 and assist them with information they need in order to produce and sell their vanilla beans to the European and US markets. If vanilla and cocoa are going to survive the changing climate, it's critical that these farmers have the information they need. And, for my own financial survival, it's just as critical that I have the funds to support myself for the rest of my life.
1290	CA	401k	IRA					I'm a small investor who is very concerned about the climate emergency and related financial risk. I want to support those companies that have a strategy to address the climate.
1291	CA	401k						I'm a young person, in my early 20s. When I invest for the future, I have to have a future to invest in. A 401k can't do much to protect my future if I'm headed to a world of food shortages, water shortages, and extreme weather events due to climate change. Climate related risks are important to any investing I'll be doing for retirement, because we'll be seeing a lot of climate effects by the time I'm old enough to retire.
1292	CA						Other Investments	I'm concerned about climate change and I want to able to know what my investments may or may not be supporting.
1293	CA	401k	IRA					I'm concerned about climate change, and would like to know if companies are at risk from it.
1294				Pension	Stocks			I'm concerned that fossil fuel and other related corporations are making irresponsible decisions about investing their stockholders' money, and that the likelihood of disastrous stranded assets due both to climate change and energy source shifts will render the investments that I count on for retirement worthless.
1295	IL		IRA	Pension	Stocks	Bonds		I'm constantly trying to weight the impact of my stocks on climate and vice versa.
1296	CA	401k	IRA	Pension			Other Investments	I'm dependent on these for my income and I need to be sure that my best interests are being looked after - and that doesn't include investing in fossil fuels.
1297	MI		IRA	Pension				I'm entitled to an accurate disclosure of how much risk funds are taking on so that I can make informed investment decisions.
1298	NH		IRA	Pension	Stocks	Bonds		I'm in for the long term. Climate protection is a good long-term investment.
1299	CA							I'm increasingly interested in investing in companies that take climate risk seriously. Standardized information would make this so much easier! As things are, it's difficult for someone who cannot devote hours and hours to determine what is "spin," and what is true.
1300	PA		IRA	Pension	Stocks	Bonds		I'm losing my retirement as fossil fuel burning destroys the climate.
1301	NY			Pension				I'm not a financial wizard and I need my pension funds protected. I also want to protect the small savings I have from predatory interests because this is my only resource for supporting myself for the rest of my life.
1302	TX	401k	IRA		Stocks			I'm not putting any of my money in fossil fuels if I can help it! Renewable energy is the way to go, and I want to know which stocks and investments to buy.

1303	MD			Pension				I'm quite fed up with government bailing out corporations that preach "free market" and then, when the free market hands them an issue (Covid) or they simply disregard their fiduciary duty to understand the risk related to an investment (2008 collateral mortgages) they come with their hands out. Taxpayers need their investment in government protected. The SEC need to do its job!
1304	CA	401k		Pension				I'm retired and depend on my income from my pension. My account managers need this information to evaluate risk. And I am extremely concerned about my grandkids future in our changed and changing climate.
1305				Pension				I'm seriously concerned that the value of my pension could be at risk if the investments made on my behalf are in relatively risky fossil fuel companies, that I think are heading for financial disaster as such products become more expensive to extract & process; and that climate change may make investments in, for example, pipelines and other infrastructure even more risky.
1306	PA		IRA	Pension				I'm terrified about the future and the demise of Social Security.
1307	FL			Pension			Other Investments	I'm tired of being mislead and out right lied to. Make these companies tell the TRUTH
1308	CT	401k	IRA		Stocks	Bonds		I'm trying to invest green so there's a future to retire into and it's really hard, even with a financial advisor trying to help
1309	CA		IRA					I've already lost a great deal of money due to market volatility and other probably illegal speculative moves. At this juncture, I cannot afford the more unnecessary losses. Thank you.
1310	MA		IRA		Stocks		Other Investments	I've always practiced socially responsible / sustainable investing, and evaluating companies for future investment would be much easier if there were climate risk disclosures. Otherwise individual investors are left to guess at which companies are appropriate investments, and may reduce investment levels or avoid diversification because of the lack of information.
1311	NY	401k		Pension			Other Investments	I've always worked very hard for what I have. I need to be informed about Public Companies' climate-related financial risks.
1312	CA	401k	IRA	Pension	Stocks	Bonds		I've been into stockholder actions for decades and I would love to see this information madated.
1313	NJ	401k	IRA					I've heard companies say unless the SEC passes this they're not going to progress with any serious metrics another words this is a necessity as well it should be, the risks are very high. Ignoring impact costs doesn't make them disappear in fact it only makes the situation riskier and more expensive.
1314	OH		IRA		Stocks		Other Investments	I've just moved after 49 years in the drought-stricken sunbelt. I've watched fire, rising temperatures, the destruction of orchards by farmers with no water. I know climate change is affecting every aspect of our lives, and that it will also drive the economy and the investments I live on.
1315	NY		IRA		Stocks			I've noticed that people are increasingly asking for this sort of information through proxy votes. For Facebook in particular, Mark Zuckerberg holds 55% of the voting shares -- too many to be able to get anything passed without his approval.
1316	TX	401k	IRA	Pension				I've saved my whole life & retiring this year. I depend in my distributions for my living expenses. Financial risks related to the climate crisis is necessary to protect my moderate income.
1317	CA	401k		Pension	Stocks	Bonds		I've saved responsibly all of my working life. I am also extremely concerned about the damage climate change is causing all over the planet. We need to given accurate information about our investments, while encouraging all investment companies to safely handle our money in planet friendly ways.
1318	FL	401k	IRA	Pension	Stocks			I've worked all my adult life. Please protect my 401K.

1319	MT		IRA	Pension	Stocks			I've worked all my life, planned and saved for retirement. I've done everything right- don't jeopardize my future!
1320	OK	401k	IRA	Pension	Stocks	Bonds		If a company is not supporting policies and practices that help mitigate climate change issues, then that company is shirking its responsibility to the people it serves and it employees, as well as the country that allows it to be profitable
1321	NM	401k	IRA	Pension	Stocks			If a company sells to the public, they have an obligation to provide climate risks, as those ARE affecting everyone and will eventually destroy our civilization if continued. Those are facts.
1322	OR		IRA		Stocks	Bonds	Other Investments	If a given company is going to use my money, I have a right to know how they're using it. If they're paying me interest or dividends, I have a RESPONSIBILITY to see that I'm not profiting by environmental destruction.
1323	AZ		IRA					If anything, investors need more, not less, protection from unbridled greed.
1324	CO	401k						If climate change isn't factored in, many people are flying blind. Especially the naive, ignorant, feeble minded ones that still need reminding that climate change isn't just a hoax. And, it would force companies to disclose their contributions and risk to the destruction of our beautiful planet.
1325	CA	401k	IRA	Pension		Bonds		If companies are investing our money, we need to know what they're investing in and the risks they're taking.
1326	NY		IRA					If companies persist in acting in ways that further exacerbate the climate emergency, then they should be outed and investors dump them from their portfolios.
1327	CA		IRA					If companies will not be up front voluntarily about the ways they are risking our future, then we are counting on you to take measures to protect us.
1328	WA			Pension		Bonds		If ever there was a threat that needs to be taken into consideration by investors and the market - it's climate change. Please require companies to include these climate change impacts in their SEC reports..
1329	NY	401k	IRA	Pension	Stocks			If Financial Organizations begin to control all of these investments, the results will be that the wealthy and powerful can easily eliminate the savings that the rest of us have worked hard to accrue. Enough is enough -- More consolidation will eliminate necessary savings funds for our family members, charities, and the care of the elderly and disabled. Greed knows no bounds.
1330	TX			Pension				If I knew, I would only invest green opportunities
1331	OH	401k	IRA		Stocks	Bonds	Other Investments	If I'm giving my money, they should provide the full serving requirements to be and stay in said business.
1332	WA	401k	IRA			Bonds		If I'm investing my future, both financial and ecological, in these companies, I deserve to know about their portfolio holdings and how they relate to man-made climate change.
1333	CA			Pension				If it isn't mandate the public will never know.
1334	NY	401k						If my money is at risk I have a right to know and be a part of the decisions!
1335	MO			Pension	Stocks		Other Investments	If my retirement is at risk, I want & deserve to know about it.
1336	AZ		IRA	Pension	Stocks	Bonds		If our country doesn't address climate priority no other issues will matter in the long term.
1337	NY	401k						If our future well-being is dependent on the function of the stock market, we have a right to information about that market.
1338	TX	401k			Stocks			If our money is being used to further damage this Earth and climate, we have a right to know, and to demand they implement changes that will not only reverse what they've done, but go further towards climate reparations.
1339	OH				Stocks			If public companies don't pay attention to the environment, our investments may turn out to be in danger because it seems the climate crisis is going to have a huge impact on our lives.

1340	PA		IRA		Stocks	Bonds		If standardized information about public companies' climate-related financial risks was mandated, I would be better able to tailor my investment portfolio to my values, and invest in companies that are pro-active in reducing activities, processes and products that increase climate-catastrophe risk.
1341	MA	401k	IRA		Stocks			If the valuations of these companies are based on fossil fuel reserves that can't be exploited without destroying the climate, the valuations are invalid.
1342	WA	401k	IRA					if this information is not make available, it forces workers to invest in companies that are destroying their own environment and destroying their own work environment. Simply put worker will be betting against their own health and future.
1343	OH	401k	IRA	Pension	Stocks			If we are going to save our planet from the devastating effects of climate change, we as investors need to be fully informed as to which companies are working cooperatively and aggressively to address these pressing issues, and which are irresponsibly continuing to contribute to the problem. Please make sure companies are required to provide such information so we can make climate-focused investment decisions, and bring our collective power to demand change to bear on those companies that refuse to operate in a responsible manner. Thank you.
1344	WI			Pension				If we are to invest in our retirement future, we need to know ALL of the FACTS!!!!!!!!
1345	OR	401k	IRA	Pension				If we destroy our environment and ourselves for profit, it's meaningless. I want to know if my investments are benefiting the earth or contributing to our mutual destruction.
1346	CO	401k	IRA					If we don't account for climate risks, our investments are not real.
1347	CA	401k	IRA		Stocks	Bonds		If we don't have this information, how can we wisely and eco-consciously invest our funds for both our own futures and that of the earth?
1348	CA		IRA					If we don't make consistent and top of mind for investors and stakeholders then market won't take into consideration the climate crisis we're experiencing.
1349	ME		IRA	Pension	Stocks	Bonds		If we don't save our environment, our environment can't save us!
1350	MO	401k	IRA	Pension	Stocks	Bonds		If we don't save our planet, our investments won't do us much good.
1351	OR		IRA				Other Investments	If we invest our money they should tell us where it is invested.
1352	IL		IRA		Stocks	Bonds		If you can't measure it, you can't manage it
1353	CA	401k	IRA	Pension	Stocks	Bonds		Ignorance is so dangerous. And it is not easy to find out about climate-related financial risk.
1354	VA		IRA	Pension	Stocks	Bonds		Ignoring the cradle to grave climate effects of products and activities constitutes a major investor risk. All must be disclosed.
1355	MD	401k	IRA					Important for community environmental planning and updates.
1356	WA	401k	IRA					Important things must be open aired. Climate change risk certainly rises to this level!
1357	MD	401k	IRA	Pension	Stocks	Bonds	Other Investments	Improper management destroys my retirement investments.
1358	CO				Stocks	Bonds		In a free marketplace we should have all relevant data for businesses in total transparency -- not fraud -- in how our investments are spent in addition to what is contributing to the climate crisis at hand. Thank you.
1359				Pension	Stocks			In a wold increasingly characterized by corporate obfuscation, it is imperative that governments work to actively moderate corporate transparency and accountability.
1360	CA		IRA		Stocks			In keeping with a Green Philosophy, it stands to reason that investments in my future support my family's way of life. There is no time like the present to forge forward with the planet's overall health being the top priority. Anything less is unacceptable and contrary to the majority of earth's cohabitation. Finally, making investments that do not support environmental health are tantamount to major risk and unsustainable by my family.

1361	OK	401k	IRA	Pension				In MBA school, I learned that one of the key requirements for the existence of a truly "free" market, was that (all/multiple) buyers and sellers had equivalent (access to) accurate information. Requiring a standardized and periodic way of reporting climate-related risks for publicly-traded companies is a perfect example of this type of government function, WITHOUT which a much-touted and truly free market CANNOT exist!
1362				Pension				In my opinion, it is vital that companies stop investing in fossil fuels and rainforest clearance which are causing the destruction of life on earth due to the climate crisis causing devastating extreme weather conditions.
1363	MN	401k	IRA					In order to choose the best investments I need reliable consistent information about the risks affecting companies in which I invest. The risk of disasters due to climate change and the risk to my investments from companies fialing to account for their impact in climate change requires that these risks be disclosed.
1364	NM	401k		Pension	Stocks	Bonds		In order to have financial security and a safe future we must under stand the financial risks we are being exposed to. This must include risks from climate change.
1365	CA	401k	IRA	Pension	Stocks	Bonds		In order to leave a habitable planet for our grandchildren we need to work immediately on preventing any and all loopholes which allow corporations to disguise their support of the fossil fuel industry.
1366	CA		IRA					In order to make informed decisions the public needs to know this information.
1367	NY	401k	IRA	Pension	Stocks			In order to make informed decisions we all need the necessary information!
1368	CA		IRA		Stocks	Bonds	Other Investments	In order to make sound financial decisions for the good of my family, we need reliable and understandable information regarding both our current and potential stock investments.
1369	IA	401k		Pension	Stocks	Bonds	Other Investments	In order to move toward green investment and pricing destructive investments for their externalities.
1370	OH	401k						In order to protect my investment we have to have the true information
1371	AZ				Stocks			In the first place I don't want to be complicit in adding to climate change through my investments. Secondly,companies owe their investors transparency.
1372	CA	401k	IRA		Stocks		Other Investments	Individual investors should be able to know if an how a company they are invested in or considering for investment is affecting climate change, negatively or postively.
1373	CT	401k	IRA	Pension	Stocks	Bonds		Individual investors should be provided access to know the investment vulnerabilities
1374	WA		IRA					Individuals and institutions deserve to know what the companies they own are doing and the risks they are taking.
1375	WA		IRA		Stocks			info I would like to have
1376	MD	401k	IRA	Pension	Stocks			info is always beneficial
1377	WI		IRA	Pension	Stocks			Information & accountability
1378	WA	401k	IRA	Pension				Information about all activities that will bring about adverse climate change need to be public, no exceptions. The risk of disaster is imminent.
1379	CA	401k			Stocks	Bonds		Information about climate change is the top priority for me. I want the SEC to protect me as a retired person who relies on my investments to live but who wants those same investments to do no harm. I need better information to make wise decisions that reflect my values.
1380	CA	401k		Pension	Stocks	Bonds		Information about climate-related financial risks is relevant to my investment decisions.
1381	TN	401k	IRA	Pension	Stocks			Information from every company about product development that can effect the climate is critical for financial and economic risk reduction.
1382	CA		IRA	Pension	Stocks		Other Investments	Information helps stockholders make better investment decisions.
1383	CA			Pension	Stocks	Bonds		Information is empowering - and needed for good decisions.
1384	TX		IRA		Stocks			Information is fundamental. In these very critical times we need to know which corporation are proactive for clean climate.

1385	WA	401k	IRA		Stocks			Information is how we make decisions. People should be able to make fully informed decisions about where to invest our money, and we can only do that if you require full and honest disclosures. Please do so.
1386	NJ	401k	IRA		Stocks	Bonds		Information is key to informed decisions.
1387	VA	401k	IRA		Stocks	Bonds	Other Investments	Information is key to understanding what you are investing in... this is important information to have!
1388	PA	401k		Pension	Stocks	Bonds		Information is power, power that we need to take care of ourselves.
1389	AZ	401k	IRA	Pension	Stocks	Bonds		Information is power! We all need to be fully informed, especially about our investments.
1390	CA		IRA		Stocks			Information is power. If we claim to let "the market decide," we must have informed consumers. I do not want to support the destruction of our home. I want to make sure my investments aren't supporting it either.
1391	MN				Stocks			Information like this helps investors decide where to invest their money. I for one am not interested in investing in companies who refuse to see the future. Fossil fule is dying! Why put money into a company that may die even before all the fossile fule in the world has been used?
1392	FL			Pension				Information needs to be public in order to make informed decisions.
1393	TX	401k	IRA	Pension	Stocks	Bonds	Other Investments	Informed decisions cannot be made when investments aren't disclosed. I'd like to actually have the retirement I'm saving for, but at the rate we're investing in planet-wrecking industries, that's debatable. We need transparency and accountability.
1394	CA	401k	IRA		Stocks		Other Investments	Informing the public about the risks involved with climate change is essential and is well within the SEC's mandate.
1395	MA		IRA	Pension	Stocks	Bonds		Integrity
1396	WA		IRA	Pension	Stocks	Bonds		Investing can be blind for many people supporting Climate Mitigation who rely on the SEC to hold Corporations accountable. Now is the time to make corporations accountable for their position on Climate and the Environment.
1397	VT		IRA		Stocks	Bonds		Investing ethically is difficult without good, comparable information on companies' approaches to mitigating climate change problems. Without standardized information for climate impacts, comparing companies in similar commercial endeavors is difficult. An investor is only guessing without the sort of information noted above and acts with far less than full knowledge.
1398	NY		IRA		Stocks			Investing in assets that are likely to become stranded is just bad investing. Without clear disclosures about fossil fuel infrastructure and other climate-damaging projects and the inherent risks in these, it is impossible to be a good investor.
1399	CA	401k			Stocks	Bonds	Other Investments	Investing in fossil fuel is risky and it should be disclosed.
1400	NJ	401k						Investing in fossil fuel projects is the exact opposite of planning for my future.
1401	CA	401k	IRA		Stocks	Bonds		Investing in fossil fuels threatens our children's future by worsening the impacts of climate change, and it is financially risky. Investors need full transparency to avoid this unnecessary risk to their funds and the livelihoods of future generations.
1402	VA		IRA		Stocks			Investing in securities is inherently risky but should not be a craps shoot. Non-disclosure of climate-related risk prevents informed investing and should not be tolerated.
1403	NH	401k	IRA	Pension				Investing is a nightmare for me, because the fastest growth is always at someone's else's expense. As a minister, my concern is not just my own comfort, but the health of this planet for future generations. I want to invest responsibly and that requires your honest informational assistance.
1404	AL	401k		Pension				Investment safety should be mandated, standardized and updated frequently. When they are not people find ways to profit off of hard working Americans' profits.

1405	OH	401k		Pension				Investments are layered in funds that give little information to the investment itself-very hard to discern what I am invested in!
1406	WA		IRA	Pension	Stocks	Bonds		Investments mean nothing if we support climate change leading to our deaths and other life on earth.
1407	FL		IRA	Pension	Stocks			Investments that cause "climate-related" problems should be scrutinized and addressed.
1408	MD		IRA		Stocks	Bonds		Investments with the potential for financial gain (commonly interest & appreciation) are subject to a potentially broad spectrum of risks of which is environmental exposures are the most common threat. This risk has been exacerbated "global warming". All people, especially investors, need to be aware of this factor. A key responsibility of the SEC is to insure that owners & managers of businesses are candid with their investors or potential investors as to what these factors are and how they could impact their business.
1409	CA		IRA		Stocks	Bonds	Other Investments	Investments with undeclared climate risks is like buying a car whose faulty brakes are undisclosed. There will be crash.
1410	CA							Investors & Shareholders MUST BE INFORMED WHAT THEIR COMPANIES ARE UP TO, ESPECIALLY CLIMATE CHANGE@
1411	GA		IRA					Investors and company management by becoming aware of this information will be more likely to do something about it.
1412	CA		IRA	Pension	Stocks			Investors and consumers both have the right to know whether companies they are supporting are doing harm to the environment.
1413	CA	401k		Pension				Investors and the public have a right to know so that we, too, can make informed investment decisions. I demand transparency!
1414	NC		IRA	Pension	Stocks	Bonds		Investors as well as all citizens deserve clear public information about companies and their role in affecting our air and water and our climate.
1415	NJ	401k	IRA					investors care about climate-related financial risk increases our impact.
1416	OR		IRA					Investors depend on reliable information to guide their decisions. Information about companies' behavior related to climate change is the most vital information for making these decisions. Climate-related financial risk information should be public information and easily available.
1417	NY		IRA	Pension				Investors deserve the right to know whether money is contributing to the destruction of the planet.
1418	SD	401k	IRA	Pension	Stocks	Bonds	Other Investments	Investors deserve this transparency as their future financial security may depend upon it.
1419	OH			Pension				Investors deserve to know all of the risks an investment poses in order to make an informed decision. Being part of a pension plan, the investors who manage my plan must know all of the risks posed to their clients, the retirees, who do not have any direct ability to influence investments.
1420	VA		IRA					Investors deserve to know how their money is being used. I do not want my money to go toward any more fossil fuel extraction or climate destructive activities.
1421	PA		IRA				Other Investments	Investors deserve to know the nature and impact of the businesses they support in order to make reasoned and conscientious choices about where to put their money
1422	MN			Pension				Investors deserve to know the risks they are taking by investing in firms.
1423	ME	401k	IRA	Pension	Stocks	Bonds		Investors have a requirement to understand, on at least an annual basis, all potential financial risks associated with their investments.
1424	MN				Stocks			Investors have a right to fund their goals, including ecological protection. Because large corporations are responsible for the majority of pollution, the link between investing and keeping our planet habitable is very strong. We need to know who is ruining our only home in order to put our money where our values are.

1425	OR	401k	IRA	Pension		Bonds		Investors have a right to know about companies' climate-related financial risks, their contributions to climate change, and their plans for remaining solvent in a low-carbon economy.
1426	ID		IRA	Pension	Stocks	Bonds	Other Investments	investors have a right to know how their money is being used and for what so they can made informed decisions. While there is some information available, corporations should not be able to obscure what they are actually doing with the money from investments.
1427	MI		IRA	Pension				Investors have a right to know if the companies they invest in are doing all they can to slow/stop climate change.
1428	CA	401k						Investors have a right to know if their money is funding climate change causing fossil fuels.
1429	VA		IRA	Pension	Stocks			Investors have a right to opt their investments out of environmentally destructive companies.
1430	IL	401k						Investors have the NEED to know how our money is being handled. Climate Change is a CRITICAL issue. There is no time to ignore the destructive forces of climate change. NO "Other People's Money" should go towards destructive actions. It's time to be transparent in your sleezy actions.
1431	IL	401k		Pension				Investors have the right to ALL the information that might affect their investments.
1432	NM		IRA		Stocks	Bonds		Investors have the right to be informed about risks of all kinds, and, for the sake of our and our children's very existence, about climate change risks. This is a financial and moral matter. A no-brainer!
1433	WA		IRA	Pension	Stocks	Bonds		investors have the right to know about these risks.
1434	NY	401k	IRA					Investors have the right to know all risks attendant to our investments. Pure and simple
1435	CO	401k			Stocks	Bonds		Investors like me need to know if the companies we're investing in are taking appropriate steps to address climate-related risks.
1436	MN	401k	IRA	Pension	Stocks	Bonds		Investors must have FULL disclosure in order to fully know and understand the impacts on their investments. FIDUCIARY knowledge is VITAL!
1437	CA	401k	IRA	Pension	Stocks	Bonds	Other Investments	Investors must have updated, trustworthy information on climate related risks available to them as they invest and as they regularly review their investments.
1438	PA			Pension			Other Investments	Investors must know this information... when they do, they can influence Wall Street through these investments
1439	NY	401k	IRA	Pension	Stocks	Bonds		Investors need as much information as possible, so please help us get it. Knowledge will help us protect our investments and our environment. Thank you.
1440	WA	401k	IRA		Stocks	Bonds		Investors need complete information to make an informed decision.
1441	WA		IRA		Stocks	Bonds		Investors need full and transparent disclosure related to the climate impacts of corporate securities offers in order to make appropriate investment choices.
1442	CA	401k	IRA		Stocks			Investors need more choices and control over their retirement funds and future wellbeing.
1443	CA	401k	IRA	Pension	Stocks	Bonds		Investors need reliable information about companies that they invest in. Companies that make an effort to go green need to be rewarded for that effort.
1444	WI	401k						Investors need the necessary information to make prudent decisions in regard to their personal finances. To this end, publicly traded companies must provide climate related financial risk exposure because the risk-reward of financial instruments cannot be adequately assessed without this information. Please ensure non-institutional investors have this data available.
1445	CA	401k	IRA	Pension	Stocks	Bonds		Investors need the truth about Wall Street investments in fossil fuels and other projects and companies that hurt the climate to make well-informed investment decisions for their retirement. We all are responsible for protecting the earth.

1446	CA	401k	IRA	Pension	Stocks	Bonds		investors need to be able assess the risks to their own investments, and the climate impacts of their investments. We must fight against climate chaos with all the tools available.
1447	CA	401k	IRA	Pension	Stocks	Bonds		Investors need to be able to compare standard metrics across companies.
1448	WA		IRA					Investors need to be able to make informed decisions regarding their investments, and that includes 401K and other the retirement plans. How can they do that if they are not provided all the relevant information?
1449		401k						Investors need to have all the relevant information available to make informed decisions about their financial security.
1450	WA		IRA		Stocks	Bonds	Other Investments	Investors need to know ALL the risks associated with an investment. Climate change risks and risks associated with illegal deforestation and disregard of indigenous peoples' rights could wipe out our investment, and we would be blind sided if we don't know the risks. This is especially important for retirees like me that make long term investments.
1451	OR	401k	IRA		Stocks	Bonds		Investors need to know how companies they invest in will be affected by the dirty fuel industry cratering.
1452	NH	401k	IRA		Stocks	Bonds		Investors need to know how the companies they invest in affect the climate. Short sighted moves now will mean disaster for the long haul which is exactly when people expect to cash in on the investments.
1453	WV			Pension	Stocks			Investors need to know how to better invest their money to support their climate change beliefs. Money talks.
1454	NY	401k			Stocks	Bonds		Investors need to know if their money is safe.
1455	TX		IRA				Other Investments	Investors need to know the level of climate- related financial risk their investment portfolio is exposed to. Public companies should be glad to provide the information; their companies are exposed to the same risk.
1456	DE		IRA	Pension				Investors need to know this info, to invest in progressive companies.
1457	VA		IRA					Investors need to know what actions companies are taking to address the global climate emergency.
1458	IL	401k	IRA	Pension	Stocks			Investors need to know where their investments are going, and whether the companies are climate-change compliant.
1459	ID	401k	IRA		Stocks	Bonds		Investors need transparency on this issue, and companies need to be forward thinking in how this risk is managed.
1460	FL		IRA	Pension	Stocks	Bonds	Other Investments	Investors need transparency so that they can see whether real risks are being addressed. Help us by mandating companies provide accurate data upon which to base investment decisions.

1475	DC		IRA		Stocks	Bonds		Investors who understand the severity of climate-wrecking fossil fuels need to know which corporations are engaged in the wrecking of the earth and all of its inhabitants, including us. The SEC needs to reign in, with the information required by the proposed regulations, the destruction these corporations cause.
1476	NC		IRA	Pension				Isn't it a breach of fiduciary responsibility not to inform clients of these things?
1477	CO	401k			Stocks	Bonds		It aligns with my investment goals and supports long-term safety in investments by realizing the impacts present and future of climate change.

1479	NY		IRA	Pension				It can save us!
1480	NC	401k						It doesn't make sense for companies to be investing in any fossil fuel projects. At this point companies managing our investment funds should be investing in projects/companies doing environmentally sustainable work, with no greenwashing.
1481	CA							It doesn't matter how much profit you earn if you cannot live on this planet. Think of your children and their children.
1482	MN			Pension		Bonds		It gives useful information that can help us understand better what is going on and may lead to some controls.

1488	MN	401k	IRA				Other Investments	It is absolutely critical that we do everything possible to eliminate the use of fossil fuels, including having the ability to easily identify funds in our retirement accounts.
1489	AZ	401k		Pension				It is absolutely essential for full company transparency on everything, especially it's effects on climate change. Investor's have a right to this information. If a company has nothing to hide, has investor's and the environment's best interests, then be transparent. Be an honorable business.
1490				Pension	Stocks	Bonds		It is absolutely essential that all operations in investment and finance move on to the most sustainable investing but also act in accordance with ethical business practice in protecting clients with accurate and comprehensive information in regards to all risk.

1491	WA		IRA		Stocks		Other Investments	It is absolutely essential that climate change risk and opportunity be part of what public companies consider and disclose to investors. Failure to do so demonstrates that the company is not connected to reality and a poor bet for investors.
1492	CA	401k						It is always better to have transparent information.
1493	OR		IRA		Stocks	Bonds	Other Investments	It is appropriate for those who receive money from citizens… of the U.S. and all other countries to disclose if and how they are specifically contributing or destroying the planet on and in which all life survives.
1494	MN							It is befitting to reference that, the masses ought to galvanize and begin to Bewail, Renounce and go Haywire on America's "Plutocracy."
1495	MD	401k	IRA					It is clear that we cannot afford any more investment in expanded fossil fuel extraction. There is no healthy economy on a dead planet, and we must acknowledge that, among the many risks of the financial crisis, the risk of extreme events creating economic shocks is a real and dangerous one. Investors have a right to know whether their money is being used to (literally in some cases) add fuel to the fire of the climate crisis.
1496	PA		IRA	Pension	Stocks	Bonds		It is critical that all corporations provide accurate and truthful guidance to protect shareholders from jeopardizing their retirement and personal investments. There has been much disinformation and omissions about climate risks that are potentially criminal.
1497	WI			Pension	Stocks	Bonds		It is critical that all retirees understand how their pensions are being invested. In addition to safeguarding our investments we want to protect the environment and make sure that all communities, regardless of ethnicity or race, are taken care of and not harmed by our investments.

1500	OH			Pension	Stocks			It is critically important for keeping this planet livable that there be transparency in where monies are invested so that consumers can make informed choices.
1501	FL	401k	IRA	Pension	Stocks			It is crucial that corporations be transparent about the climate related risks of their investments so we as the public, and we who's money they manage, can be fully aware of the environmental impacts and climate related risks of our investments to better force corporations to be truly green and not just greenwash their image.
1502	CA		IRA	Pension	Stocks			It is crucial that investors at all levels pay attention to the climate-related financial risks of companies we own so we understand how serious climate change is and so we choose how and where to invest wisely. We can choose to be part of the solution if we are informed. We can urge the companies we invest in to become more careful regarding their carbon footprints, also.
1503	AL	401k	IRA	Pension				It is difficult for the average individual to understand the information provided on social and environmental impacts of specific investments, the information is so opaque. This rule would help clarify matters for investors.
1504	FL	401k	IRA					It is difficult to discern the activities of prospective investments without standardized information. That would make comparisons possible, perhaps easy!
1505	WA			Pension	Stocks		Other Investments	It is elusive where money is invested. While I try to mandate not to use my funds for monetary gain if it involves worsening the climate crisis - it's hard to follow! Calvert water funds, PAX are my main. Whenever I see Chase I call my managers - other investments are hard to see. ESG doesn't mean a whole lot now.

1506	WA		IRA		Stocks	Bonds		It is essential that we reduce corporations' negative environmental impacts. Many corporations are ignoring the security of the planet and their own long-term security in favor of short-term profits. This will hurt us all financially as well as physically.

1509	PA	401k	IRA					It is hard for the average person to save on their own
1510	YT			Pension				It is high time that investors are scrutinized and called out for profits only and be required to and made responsible for environmental and social costs of their investments
1511	VT	401k	IRA		Stocks	Bonds		It is imperative that everyone (individuals, businesses and financial institutions) focus on driving down carbon pollution. Medical and health professionals globally are pointing at climate change as the #1 threat to human health in the 21st century. As Greta Thunberg has said "Our house is on fire." We have a collective moral responsibility to act accordingly.
1512	AZ		IRA		Stocks	Bonds		It is imperative that individuals KNOW the TRUTH about how their money is being invested and used within OUR global economy!
1513	OK		IRA					It is imperative that small investors are protected.
1514	CO			Pension	Stocks			It is imperative to conduct annual, mandated information on increased climate risks related to financial investments. We have approximately one decade to get this under control. Every day wasted increases the extreme risk to all of us. Thank you for making sure this happens and as soon as possible.
1515	VA	401k	IRA		Stocks			It is important enough to make this change.
1516	WY		IRA	Pension				It is important for investors to know how our funds are being used. As investors become more sophisticated and more informed, they will demand information on how their funds are being used either to positively or negatively impact the planet and the people who live here, especially indigenous and marginalized populations.
1517	WA		IRA		Stocks	Bonds		It is important that we stop putting profit above climate action. This is going to take governmental standards as we cannot trust Wall Street to make these changes on their own.
1518	AZ		IRA	Pension	Stocks			It is important to be transparent.
1519	CO		IRA					It is important to information to report pubic companies' climate-related financial risks.
1520	FL		IRA	Pension				It is important to know this. We only have one planet and it needs to be protected!

1522	IL		IRA		Stocks	Bonds		It is important to know what the companies are doing or not doing to combat climate change
1523	HI		IRA					It is important to me to be sure I am not investing in companies that are trying to hide their climate impact.
1524	MA	401k	IRA					It is important to me to have information about companies' climate-related activities and risks -- I have wanted this information to align my investments with my priorities and to make prudent investment choices.
1525	NY	401k		Pension	Stocks			It is important to understand how a company is prepared for the future
1526	MN	401k	IRA	Pension	Stocks	Bonds		It is mandatory that we protect our earth. Our water, our soil, our air, if we want a liveable planet for our children.
1527	TX	401k		Pension				It is morally wrong for me to enjoy retirement if it involves destruction of the planet.
1528	CA		IRA	Pension				It is my money that is being invested and I deserve to know everything about the companies that are messing around with my money.
1529	VT	401k	IRA	Pension				It is my money. Why shouldn't the investments be reported so the average Joe can understand it.

1530	CA			Pension				It is necessary for companies to accountable for their actions that effect the planet, as it ultimately effects all life. The evidence of polluting companies hiding, purposefully, their dirty climate decisions and actions, has become evident in light of recent reporting. If nobody is watching, they will continue choosing thier bottom line over the health of the planet.
1531	CA		IRA	Pension				It is necessary for us to protect our pensions by divesting from fossil fuels.
1532							Other Investments	It is needed to protect people savings
1533	NY			Pension				It is not acceptable to ignore the certainty that continuing to burn fossil fuels will soon make this planet unliveable for us and most other life forms. But before that happens, fossil fuel production will collapse due to depletion and the increasing cost of extracting resources that are increasingly costly to access. Even a simple-minded financial calculation demands that pension funds divest from fossil fuels.
1534	NY		IRA	Pension	Stocks	Bonds		It is not acceptable to me that my retirement savings might contribute in any way to ignoring, exacerbating, perpetuating nor funding climate change in any way.
1535	OR		IRA	Pension				It is only right!
1536	VT	401k			Stocks		Other Investments	It is past time to inform investors of secondary complications due to some investments
1537	NC	401k	IRA	Pension	Stocks			It is past time to stop letting companies over which the SEC has purview, get away with making decisions based purely on profitability, and ignoring any social and/or environmental implications of those decisions.
1538	TX		IRA					It is required in order to be fully informed.
1539	CA	401k						It is simply the minimal responsibility that should be required.
1540	NC		IRA					It is so important to me that any financial institutions get on board with protecting our planet by not investing in projects and/or companies that are not committed to protecting the environment. The financial institution will be just as guilty by supporting them and hurting the environment.
1541	VA		IRA	Pension	Stocks			It is the morally right and responsible thing to do!
1542	KS	401k	IRA	Pension	Stocks			It is the one sure way to have that information available to investors.
1543	CA	401k	IRA		Stocks			It is the right thing to do
1544	IL	401k		Pension				It is the right thing to do.
1545	MA	401k		Pension	Stocks			It is the right, moral and correct thing to do
1546	IA	401k	IRA	Pension	Stocks	Bonds	Other Investments	It is time to make companies to give honest reports
1547	CA	401k			Stocks	Bonds		It is very difficult to ascertain a company's carbon footprint with different ESG scales and rampant greenwashing. I want to make a difference with my dollars and a standardized disclosure of climate risk would be extremely helpful.
1548	CA	401k	IRA	Pension	Stocks	Bonds		It is very important for me to know the climate impact of my investments and I plan on switching up many of my current investments in order to make them more compatible with my desire to safeguard the planet.
1549	LA		IRA		Stocks	Bonds		It is very important to me that my investments are in ethical, forward thinking fossil fuel free companies
1550	CA		IRA	Pension				It is vital that we have full information so that we can be properly informed when we make decisions about our financial future.
1551	CO		IRA	Pension		Bonds		It is vital that we switch to renewable energy, the sooner the better. All the wealth in the world doesn't matter if the planet is uninhabitable by human beings!
1552	NJ							It is vital to know why the climate is changing and what we can do to aid the efforts to control and stop the "bad" changes.
1553	WA	401k		Pension	Stocks	Bonds		It is wrong to not address this threat to my grandchildren (and us NOW).

1554	CA	401k	IRA	Pension	Stocks	Bonds		It makes sense for us to know how companies are affecting the air we breathe, the water we need to live, and the food we eat. Time for us to easily access this information. Let's mandate this reporting.
1555	MI	401k	IRA	Pension	Stocks	Bonds		It matters a lot to me that my money is invested only in stocks and bonds that are from environmentally supportive businesses.
1556	CA		IRA	Pension				It matters to me that big companies try to protect our planet.
1557	IL	401k	IRA	Pension	Stocks			It may help inform and protect consumers

1559	CA			Pension				It means my livelihood since I am elderly and dependent.
1560	AZ		IRA		Stocks	Bonds		It provide an incentive for reducing support for climate forcing activities.
1561	CA		IRA	Pension				It seems like a no-brainer to me that everyone involved with the Stock Market should get the same information, to ensure fairness, and all the catastrophic weather we're having makes me want to know what my various plans are doing in that regard.
1562	OR		IRA			Bonds		It seems we never know clearly how our money is being used.
1563	CA		IRA					It should be obvious that full transparency is crucial.
1564	VT		IRA		Stocks	Bonds		It should be obvious that, given the accelerating problems from climate change, In order to evaluate current and potential investments, it is important for investors to have accurate, standardized information about the climate-related risks of those companies
1565	TX		IRA					It should not be a mystery…
1566	NJ		IRA	Pension			Other Investments	It simply MUST BE DONE.
1567	PA	401k	IRA	Pension				It will facilitate investment by the public in funds that are safer for both our financial future and our overall future. Most of us don't have time to research such information, and financial firms are often unwilling to voluntarily disclose such info. The US military and the insurance industry consider these data critical - I urge the SEC to follow their lead.
1568	CA	401k	IRA	Pension				It will help combat Climate Change
1569	CA		IRA	Pension	Stocks	Bonds		It will help me determine where I invest my money.
1570	WA	401k	IRA	Pension				It will help me make best choices for my investments and who they are with.
1571	CA		IRA	Pension				It will help me understand changes I may need to make in my investments.
1572	VT	401k	IRA					It will make future choices easier.
1573	NC		IRA		Stocks	Bonds		It will make more sense for businesses and for investors if ALL must disclose their full emissions.
1574				Pension				It will reveal companies that are taking action to safeguard our futures and those that are not.
1575	CA		IRA		Stocks	Bonds		It would be difficult for an ordinary investor like me to access this information from the managers of some fund I'm invested in.
1576	MI		IRA		Stocks			It would be very helpful and useful to be able to know to what extent a company finances fossil fuel companies or renewable fuel companies.
1577	NC		IRA	Pension	Stocks		Other Investments	It would be very important to me because maybe I would not invest in those companies. So, with that being said I already know that, that is why we do not know anything about certain companies.
1578	PA		IRA	Pension				It would help to know how public companies are working against climate change.
1579	CA		IRA		Stocks	Bonds		it would make it easier to evaluate a company before investing in them
1580	AL		IRA		Stocks	Bonds		It would seem reasonable for EACH investment modality (i.e., Stocks, Bonds, IRAs, 401Ks, etc) report on the impact of Climate conditions and events on the financial risks associated with that individual modality
1581	CA	401k						It's a means of having input on issues related to climate change, which is one of the most important issue that faces every U.S. citizen today!

1582	CO	401k	IRA		Stocks			It's about time to not hide the risks anymore.

1584	CA	401k	IRA		Stocks	Bonds		It's clear to all with eyes to see that climate-related risks are going to have a huge impact on our economy. We need transparency for non-professional investors, especially those of us reliant on these as sources of retirement income.
1585	IL	401k						It's clear to me what the right side of human history would be on this issue. This measure would be a mere baby step in the right direction.
1586	MO		IRA		Stocks			IT'S DECADES PAST TIME! Companies should ALWAYS be required to disclose financial and operational risks! For decades they've been given carte blanche to hide these risks if they're related to climate matters. THAT IS JUST PLAIN DISHONEST. Transparency on risk. NOW.
1587	MN	401k	IRA	Pension				It's difficult to get information about stocks in companies that will help the environment.
1588	NC		IRA				Other Investments	It's difficult to stay on top of the stock market. As a small investor, it's hard to be aware of trends, interest rates, and what is happening environmentally.
1589	PA	401k	IRA		Stocks	Bonds		It's entirely wrong that all risk information is not made available to all investors. This needs to change!!
1590	IA				Stocks			It's essential that our investments clearly reflect our values. Companies that continue to profit through business models that harm the planet, exploit workers, and promote outright lies that undermine our society should be clearly and comprehensively known for the practices in which they engage.
1591	WA		IRA		Stocks			It's essential that we appreciate the risk that accompanies carbon-producing investments. Every investor needs to know how exposed they are to fossil fuels -- directly and indirectly -- and have the chance to act on that information. This is an urgent issue and must be addressed now.
1592	NY		IRA		Stocks	Bonds		It's extremely important keep the market fair for all investors.
1593	CA						Other Investments	It's high time climate change is factored into every single investment, and please don't allow companies to get away with burying this important information in meaningless, boiler plate, tiny print.
1594	FL	401k						It's important for the onus to be on big corporations to disclose their practices and to follow what we as individuals have always been told: reduce, reuse, recycle, for purposes of keeping our planet livable.
1595	NY	401k						It's important that public companies be required to report on their climate-related financial risks because more and more shareholders want to invest in companies that doing their part to protect the planet. Investors should have this information so they can vote with their money and support corporations doing their part to solve the climate crisis.
1596	CA	401k		Pension	Stocks	Bonds	Other Investments	It's important that we support climate responsible investments
1597	AZ		IRA				Other Investments	It's important to be know this in order to make informed investment decisions.

1599	CA		IRA	Pension				It's important to know how much climate risk companies have for investment purposes. Consumers have a right to know.
1600	MA		IRA	Pension				It's important to know what companies are doing to help the climate crisis
1601	CO		IRA					It's important to me to invest in companies that limit their contribution to Climate Change so any information along those lines is important to me and the many other investors who think like me.
1602	MN		IRA	Pension				It's important to stay on top of funds that are risking our money on short term profits for long term disasters.

1603	WA				Stocks	Bonds		It's important to the long-term security of our investments
1604	OR		IRA		Stocks	Bonds		It's important to understand the position that companies take regarding climate so we know the risks we're assuming, and so we understand the character of the companies we're investing in.
1605	NY		IRA					It's just good business to be transparent.
1606	OH	401k	IRA	Pension	Stocks	Bonds		It's my money. I need to know if it is being used to destroy the earth.
1607	AZ	401k	IRA					It's not fair for the SEC to listen to only rich folks.
1608	OH		IRA				Other Investments	It's obvious that these types of investments are volatile and people depend on these accounts for retirement. We shouldn't be taking these kinds of risks.
1609	MD	401k	IRA	Pension	Stocks			It's obvious: Fair markets are radically inconsistent with secrecy and privileged information. Full disclosure is indispensable.
1610	PA		IRA		Stocks	Bonds		It's only common sense.
1611	CT	401k		Pension				It's only fair that those of us who've invested over the years for the "long haul" with our pension and retirement funds, know exactly what the long term risks are for us being able to live a normal, poverty free life in the coming years. After all what is the purpose of the SEC if not to protect those investing - or has it changed it mission to only protect the invested.
1612	OR	401k	IRA	Pension				It's only fair to know what you're invested in.
1613	WV		IRA					It's only proper that small investors have the information that Wall Street players have before they invest.
1614	FL		IRA		Stocks			It's only right and fair
1615	FL	401k	IRA		Stocks	Bonds		It's our collective future and our current responsibility
1616	WA		IRA					It's our money that's invested. We have a responsibility to invest wisely and we need information in order to do that.
1617	CA	401k	IRA	Pension	Stocks	Bonds		It's pure insanity to invest in the destruction of our world, which is what much of the investor class does. There's a better way! Invest in a better world and help create instruments that will make that possible .
1618	WA			Pension	Stocks	Bonds		It's quite simple. The rulers and owners don't want the rest of us to know the details of any investments we might have through pension plans, etc. If we knew these details, we might actually object to how some of these companies are investing our money in banks and insurance that support fossil fuels and fight every effort to mitigate climate change to give but one example.
1619	IL	401k	IRA		Stocks	Bonds		It's simple; people need information in order to make rational decisions.
1620	PA			Pension	Stocks	Bonds		It's simple! We don't have a Planet B!
1621	CA	401k	IRA		Stocks	Bonds		It's so important for anyone with investments to know what's happening in that company they're investing in regarding their emissions and standards. What are they doing to help or hinder?
1622	MA		IRA					It's so vital to know where their money (and my money) is going so we can wisely invest in a future where our earth is protected.
1623	CA		IRA		Stocks	Bonds		It's the ethical thing to do. Corporations notoriously seek profits without accountability to the public who they benefit from. It should be made illegal to do that, make them accountable.
1624	MD	401k			Stocks		Other Investments	It's the least that can be done to improve transparency in the sector
1625	MA	401k	IRA	Pension	Stocks			It's the most important thing to the future.
1626	CA	401k	IRA		Stocks			It's the most urgent problem for the human race to address right now.
1627	CA		IRA		Stocks	Bonds	Other Investments	It's the right thing to do
1628	TX		IRA		Stocks	Bonds		It's the right thing to do for our country, for business and for individuals. We won't survive without working to reduce and resolve climates-related risks and damage.
1629	TN	401k	IRA	Pension	Stocks		Other Investments	It's the right thing to do.

1630	CA				Stocks			It's the right thing to do.
1631	CA			Pension				It's time for ALL businesses and ALL corporations to be completely transparent on where their money goes and what they support. The reason we're in trouble in our country is because of misinformation or NO information. Cheating and obfuscation is rampant in our country…which leads to greed and corruption. Our system is broken. Please help fix it. No watering down what should be disclosed. It ALL needs to be disclosed.
1632	CA		IRA	Pension	Stocks	Bonds		It's time for everyone to know the max about this so we can mitigate and adapt to the Climate Crisis.
1633	VA	401k	IRA	Pension				It's time for real action on pollution and disclosure of what companies do to reduce risks.
1634	WA	401k						It's time to do your jobs by protecting the People!! When information is hidden it gives way for more and more corruption leaving the People, our environment and our economy at risk. The exact opposite of your job.
1635	NY	401k	IRA	Pension	Stocks	Bonds		It's time to speak up & nothing talks like money.
1636	FL	401k	IRA	Pension				It's time to take a broader look at investments by caring for creation.
1637	WA							It's time to take the climate crisis seriously. The major cooperation should divest from fossil fuel and invest in a green energy future. When we know better we should all do better. After all if you have no customers you have no profit.
1638	MI	401k			Stocks	Bonds		It's too late to allow corporations, brokers and bankers to choose to continue to invest in fossil fuels.
1639	GA		IRA		Stocks			It's very easy to understand, what what everyone needs is documentation that is also easy to understand. There is no reason for the owners of the money to be in the dark.
1640	WA	401k	IRA					It's very hard to find out exactly what funds my 401K and IRA are invested in, and I really do not want to be invested in fossil fuels. Brokers need to be more transparent, and also, companies must be held accountable for their climate exposure.
1641	CA	401k		Pension	Stocks	Bonds		It's very important for me to know if my money is being used for increasing or decreasing climate change and other related environmental issues.
1642	NY		IRA	Pension	Stocks	Bonds		It's very important for me to understand all the risks of my investments to be able to make the best decisions for my financial future and my family's.
1643	CT	401k	IRA	Pension	Stocks			It's very simple: we cannot have growing, thriving businesses in a dying world of famine, drought, drastic weather events and sea level rise where all resources are diverted for fundamental survival matters.
1644						Bonds		It's vital companies are held to account in how they invest their funds now more than at any time in history. The future of our world depends upon their transparency.
1645	MI	401k	IRA	Pension	Stocks	Bonds	Other Investments	It's vitally important and is part of the big picture.
1646	CA				Stocks			It's well past time that corporations begin to account for environmental degradation as a LINE ITEM in EVERY budget or proposal they might implement!
1647	NC	401k	IRA	Pension	Stocks			its going to be my survival during retirement
1648	IL		IRA					Just about everyone wants to know who are responsible for the climate mess we have been experiencing for quite some time.
1649	FL				Stocks	Bonds		Just as people want to know what ingredients are in the foods they buy, people want to know what harm their investments might be causing, including climate-related financial risks.
1650	CO		IRA					Just as unforeseen natural catastrophes greatly impact the physical world, humans, and nature, a rapidly changing climate that is ramping up storm, droughts, and tornadoes impacts the financial ability for companies and people to rebound from the effects of this change.

1651	ON			Pension				Just as we need to know whether inflation is about supply chain disruptions or executive price gouging, we also need to know, and for companies to prove, that they are not green washing their efforts to reduce carbon dioxide combustion pollution and that they are actually divesting from the sources and causes of mass extinction. Neither individuals, companies nor societies can lie their way to health, abundance and sustainability. Everyone must be held responsible and accountable.
1652	NC			Pension	Stocks			Just like I won't invest in companies that support the death penalty or abortion, I don't want to invest in companies that don't care about our environment.
1653	DC	401k	IRA					Keep my investments and the planet safe.
1654	NY			Pension			Other Investments	Keeping investment funds in polluting industries is now a definite - not a calculated risk. So rise up and divest fossil fuel and environment degrading investments into other green sustainable vehicles.
1655	IL	401k	IRA		Stocks			Knowing a company's climate impact only makes financial sense. I invest with long-term gains in mind. Climate change denying companies lack insight and forethought; knowing which companies are actively looking at the future helps me make better investment decisions.
1656	OR	401k	IRA	Pension	Stocks	Bonds		Knowing how much GHG is produced by the companies would have an impact on my decision-making regarding which mutual funds I would invest in. It is important I have the whole picture in a standardized way.
1657	CA	401k	IRA					Knowing how our investments may be contributing to the climate crisis is extremely important to me and millions of people around the world. The burden should not be on the individual to do intensive research to figure this out.
1658	CA				Stocks	Bonds		Knowing the impact on climate is imperative to making good business decisions if these businesses want to survive. Our atmosphere is warming much faster than anyone predicted.
1659	CA		IRA		Stocks	Bonds		Knowing what companies are doing to mitigate impacts to their business risk and actively address climate change strengthens my confidence to invest in them.
1660	WA	401k		Pension	Stocks			Knowing will help me decide where I invest.
1661	AZ		IRA		Stocks			Knowledge is necessary for good decisions.
1662	CA		IRA	Pension	Stocks	Bonds		Knowledge is power.
1663	UT		IRA	Pension	Stocks		Other Investments	Knowledge is power. In its absence there is only disinformation.
1664	ID			Pension				Knowledge is power. The more power every day investors have the better this country will be.
1665	TN		IRA	Pension				Lack of transparency about investment climate risk contributes mightily to public apathy about actually implementing serious responses to worsening climate disruption
1666	WI		IRA					Lack of transparency is now a significant problem for any investor. It is a form of dishonesty.
1667	NV	401k		Pension	Stocks	Bonds		Large corporations need to be accountable for their actions and decisions.
1668	CA		IRA					Large investment funds bury too much information for individual investors to make informed choices in their 401k and IRA accounts.
1669	AZ	401k	IRA	Pension				Let the truth be known!
1670	PA	401k	IRA					Let's be accountable about public companies' climate related risks!
1671	CA			Pension	Stocks			Let's leave the planet a better place than when we were born.
1672	OH		IRA		Stocks			Let's provide support to the little guy
1673	FL	401k	IRA	Pension				Like any investor I need information like this to evaluate my investment strategies.
1674	NC		IRA					Like my food sources, I need to know where and what my income arises from

1675	CA		IRA		Stocks			Long overdue
1676	MI	401k	IRA	Pension	Stocks	Bonds	Other Investments	Make it easy for me to read standard information about the climate related financial risks. This is information I struggle to find and the time it takes is wasting time for other things.
1677	CA			Pension	Stocks	Bonds	Other Investments	Makes sense. Climate change is affecting the weather, sea level rise, wildfires, etc. There are many indirect impacts
1678	CA	401k	IRA		Stocks	Bonds		Making decisions about where and how to invest is impossible without the information related to climate-related issues.
1679	CA		IRA	Pension				Making money by ripping off Earth is not my cup of tea!
1680	IL		IRA		Stocks	Bonds		making our money grow cannot coinside with destroying our environment.....supporting clean renewable energy can also make out money grow.....not rocket science.....
1681	WA		IRA	Pension				Making people aware of the dangers of climate change is very important
1682	CA		IRA		Stocks	Bonds		managing climate change risks is an increasingly important action that companies should undertake, and publicly reporting such action(s) should be done in a transparent, comprehensive and uniform way.
1683	IL			Pension			Other Investments	Managing the effects and risks to businesses of climate change will become critical to performance of business entities.
1684	VT		IRA	Pension				Mandated and standardized reports would give me the information of where my money is being invested. I do not want fossil fuel projects supported by my money. Those projects will bring about greater climate disasters. Those are short term projects for short term gains while the earth dies a slow agonizing death. I want my money to support projects that will go toward combating climate change.
1685	OR	401k		Pension	Stocks	Bonds		Mandatory reporting would allow me to access information about how to avoid investing in companies that contributing to climate change pollution.
1686	CT	401k	IRA		Stocks		Other Investments	Many Americans care about the future of our great planet & don't want to be a part of anyone causing it's destruction
1687	CA	401k			Stocks			Many companies have made public commitments to get to net zero by 2050 but now we need them to show us their plans and receipts
1688	NJ		IRA	Pension	Stocks	Bonds		Many companies speak about supporting climate change protections, then donate heavily to climate denier candidates.
1689	FL		IRA	Pension	Stocks	Bonds		Many investors, especially older investors, depend on accurate information about publicly traded companies, and climate-related financial risks are an important part of that information. Please ensure annual, mandated standardized information about public companies' climate-related financial risks. Thank you.
1690	OR	401k	IRA					Many of the companies that are probably in my portfolio routinely lie about everything
1691	MA		IRA		Stocks	Bonds		Many people want to know as much as possible regarding their investments. As climate change is obviously a crisis, and increasingly understood by the general public as such, a company's actions, or inactions, in this area should be available so that the investment risk can be fully evaluated.
1692	MA	401k	IRA		Stocks	Bonds		Many profit making corporations are taking over our democracy and destroying our environment. It is critical that we take all the steps we can to turn this around.
1693	NY	401k	IRA	Pension	Stocks	Bonds		Many who have investments have them through their employer's plan. There may be some ability on the part of the employee investor to pick-and-choose what to invest their funds in. However, this is not always the case. Employee investors have a right to know what companies they are invested in and that company's environmental history. Standardized investment reports should be mandated and they need to include a valid assessment of the climate-related financial risks - e.g.stranded assets - of those investments.

1694	MD		IRA	Pension	Stocks	Bonds	Other Investments	Markets are only fair and sustainable when all parties have equal and unrestricted access to financial information.
1695	WA	401k			Stocks	Bonds		Markets need transparent information to function properly. Disclosing this information is good for the environment and good for investors.
1696	IL	401k	IRA	Pension	Stocks	Bonds		Maximum transparency is a must!
1697	IL		IRA		Stocks	Bonds		Maybe if the companies have to address the financial impact of climate in writing to their investors, they will be more likely to actually address the climate issues themselves which affect all of us (stock-holder or not) in social, financial, and physical ways.
1698	IA			Pension				Maybe the citizenry can get these climate denying, profit is everything, entities to become responsible, not reprehensible.
1699	CA			Pension				Members of pension plans must know that the plans are solvent.
1700	MI	401k	IRA	Pension	Stocks			Millions of retired people rely on our pensions to *survive*. We don't have inherited wealth or fat cat backers to rely on for help. Remember us & do the right thing
1701	FL		IRA		Stocks	Bonds		Mine are 401 k investments that have been rolled into IRA. There needs to be more financial disclosure all along the way
1702	CA	401k	IRA		Stocks		Other Investments	Money can't buy things that no longer exist because we've ruined our environment. I want to be able to make responsible choices with my investments.
1703	CA				Stocks		Other Investments	More disclosure and more transparency for public corporations benefits shareholders and the public alike.
1704	NY	401k	IRA					More information on climate-related financial risks is helpful and empowering of investors and our planet.
1705	MA	401k		Pension	Stocks			More investment transparency. No new fossil fuel infrastructure. Rapid phase out of fossil fuel use globally. No deforestation. Massive investment in renewables, energy efficiency and afforestation. Meet the Paris target of 1.5 degrees C. Help ensure a livable climate for future generations. Thank you for reading my comment.
1706	TN	401k	IRA					More investors are becoming aware of these murky areas in some companies that allow them to not act in the public good. They will not hold themselves accountable. You must take this step so that investors can know exactly what they are buying into.
1707	CA	401k		Pension	Stocks	Bonds		More people than ever are investing on their own online. Good information is vital to good decision making!
1708	CA	401k	IRA	Pension	Stocks			More regulation and transparency is needed.
1709	NE				Stocks			Most companies are now incorporated. Their focus is on making money for their stockholders (and the management, getting bonuses and large buyouts when they leave the company). Above, they are not so much concerned with their customers, and they have a let the buyer beware mentality. They won't (can't) withhold information when it is asked for, but they will do what they can, to keep people uninformed as much as they can so that they can strategize with as little opposition as possible.
1710	PA	401k						Most investors are following advice to ensure they have retirement funds because that is the system we have. They are not often knowledgeable about the particulars of their investments. This means some protection is needed.

1711	IL							Most of us don't have the cash flow or the capital to diversify our investments. Whatever we have in our 401k or its government workers retirement plan equivalent; and Whatever pension funds we're depending on will may make the difference between growing old in poverty and being able to at least meet our basic needs. It's all we have, and we've worked hard for it. We can't afford to lose it because of blind investments made without full disclosure of the risks.
1712	PA		IRA	Pension	Stocks	Bonds		Most people are too busy coping with everyday life in these challenging times. Since climate change is the most important issue that we are facing, it would be helpful to know where our money is going.
1713	CA				Stocks			Moved our stocks to sustainable funds but want them to be checked to see if they really are invested in sustainable companies
1714	FL			Pension				Must be MANDATORY.
1715	PA		IRA		Stocks		Other Investments	mutual funds
1716	FL	401k		Pension				My 401k changes the funds it invests in all the time and I would prefer to know the values and programs of the corporations match my own and protect my investment based on a realistic understanding of risk.
1717	CA			Pension			Other Investments	My 403B plan invests for me. I did not have a choice on my previous employer's plans. I know the company they chose does not filter investments based on ethical investments. My only choice was to stipulate risk assessments.
1718	NY	401k			Stocks			My 403b plan is down $80,000 since December 31, 2021. Yipes! Retired and no longer working!
1719	IL			Pension				My AFSCME Pension is vital for me to remain in the middle class.
1720	CA	401k					Other Investments	My children and future grandchildren can't wait for businesses to be transparent about their climate-related financial risks.
1721	WA	401k	IRA	Pension	Stocks	Bonds		My choice of investments includes consideration of a company's environmental and social impacts - climate change mitigation is critical and we need Scope 3 impact info to know which companies to buy from and which to invest in.
1722	AZ	401k						My company helps make sure most all of our investment options are positive for our environment and our people. We need to make sure clear information is available for all investors who may not make obvious disclosures of this information to their people.
1723	OR	401k	IRA	Pension	Stocks	Bonds		My financial future is at risk if my investment managers cannot measure the magnitude of the biggest risk of all--destruction from a burning planet. Promote transparency and make these risks easily visible.
1724	NY	401k	IRA	Pension	Stocks			My financial planner can do a better job for me if she is made aware of all the types of risks that are associated with each investment option. Climate change is one of those risks and it is reasonable to ask a traded company how it will be affected and what it is itself doing to curtail greenhouse gas emissions.
1725	WA		IRA	Pension				My future financial security relies on these plans providing me future payouts. I have spent my entire career working for financial security in retirement and expect these plans to be run professionally and transparently.
1726	WA		IRA	Pension	Stocks	Bonds		My holdings are heavily weighted toward energy. What investment risks do I face as fossil fuels are phased out? Where can I best move my investments in the direction of renewable sources of energy without losing value?
1727	CA		IRA	Pension	Stocks	Bonds		My hope is that it will prod companies to think more and do more about climate-related risks. And consumers should have access to the information that would be reported.

1728	CA	401k						My husband and I are calstrs members. We'd prefer to divest from any fossil fuels investments and other unethical and high risk investments like animal agriculture. But transparency is key when it comes to climate change and things like factory farming. We have a right to know where our future money, that we've invested, is being placed and how it's being used, as well as the option to be selective so our investments are in alignment with our values. We do not deserve to have the bottom fall out right as we are about to retire, in 6 years to be exact.
1729	WA	401k	IRA	Pension	Stocks		Other Investments	My husband has a 401K and I have a TIAA account..We are in our 80's.
1730	AZ			Pension	Stocks			My husband has an Arizona State retirement plan in which he added additional funds by buying more years while working to add to his regular 20+ years of active teaching for retirement. To not be able to source where the money goes in investments is a travesty. We have zero control over where the money is invested, and being pro-climate protection, as well as having other interests that we feel are sustainable
1731	LA	401k	IRA	Pension	Stocks			My husband worked hard and many years to secure a future for his family, so how dare that anyone would infringe on what he has put together, to assure that we have a future and a hope.
1732	NC							My investing avoids all corporations with ties to fossil fuel industries.
1733	CA	401k		Pension	Stocks	Bonds	Other Investments	My investment firm is reportedly one of the most deeply invested in fossil fuels of large investment firms, about which I have been complaining for several years. This SEC would help break through any green washing they have been doing, so I can see more clearly how much of my family's assets are put at risk of being stranded
1734	MN	401k	IRA		Stocks	Bonds		My investment manager is instructed to invest me in no funds that have gas/oil/coal commodities.
1735	CA				Stocks			My investment portfolio is primarily in mutual funds, not individual stocks. I want to be divested from oil, tobacco, and nuclear.
1736	MN	401k	IRA	Pension	Stocks			My investments are for retirement and managing risk is very important to me.
1737	NY		IRA				Other Investments	My investments are mostly in my 403b plan. I feel strongly that the type of long term investing I was able to do for my retirement, over the past 3 decades, is being put in jeopardy for today's young workers due to climate risk. Our government must insist on affordable, transparent, responsible investments.
1738	OH		IRA	Pension				My investments are not simply ways of gaining dividends, they are tokens of my support of the companies in which I invest. Therefore I have invested where possible in businesses that respect the health of people and the other creatures of this earth, and I have tried to avoid investing in armaments, petroleum, tobacco and alcoholic beverages.
1739	CA		IRA	Pension	Stocks	Bonds		My investments are with Merrill Lynch. I instructed them years ago to take me out of anything that is unsustainable. I need to know just how much damage there're investments are doing to the planet.
1740	CA	401k	IRA		Stocks	Bonds		My investments manifest what I care about. We must know how companies are investing our money so we can decide to withdraw our money from immoral and climate chaos-causing sources.
1741	AZ		IRA	Pension	Stocks	Bonds		My investments often depend on a company's support of anti- or pro-environmental actions.
1742	TX	401k			Stocks			My investments should provide with not only fiscal numbers but also what the company is investing in to make our our world a cleaner environment.
1743			IRA					My IRA allows me to select funds, and this information would guide me in my decisions.
1744	AZ		IRA		Stocks			My IRA is invested in a basket of stocks. I need transparency to determine whether or not my IRA is damaging my grandson's future.

1745	CT	401k	IRA		Stocks	Bonds		My life and that of my children depends upon you doing your job to protect Americans from harm. Please do the right thing.
1746	TN	401k					Other Investments	My life is an open book by law. Why are corporation protected from full. disclosure so they can twist their appearances for their own purposes. Put American corporate info in full sunlight so people can make educated decisions regarding everything they do and don't do
1747	OH		IRA					My money is causing climate change. This must stop.
1748	NM				Stocks	Bonds	Other Investments	My money is invested in "socially responsible" companies, and I'd like to ensure that more companies follow in their footsteps.
1749	NC				Stocks		Other Investments	My money, my choice on where I spent or have it earn a little bit more or put it.
1750	NY		IRA		Stocks			My mother and many other workers of her age have pension plans and are on the cusp of retirement with the immanent possibility of a recession. Even for those of us who are younger, we deserve to have a sense of the risks at hand with the types of investments being made by public companies so that our financial security is not compromised by false promises and green-washed reports put out by public companies.
1751	TX			Pension				My pension & Social Security is my income. To have it wiped out by a climate-related financial incident would be a disaster for any and all pensioners.
1752	CA			Pension				My pension fund, California State Teachers Retirement System, has billions invested in the fossil fuel industry. They need to disclose the climate risk this poses to their beneficiaries.
1753	TN	401k	IRA	Pension				my pension funds are my only protection against poverty. I look to our government to make sure the fund managers and corporate managers are honest and competent and understand the risks they put on me. climate change is now a big and growing risk; corporate decision makers should account for it routinely.
1754	NJ			Pension				My pension funds should be transparent, as well as Pension Fund Investments. Members of the Pension should have the power to vote on risky moves that the Pension Fund Administrators are considering.
1755	CA			Pension				My pension plans are CalPERS and CalSTRS and I strongly support their divestment from fossil fuels.
1756	OR	401k		Pension			Other Investments	My PERS from Texas was decimated by Enron. I do not want to fund ANY energy/fossil fuel related companies. You are NOT our livable future.
1757	CA		IRA	Pension	Stocks			My professional work was largely in lease financing of transportation and oil production equipment. Making sure that my IRA, which I self-manage, is not invested in businesses that are careless with the global climate is critically important to me. I need to reduce my sense of guilt now that we better understand all the harms of fossil fuels. I'd request the same information about companies exposed to the risks of the nuclear fuel cycle - from mining, processing, "burning" and waste "management."
1758	NY			Pension			Other Investments	My retirement funds are at stake as well as the state of the planet
1759	MI		IRA					My retirement income and final expenses depend on this; I have to depend that American Funds will handle and manage it to my advantage
1760	CA			Pension			Other Investments	My retirement investments are in Annuities
1761	CA	401k		Pension				My retirement money is at stake. Companies need to disclose their Climate risk.
1762	MN	401k	IRA					My retirement savings accounts are supposed to safeguard my future. If I'm investing my retirement savings in fossil fuel interests, I'm shooting myself in the foot. I would like to avoid this investment and welcome tools that will help me here.
1763	TX		IRA	Pension	Stocks	Bonds		My Roth is invested in Calvert funds. Responsible investing that doesn't support exacerbating climate change, exploiting workers, or worse, using slave labor. These are minimal standards of humanity, and I try to live by those standards.

1764	MA		IRA		Stocks	Bonds		My stocks and bond investments are all held in entities that are considered to be climate change conscious. I, and others like me, should be able to follow these corporate and other entities to ensure through transparency that they continue to make efforts to protect the fragile eco-system we call the Earth!
1765	NV				Stocks	Bonds		My stocks are in the redwood index and the health of the environment is most important to me.
1766	NC	401k	IRA	Pension	Stocks			My wife is a retired nurse and I am a retired public school teacher. It is very important for us to know that the money being invested in our retirement accounts is not going to companies that are contributing to climate change. We strongly support requiring companies and Wall Street to release information on their climate-related risks! We want our grandchildren to have a healthy future on our planet earth, but also we want older people like us to have a healthy, financially stable retirement!
1767	CA		IRA		Stocks	Bonds		Necessary and important to make decisions.
1768	NH		IRA	Pension	Stocks			Need to keep tabs on large polluting companies and keep them honest!
1769			IRA		Stocks	Bonds		Need to know if a company is going to fail.
1770	FL			Pension	Stocks		Other Investments	NEED TO KNOW THE RISK FACTORS OF FIRMS THAT HAVE LARGE INVESTMENTS NEAR OCEANS OR GULF AREAS WHICH MAY BE ADVERSELY IMPACTED BY CONTINUED CLIMATE FACTORS.
1771	CA		IRA	Pension	Stocks			need to know where I stand financially
1772	OR	401k	IRA	Pension	Stocks	Bonds		Need to track how climate could affect the outcomes of my financial decisions
1773	OR				Stocks			No one can make better investment decisions than the information those decisions are based on. Incomplete information is by definition bad information. We need and deserve GOOD information which necessarily includes what the companies we invest in are doing to save or destroy our essential habitat. We must not be put in the position of unknowingly funding our own destruction.
1774	MO	401k			Stocks	Bonds		No one should be allowed to invest other peoples' money without giving a full and honest account of their dealings every single year or even quarterly. This is basic clean, honest transparent and responsible dealing.
1775	MO			Pension				No other planet to live on
1776	WA	401k	IRA		Stocks	Bonds		Not considering the climate risk is financially irresponsible and morally repugnant.
1777	ME	401k	IRA		Stocks	Bonds		Not having complete transparency on risks associated with investing--including risks related to global warming--is not real transparency in today's world.
1778	CT	401k	IRA		Stocks	Bonds	Other Investments	Not only mandated standardized information but any and all information that is climate related, and would or could do damage to the environment, communities, eco-systems and the sustainability of life and viability in the future.
1779	MA	401k	IRA		Stocks			Note I have a 403b not 401k. My employer provides a very short list of mutual funds in which I am permitted to invest. The reason given is that they are required by law to be a good fiduciary--i e. To paternalistically protect me. But my employer won't divest its own endowment from fossil fuels and I am sure the retirement funds they selected for me also fail to protect against exposure to fossil fuel investments
1780	AZ	401k	IRA		Stocks			Nothing is transparent, mutual funds only list the top 10, I have know idea what the other companies are.
1781	FL		IRA		Stocks			Nothing stays the same. We need to be proactive on implementing processes that can inform investors.
1782	WI	401k	IRA		Stocks			Nothing wrong with the truth.

1783	CA	401k	IRA	Pension	Stocks	Bonds		Obviously, consumers need to know this information to help them decide what to and what not to invest in.
1784	NY		IRA	Pension	Stocks			Of course Climate Crisis affects everything, including all financial sectors of all companies. It is basic risk-management. And investors, like myself, look at risks - if they are divulged. Please, SEC, mandate that companies must report climate-related financial risks.
1785	NV							One only needs to think back to 2008 to be reminded of how unregulated financial instruments can devastate retirement accounts and other working class investments. Full disclosure on climate related risks must be mandatory!
1786	PA			Pension	Stocks		Other Investments	Only a fool, or a charlatan would fail to include climate change in their risk assessment that is part of their fiduciary reporting responsibilities.
1787		401k	IRA		Stocks	Bonds	Other Investments	Only by including the exogenous costs borne by the environmental commons can we hope to preserve them. As long as there is no direct financial cost, out shareholder profit-driven economy will continue to devastate the environment until those long term costs are forced upon us all disastrously. As an investor, I want my investments to reflect their true costs.
1788	TX	401k						Only reason should always be: Transparency!
1789	MD		IRA	Pension	Stocks	Bonds		Open and honest, ethical.
1790	VA	401k	IRA					Ordinary investors do not have the capacity to calculate financial risks from climate change. Yet insurance companies, military leaders and scientists all calculate substantial risks. Requiring companies to calculate and disclose such risks will be important for my future well being and the health of our planet.
1791	TN		IRA	Pension	Stocks			Ordinary investors, especially those in retirement investments need information about public companies climate-related financial risks just as much as major investors do.
1792	WA					Bonds	Other Investments	Other is a 403B, the nonprofit equivalent of a 401K. I would like to know if my investment money is helping or hindering dealing with climate change.
1793	AZ		IRA	Pension	Stocks			Our climate is an important issue and something we must make sure EVERYONE is paying attention to. Asking corporations to do their fair share is not too much to ask.
1794	CA		IRA					Our climate risks define a pivotal evolutionary moment: one in which ACT as 'human' globally and creatively to actually improve or solve our COMMON survival issues OR one in which we arrogantly and ignorantly sleepwalk into life extinction. I AM ONLY WILLING TO INVEST IN THE FORMER!
1795	CA		IRA	Pension	Stocks	Bonds		Our collective economic health depends on investments that avoid contributions to climate change and promote clean air and water.
1796	MN	401k			Stocks			Our country's citizens need corporations to report on their climate-related financial risks, their contributions to climate change, and their plans for remaining solvent in a low-carbon economy. Therefore please protect key aspects of the SEC's proposed disclosures, which strengthen the plan to ensure access to the critical information investors need. Thank you.
1797	WA		IRA		Stocks	Bonds		Our Earth is in a perilous state and we must mandate companies' to do everything to stop eco-system harm before it is too late. We need to make sure that companies act as stewards to our Earth, not extractive and destructive agents.

1798	MA				Stocks	Bonds		Our entire economy is threatened by the increasing risk of fire, floods and intense storms. Today Los Alamos is being threatened. Not long ago it was an Amazon warehouse and a candle factory. Before that it was California vineyards. If we don't calculate the risks from climate change we are fooling ourselves into believing that our investments are safer than we believe and we will not see corporations take action on climate change in order to reduce these risks. This will only make the consequences more severe as we ignore the problem.
1799	IN			Pension	Stocks	Bonds		Our environment is our future. The amount of return on investment should always be decided by the affect on the environment.
1800	UT	401k		Pension				Our environment is very important to me...and to all citizens. We need all the information we can have about how different companies and businesses are treating our green and wild places.
1801	MT			Pension	Stocks	Bonds		Our existence on this Good Earth depends on whether we humans take immediate steps to address and curb climate change. I want to be part of the solution, not part of the problem, when it comes to financing the future.
1802	CA	401k		Pension	Stocks			Our family is very environmentally aware but things can be hidden from us as well--my sister is an environmental attorney and she often lets us know about specific challenges. Public companies should provide this info.
1803	OH			Pension				Our funds are composed of OUR money, and we should have the ability to learn, and direct, how those funds are invested. It will give us the ability to hold the companies we invest in responsible to us. It will allow all of us to ensure that our younger generations will have a better world in which to live and work, and will provide us with peace of mind in our waning years.
1804	VA			Pension				Our future depends on confronting actions which contribute to harming climate. This is the most serious threat to continued human habitability of this planet. THER IS NO ALTERNATIVE!
1805	VA	401k	IRA	Pension				Our future depends on how we plan and citizens are entitled to the risks
1806	IL	401k			Stocks			Our future depends on it!
1807	VT		IRA	Pension	Stocks	Bonds		Our future depends on our having a livable planet. What good is a pile of money if we have made our home unlivable? Public companies need to be publicly and transparently accountable for climate-related financial risks.
1808	CA	401k	IRA	Pension	Stocks	Bonds		Our future is on the line. We are out of time to act on climate change. Please do all you can to safeguard a habitable Earth for our children and grandchildren by requiring public companies to report their climate-related financial risks. Thank you.
1809	NY	401k	IRA	Pension				Our future would be jeopardized if investment in fossil fuel, fracking, and other environmentally harmful business enterprises resulted in expensive law suits that cause such companies to default. In retirement our investments pay our bills. Our children will need the security of their investments being protected per the current and proposed mandated information being made available for their decisions to be made with complete knowledge of potential risks.
1810	OH			Pension	Stocks	Bonds		Our investments must be used to promote a better world for future generations not the reverse.
1811	CA	401k	IRA		Stocks	Bonds		Our investments, that companies hold for us need to be transparent, so they are not increasing impact to the climate crisis, or we move our assets to companies that are responsive to the climate crisis.

1812	OR		IRA		Stocks			Our lives depend upon keeping fossil fuels in the ground. Climate disaster is already upon us. We need to reduce fossil fuel emissions to zero to return the planet's energy balance to normal, otherwise mankind and all lifeforms will suffer tremendously. Our life support system is in peril. We are facing an extinction event - us. We are not immune from the effects of runaway Hot House Earth. There is no Planet B and we need to take care of the only home we have. If you have children and grandchildren, you ought to be very, very worried.
1813	CA		IRA					Our planet is in danger of imploding and will no longer support life - even human life - we need accurate knowledge of climate change priorities and how our money is being used by the companies we invest in.
1814	CA		IRA	Pension			Other Investments	Our planet is in serious danger. We deserve the right to know about company's climate-related financial activities and risks.
1815	MA	401k	IRA	Pension				Our planet needs all the help it can get!
1816	OR		IRA					Our planet needs help, and companies should not be able to hide their polluting activities.
1817	WA		IRA				Other Investments	Our planet will die and allow all life on it to die if we do not reverse the destruction we have perpetrated upon her. Everyone needs to participate in reversing the damage we have done and stopping and mitigating the ongoing destruction! Banks & investment firms are no exception! Require them to do their part!
1818	UT	401k	IRA	Pension	Stocks	Bonds	Other Investments	Our retirement income is all based on these types of investments in addition to Social Security. We NEED accurate information about these companies' risks so that we can make sound decisions!
1819	CA			Pension				Our retirement should not fluctuate with the marketplace. We need sensible, safe public infrastructure investment.
1820	CA		IRA	Pension	Stocks	Bonds		Our whole world is at risk if public companies don't clean up their act.
1821	CA	401k						Packaging currently needs health information / disclosures. Carbon emissions should be considered in the same category. The issue of carbon output and climate change is one of the most daunting challenges we've faced, and we need to make every move such as this while there is still time to mitigate the worst impacts of climate change.
1822	MA	401k	IRA		Stocks			Past results are not a guarantee of future performance--this is why we need greater disclosure of climate risk. Many companies have profited from the pollution caused by fossil fuels,which can be a cause of new risk. Greater transparency will help me protect my investments.
1823	WA		IRA		Stocks	Bonds		Past time to be serious about climate crisis. Investments should be made in transforming our energy system, Not more fossil fuel development. Investors should have the knowledge of where their dollars are going.
1824	VA			Pension				Pension funds need this vital information in order to keep from investing in fossil fuel companies with no futures. Such as those funding pipelines that will be un-needed before they are finished.
1825	CA			Pension				Pension plans should have same info as wealthy investment firms to even the playing field when investing people's money.
1826	IN			Pension				Pensions etc are the only tax deferred options for saving for retirement . Since we are forced to use them we should have a say on their ethics
1827	AZ		IRA	Pension	Stocks			People can not invest "in a blind." Employees need to have transparency around their future and its investments. Otherwise, the pension or IRA could fold.
1828	ID	401k						People deserve to know all the risks for their investments.
1829	NY	401k	IRA		Stocks			People have a right to know if their investments aren't aligning with their values & not supporting causes they don't want to support

1830				Pension	Stocks			People have a right to know what sort of company they have invested in, and they have a right to know what impact they are having on the climate.
1831	CA	401k	IRA	Pension	Stocks			People have been taken advantage of for hundreds of years. We need help to keep ourselves safe from abuse.
1832	PA	401k	IRA	Pension	Stocks	Bonds		People have no idea where their retirement funds are investing due to lack of transparency. Employer funds do not allow choice. Yet, most Americans want us to get off fossil fuels. This will only happen when they are not funded.
1833	WA		IRA	Pension	Stocks	Bonds	Other Investments	People like me (88 y.o.single woman) living in a retirement facility and hoping to survive the money I have saved and invested for that purpose.
1834	NY		IRA	Pension	Stocks			People making retirement investments (and investment managers) must be able to make INFORMED choices in investments. Having people just put money in their mattress because they can't get information isn't a good solution. Having people and investment managers make poor choices because they lack information is laying the foundation for another economic crisis.
1835	WI		IRA	Pension	Stocks			People must have a right to obtain information that is germaine to the health of their investments.
1836	FL		IRA					People need all the information they can get in order to make wise decisions.
1837	NY			Pension				People need info. To protect their. Retirement money
1838	NY		IRA		Stocks	Bonds		People need to know how their investments are impacting the climate and our planet. If people know this information, they are less likely to invest in companies that take climate-related financial risks. As a result of knowing this information, I no longer invest in fossil fuel and environmentally unsustainable investments which will have a beneficial effect on the health of this planet.
1839	VT		IRA		Stocks	Bonds	Other Investments	People need to know so their investments can be there for them in a climate challenged future.
1840	MA	401k	IRA	Pension	Stocks	Bonds		People need to know the cost of unmitigated global warming on the returns from their investments as well as the cost to future generations.
1841	VA	401k	IRA					People need to know the level of risk before potentially investing in companies with unacceptable climate-related financial risks.
1842	FL			Pension	Stocks	Bonds	Other Investments	People need to know what companies are doing to destroy the Earth.
1843	CA	401k	IRA	Pension	Stocks	Bonds		People should be able to know how their money is being used. Why hide that information if it is being used for the good of all? What are companies so afraid of that they want to keep it a secret?
1844	WA		IRA			Bonds	Other Investments	People should know what they are invested in so that they can assure their investments are aligned with their philosophies and principles.
1845	TX	401k		Pension				People will need their $'s when they retire & if the company loses their cash - they shouldn't be left penniless.
1846	NY						Other Investments	people's money and perhaps lives are at risk
1847	CO			Pension				PERA of Colorado holds the retirement investments for public employees, including teachers, and has a large holding in the fossil fuel industry. I believe it is imperative for PERA to divulge this risk and divest from these companies.
1848	IL	401k	IRA		Stocks	Bonds		Plain & Simple: Companies need to be transport in all of their business deals. They must be ethical and held responsible and accountable for all of their actions.
1849	MT			Pension				Please bring out what Wall Street and the Corporations are doing and how they're managing our accounts
1850	MN	401k						Please do this on behalf of ordinary citizens. Thank you.

1851	MN	401k	IRA			Bonds		Please forewarn future retirees just like the weather service forecasts have prevented calamity.
1852	MO	401k			Stocks			Please help regular people.
1853				Pension				please hurry!!
1854	NY	401k	IRA	Pension				Please implement strict climate risk and environmental destruction disclosure requirements for publicly registered companies as so many are included in retirement investment and pension portfolios. It is important that investors like me know what companies are mitigating risks and taking seriously the climate and environmental concerns we are all facing. Thank you
1855	WA		IRA		Stocks	Bonds		Please implement the strongest possible climate rule to hold major corporations, such as Wall Street banks and fossil fuel firms, accountable. Thank you.
1856	CA	401k	IRA	Pension	Stocks	Bonds		Please keep investment savings safe from climate related impacts. It is heart breaking to not be able to retire on time when your investments in your future fail you!

1862	WA	401k	IRA		Stocks	Bonds		Please protect the retirement plans
1863	IL	401k	IRA		Stocks		Other Investments	Please require the disclosure of climate-related financial risks since these costs need to be communicated to investors and the residents of our communities across the U.S. and globally.
1864	NY		IRA	Pension	Stocks			Please require the transparency investors need to screen for ESG liabilities.
1865	HI	401k	IRA					Please save our earth for our children and grandchildren!!!!
1866	CA				Stocks			Please take essential climate action by implementing the strongest possible climate rule to hold major corporations, such as Wall Street banks and fossil fuel firms, accountable.
1867	WA			Pension				Polluters are using ESG loopholes and greenwashing to present themselves as green. Give the board that manages my state employees pension real and reliable data that exposes actual emissions of these companies. Include scope 3 emissions, which in some cases are massive. Please make this as immediate as possible - by 2023. They have this info or can easily get it. Do not delay. Thanks.
1868	IL		IRA		Stocks	Bonds		Previously, I have invested in stock of Socially Conscious companies, and did quite well. I prefer to know that my investments go toward companies who are aware of and involved with making this a better place to live. Having climate related info on companies would assist me greatly in making the right investments for our planet.
1869	RI		IRA					problems created or exacerbated by climate change could potentially have a very negative impact on companies
1870	WI		IRA	Pension	Stocks		Other Investments	Protect our future which is now.
1871	CA	401k		Pension				Protect our future!
1872	TX		IRA					Protect regular investors like me!
1873	CA	401k						Protect the consumers
1874	IL	401k	IRA		Stocks	Bonds		Protect the people from short-term corporate greed.
1875	NY	401k	IRA		Stocks	Bonds		Protecting investors is the main function of the SEC. By taking climate risk seriously, the SEC can protect both investors and the overall economy in the face of worsening climate impacts and the transition to clean energy.
1876	GA	401k		Pension	Stocks	Bonds		Protection
1877	GA						Other Investments	Protection needed security of funds

1878	CA			Pension				Protection of the publics' funds should be paramount!
1879	AZ	401k	IRA		Stocks	Bonds	Other Investments	Public companies are currently under great pressure to make investment choices that involve significant long-term risk in connection with climate and environmental issues. In order to fulfill its stated purpose of protecting and informing investors, the SEC must assure that investors placing their funds have access to an objective risk/benefit analysis of the decisions made by these public companies.
1880	VA		IRA	Pension	Stocks	Bonds		public companies cannot be counted on to do the right thing. we need transparency.
1881	CA	401k	IRA		Stocks	Bonds		Public companies MUST be held accountable for their climate impacts, and as an investor, it is material for me to know how they are performing and what the risks are to our communities, public health, our climate, and my portfolio if I continue to stay invested in these companies.
1882	ME			Pension	Stocks			Public companies need to be honest and forthcoming with their investors so investors can make informed decisions as to how their money is used. Many investors want to use their money to slow and address the factors contributing to climate change.
1883	WA	401k	IRA	Pension	Stocks	Bonds		Public companies need to identify climate risks and then report them. They will hide and deny these risks unless the SEC mandates transparency. Please do this! Thank you.
1884	MD	401k					Other Investments	Public companies should be accountable for long-term climatic actions, as well as other positive and negative actions they are taking. 401s and 457s often offer only limited access to socially active stocks, though they can be very beneficial to account holders in the long-term.
1885	MI	401k		Pension			Other Investments	Public companies should be doing all they can to protect consumers and the environment.
1886	OR							Public companies should be required to be transparent about climate related risks from investment funds.
1887	CA			Pension				Public companies should disclose climate related financial risks.
1888					Stocks	Bonds		Public companies should keep the Public informed.
1889	WI	401k			Stocks			PUBLIC DISCLOSURE NEEDED TO DEMOCRATIZE THE MARKETS.
1890	FL		IRA					Public Disclosure would help protect the planet by mitigating climate change.
1891	MD	401k		Pension	Stocks		Other Investments	Publicly held companies fail to disclose significant details about their finances and assessments of risk. We must have transparency to make valid investing decisions as well as to exercise our lawful responsibilities as shareholders. We want to know the predictable impact of climate change. Only when we see the economic impact will we be able to hold firms and their Boards of Directors accountable.
1892	WA				Stocks			Publicly traded companies must be required to divulge any negative environmental impacts their activities and products may have to all prospective clients.
1893	CO		IRA		Stocks	Bonds	Other Investments	Ratings agencies and mutual funds cannot provide reliable assessments without full disclosure by the companies being evaluated
1894	CA		IRA					Re-evaluate my investment choices
1895	OR	401k	IRA		Stocks	Bonds		Recycling at home while my savings are supporting fossil fuel and wars is contrary to my belief system.
1896	NJ		IRA		Stocks	Bonds		Reporting is a first step. We need to do MUCH more than that to achieve net-zero by 2050, but it is a start.
1897	CA	401k		Pension				Represented democracy depends on openness. Public owned business should too. I believe public corporations have caused many of our worst problems of today - they are the only viable solution to the same issues.
1898	NC	401k	IRA	Pension	Stocks	Bonds		require companies to be transparent about their investments in climate protection

1899	OR		IRA	Pension	Stocks		Other Investments	Responsible citizen investments require knowledge of how and where corporations, partnerships, and publicly-traded companies are spending OUR capital. Otherwise we are investing blindly.
1900	NV			Pension	Stocks	Bonds	Other Investments	Retirement accounts need to mitigate risk more than others. Please require public companies (especially banks and other financial management firms) to report climate related risks so investors who try to do the right thing by being prudent can do so!
1901	CA	401k	IRA		Stocks			Retirement funds will be irrelevant if we allow the climate emergency to progress. It is imperative to disclose and respond to climate risks.
1902	MD	401k	IRA	Pension	Stocks	Bonds		Retirement savings is an investment in the future. If my investment is built on a a destructive foundation, then it's not really an investment. The only way to secure our future is to secure a healthy planet.
1903	TN	401k	IRA	Pension				Return our country to honest and fair financial practices
1904	CA		IRA		Stocks	Bonds	Other Investments	Right thing to do. Climate is at risk, and is being ignored for greed.
1905	DE		IRA					Right to know
1906	MN	401k		Pension				Risk info is essential in the present climate crisis. Private equity needs fee info to be mandatory as well.
1907	VA		IRA		Stocks	Bonds	Other Investments	Risk is risk, and excluding climate-related financial risk from disclosure requirements at a time when the world is experiencing rapidly rising mean temperatures due to human activity is irresponsible.
1908	WA		IRA	Pension	Stocks	Bonds		Risk management is part of financial planning and consumers make better decisions with full disclosure of risks. Climate change wil significantly affect financial outcomes for all companies in some way so this needs to be part if their risk disclosure.
1909	UT	401k	IRA				Other Investments	Risks related to climate change are risks that should be taken into account like any other risks.
1910	OH		IRA	Pension				Risky when not ever informed!
1911	AL				Stocks			saving for retirement shouldn't mean severe loss due to bad investment choices by your employer.
1912	NY		IRA	Pension	Stocks	Bonds		Saving our planet for future generations is of utmost importance to me. I have 5 grandchildren all under the age of 17. I have pledged to do my best to leave them with a better world.
1913	TN	401k		Pension				Scientists are now reporting that the window of time we have in which to make significant changes to address climate change is shorter than previously thought. In my opinion, it will rank as the worst crime in humanity's history if we do not rise to the occasion to preserve a habitable world for future generations. For that reason, it is my highest priority when managing my investments to ensure that the process of funding my retirement is not contributing to the climate crisis, but without publicly-available information about climate-related risks, it is almost impossible for me to do this. Annual mandated standardized reporting of companies' climate-related financial risks would make it possible for me to manage my financial goals in a way that also contributes to a sustainable future for our planet. For this reason, I urge the SEC to support annual mandated standardized reporting of companies' climate-related risks.
1914	DE							Scope 3 emissions are often the vast majority of a company's pollution. Leaving disclosure of a large share of companies' pollution up to their own discretion leaves investors in the dark and all of us vulnerable to a climate-related financial crash.

1915	PA	401k	IRA		Stocks	Bonds		SEC disclosures serve the purpose of setting out material risks and characteristics of securities. Because climate change risks represent a very real financial, social and environmental risk, issuers of securities who omit such information from their disclosures could be misleading the public. For this reason, I support the SEC's efforts to require a standardized disclosure of climate change related risks.
1916	CT	401k		Pension				SEC needs to be there to protect the little people!
1917	CA	401k			Stocks	Bonds		SEC, your job is to protect and support the investment of the hard earned savings of millions of American citizens. Our future well being, and that of this nation, depend on the security of those investments. And we are watching to be sure that SEC is NOT choosing the interests of Wall Street over Main Street's.
1918	PA			Pension	Stocks			Seems a needed and FAIR business practice!
1919	WA		IRA					Several years ago we removed all non-renewable energy investments from our small portfolio. We took a hit for this but felt it was something we must do. Hopefully more people would do this if they were made aware of the damage being done by some of their investments.
1920	PA		IRA		Stocks	Bonds	Other Investments	Share holders should have open, convenient access to information as to what, exactly, they hold shares in!
1921	MD			Pension	Stocks			Shareholders have a right to know if companies, they invest in, are making prudent, intelligent choices that will not have detrimental effects on our climate.
1922	MI	401k	IRA					Shareholders have a right to know the climate policies of the companies they are investing in.
1923	UT	401k	IRA		Stocks	Bonds		Shareholders need to know how their investments might be impacted by climate change.
1924	CA		IRA	Pension	Stocks	Bonds		Shareholders need to know their options in order to reject investing in anti-civilization policies and actions.
1925	DE	401k	IRA		Stocks			Short term financial profits at the expense of the climate is foolhardy, lazy and not responsible to the investing public.
1926	CA			Pension				SHOW ME YOUR CLIMATE RISKS NOW! Pretty Simple, huh!
1927	CA	401k	IRA		Stocks	Bonds		Show the risks, let investors make informed decisions on where to put their money.
1928	MO	401k	IRA			Bonds		Simply, I cannot invest or would PREFER not to invest in companies that have long-term, negative environmental impacts as inherent in their business model. I should be able to have that information easily available and this rule protecting the interests posing those impacts should be changed.
1929	MI			Pension				Since I have invested in my pension over the years of my employment, I have a right to know where my money is being invested. The choices made by the managers of my pension fund should be public knowledge so that I and others who receive the same pension can voice concern or support for investment decisions.
1930	CA	401k	IRA	Pension			Other Investments	Since my ability to retire comfortably is primarily based on 401K, IRA, Pension and other fund earnings, it's important that companies managing these funds are clear how they are addressing potential losses due to catastrophic climate-related risks. Please assume me you will address this issue.
1931	CA			Pension				Since we are all affected by the negative effects of climate change, we must be informed about who continues to put profits before the effects of these profits have on all of us.
1932	TX		IRA	Pension			Other Investments	Small cap sector will continue to be disproportionately affected by climate related changes-drought, unstable energy, famine and global increase in preventable illnesses.
1933	NY		IRA		Stocks		Other Investments	Small investors have long been given less than honest advise and less information than large ones.
1934	MD		IRA	Pension				Small investors must have access to information, especially about investment risk.

1935	WA	401k	IRA	Pension	Stocks	Bonds		So fairness exists.
1936	WA				Stocks	Bonds		So I can direct my investments into companies that aren't degrading the planet.
1937	TX	401k					Other Investments	So I can make smart decisions about risk with my investments and support companies in emerging technology that are going to be sustainable financially and economically for my money and our health. I want to see costs in total.
1938	NY	401k						So I can make sure my money is being invested in an ecological way
1939	MN		IRA					So I can see where they invest my life savings.
1940	VA	401k	IRA	Pension				So many seniors live on the brink of poverty. That number is only likely to increase as the population ages and fewer and fewer seniors have pensions. Steps must be taken to keep seniors' retirement funds safe. We must rely on public guardians to institute appropriate regulations because, as consumers, we are not able to do this ourselves. We are forced to rely on public accountability. Please do what is necessary to protect our vulnerable family and neighbors.
1941	FL		IRA	Pension	Stocks	Bonds		So normal investors have accurate information on their investments.
1942	WA		IRA				Other Investments	So potential investors can judge for themselves whether the company's policies are in line with the issues that affect them and therefore all of us, such as climate change, economic equality, etc.
1943	MI		IRA					so they are held accountable
1944	CA	401k	IRA		Stocks	Bonds	Other Investments	So tired of my money being used against me by corporate crooks
1945	MI		IRA	Pension	Stocks			So we can get a handle on the complete picture of this climate mess.
1946	KY		IRA		Stocks		Other Investments	So we can make wise decisions on investments for our (personal and the planet's) future.
1947	DE		IRA		Stocks	Bonds		So we invest in funds that helps to control climate change
1948	MI	401k	IRA		Stocks	Bonds		So you know exactly what your risk is.
1949	ME			Pension		Bonds		Social Security is obscenely short money to live on. Our retirement pile, with inflation, is shrinking. Poverty looms for average Americans and our government needs to take radical steps to keep the robber barons away from our modest means.
1950	NJ	401k			Stocks			Society has always picked up the tab for actors that make environmental debt. Time to let them pick up their own tab
1951	VT		IRA	Pension	Stocks	Bonds		Some companies are stepping up to protect our children---and our planet--- from the effects of climate change. It is imperative that Americans have the tools to determine which companies are investing in the future---and those which are, in fact, hastening the destruction of our planet.
1952	NC		IRA		Stocks	Bonds		Some of the biggest climate impacts come from companies and so standardized information would offer transparency and knowledge to the public so they could do pressure companies to do the right thing with regard to our planet.
1953	NY							Someone else takes care of it, but I will instruct them to favor companis that favor constructive action against climate change.
1954	MI		IRA	Pension	Stocks	Bonds		Something must be done to end the disaster of climate change. This includes full disclosure of the climate-related financial risks of public companies
1955	ME		IRA					Special interest and corporate lobbyists are controlling the SEC. Please act in the interest of all the people, especially fixed and reduced income seniors. Thank you!
1956	PA				Stocks			STAKEHOLDERS NEED ANNUAL, MANDATED STANDARDIZED INFORMATION ABOUT PUBLIC COMPANIES' CLIMATE-RELATED FINANCIAL RISKS.
1957	PA		IRA		Stocks	Bonds	Other Investments	Standard mandatory disclosure of climate-related financial risks would enable both individual and institutional investors to make informed decisions.

1958	FL	401k		Pension	Stocks			Standardized climate-related financial risk assessments should be a mandatory submission for the SEC, because climate change is a common risk all public companies will need to contend with as we move forward.
1959	CO	401k	IRA	Pension	Stocks	Bonds		Standardized disclosure of corporations' financial risks due to climate concerns allows investors to better understand and evaluate corporations based on that important investment criterion. Ultimately, this will help investors and corporations make decisions based on climate risks, and help reduce the behaviors that contribute to climate change problems.
1960	CA		IRA	Pension				standardized disclosures would give investors insight about a public company's vulnerability to climate change and current greenhouse gas emissions. It would also require companies to reveal plans to protect investors (and their retirement savings) from these risks.
1961	VA		IRA		Stocks	Bonds		Standardized information re public companies climate related investments will reveal whether or not the public companies are interested in being responsible for their activities that increase or decrease the release of pollutions that affect the health of not only humans but also all of the environment. That data would assist stockholders to determine if the public companies they are invested in are concerned about the care of our world. One empty world like Mars in our Solar system is enough!
1962	VA	401k	IRA	Pension	Stocks	Bonds		standardized information reporting is good
1963	UT							Stockholders deserve to know what our money support
1964	MN			Pension	Stocks		Other Investments	Stockholders deserve to know where their investments are going or being used. They deserve to know if sales are going to be made. It happened to us with a stock we had held for decades & we ended up having to pay a huge amount of income tax much more than corporations, ceos or most politicians & we were not given a chance to sell the stock.
1965	CA	401k	IRA		Stocks			Stockholders, investors, employees, all stakeholders and the general public need accurate and understandable information to make informed decisions.
1966	CT		IRA		Stocks	Bonds		Stranded fossil fuel assets are becoming more of a millstone dragging the economy down as each day passes.
1967	CO	401k	IRA		Stocks			Stranded oil, gas, and other assets will cost investors massive amounts of savings.
1968	PA	401k	IRA	Pension	Stocks	Bonds		Such information will be most helpful if it is framed so that the recipient will understand its importance for her/his financial well-being.
1969	CA	401k	IRA					Thank you for this rule. I do not want to invest in dirty fuels and dangerous climate risks. Thank you for making it possible for me to know what I'm investing in.
1970	CA	401k	IRA	Pension	Stocks	Bonds		thank you!
1971	MA		IRA	Pension	Stocks			That gives me the information I need to make meaningful choices within the family of funds my IRA s offer.
1972	GA						Other Investments	That way they can be held accountable.
1973	CA		IRA		Stocks	Bonds	Other Investments	That would affect how I invest a lot.
1974	NY			Pension				That's a no brainer. I have the right to now where my money is going.
1975	CO		IRA		Stocks			The actual costs of damage to the climate are passed on to consumers. These costs are never made clear by companies. I'm very concerned about the packages used by many companies that add to our land fill, especially plastics used. Companies need to be held accountable.

1976	NC		IRA	Pension	Stocks	Bonds		The air we breathe and the water we drink are critically important--without them life would not exist! Corporations that are endangering our air and water, taking climate-related financial risks, should be fully publicized, giving Americans the chance to boycott those companies and to give support for legally penalizing those companies.
1977	TX		IRA		Stocks	Bonds	Other Investments	The American people have a right to full disclosure of the impact of their investments. It's the ethical thing to do.
1978	MO		IRA		Stocks			The American public has every right to know what climate-related financial risks any public company in which they invest are taking!
1979	CA	401k	IRA					The American public is not informed on this problem!!
1980	AZ		IRA	Pension	Stocks	Bonds	Other Investments	The best single one thing that can best facilitate a robust, efficient, and generally beneficial economy for the most overall good is transparency. This will provided needed transparency.
1981	FL	401k	IRA	Pension				The BIG SHORT caused the financial crash of 2008 and wiped out most of my retirement. Public companies that are not informing the public about their climate-related financial risks are hiding something and assist the rich at getting richer off the backs of middle-class Americans who do not have money to lose. They want you to invest but do not want you know that your investment may be very risky.
1982	CO	401k						The biggest risk for our future is climate disaster. We need to utilize our financial resources to combat this looming problem now - it's not too late to change.
1983	CA		IRA	Pension	Stocks			The business and financial prospects of many corporations -- perhaps most -- are being affected by climate change, so investors need to know what company insiders think about how climate change is affecting and will affect their business going forward. My financial security may depend on how well my financial advisors and managers evaluate the relative risks corporations face as climate change becomes an increasingly important factor affecting corporate performance.
1984	MO			Pension				The citizens of the U.S. have a right to know if there investments are climate friendly, caring about future generations.
1985	MI		IRA		Stocks	Bonds		The climate can affect the high or low risk of my investments.
1986	IL		IRA					The climate challenges must be addressed head on and this is a way for us to see what companies are doing anout this problem.
1987	OR		IRA		Stocks	Bonds	Other Investments	The climate crisis affects all of us… which is why I support the SEC requirement that public companies provide annual mandated standardized info about their climate=related financial risks.
1988	NC		IRA	Pension	Stocks			The Climate crisis is already impacting our ability to grow food, raise livestock, our water, air, and especially our health. The pandemic and other diseases also are either caused indirectly or directly by the climate crisis and has made supply channels problematic. I want to know which companies are adding to these problems and do not want to invest in them. I also think that these companies will be financially impacted by the climate crisis and do not want to invest in them.
1989	MD			Pension	Stocks		Other Investments	The climate crisis is existential. Investors like me want to know whether the companies they invest in care about the future of everyone. Also, companies that ignore or exacerbate the climate crisis are not exhibiting good long range planning and thus are risky for long term retirement investments; investors need to know this.

1990	WA		IRA	Pension	Stocks	Bonds		The climate crisis is EXTREMELY SERIOUS -- and RAPIDLY GETTING WORSE! EVERY SECTOR of society must do EVERYTHING it possibly can to protect the climate! The SEC must take STRONG ACTIONS PROMPTLY to protect the climate!
1991	CA	401k	IRA	Pension	Stocks			The climate crisis is my biggest concern and I support all actions that move corporations to take responsibility
1992	NC		IRA		Stocks	Bonds		The climate crisis is not some future event- it is here now impacting millions of people all over the world. It is increasing volatility in weather and producing extremes we have never seen before. The public deserves transparency on how companies are contributing to the climate crisis. Lastly, as the transition to a fossil fuel free economy eventually accelerates (it must), companies that hold on to fossil fuel related businesses will be left with stranded assets and debts - that financial risk must be disclosed.
1993	TX		IRA					The Climate Crisis is the defining issue of my lifetime. I want to know that my IRA is being used in responsible ways.
1994	PA		IRA					The climate crisis is urgent and deadly. Everyone needs as much information as possible about what is happening in the world and the risks of all actions and inactions.
1995	OH	401k	IRA		Stocks	Bonds		The climate crisis requires a major (if not radical) transformation of our entire economy, and the private sector must play a big part in that.
1996	NY		IRA		Stocks	Bonds		The climate crisis will have a worsening effect on our economy.
1997	NY		IRA		Stocks	Bonds		The climate crisis/global warming is real and we, as investors, deserve to know what companies are doing to improve our world no matter where their locations are throughout the world.
1998	AK	401k	IRA	Pension	Stocks	Bonds		The Climate emergency has started in earnest and is only going to accelerate since we aren't taking concerted action to stop it. From here on out, the risks will escalate. The public deserves to know to what degree and in which ways their money is being put at risk.
1999	CA	401k		Pension		Bonds		The climate emergency is the greatest threat confronting humankind at this moment. I want to know what the companies I invest in are doing to improve or worsen our situation.
2000	CA		IRA	Pension	Stocks	Bonds		The climate is a dire problem for us all. We need information so we can support only companies that are investing in a climate safe future!
2001	WA					Bonds		The climate is changing in ways that will destroy some companies and require great changes in others! Investors need to know these changes.
2002	WA	401k	IRA	Pension	Stocks			The climate is important, no, critical to the survival of the world. Short or long-term profits will not matter when the ocean has risen so much that, worldwide, islands have disappeared, coasts have been submerged and people have had to move into more and more highly populated areas.
2003	LA		IRA	Pension	Stocks			The climate is in crisis, and is now undermining not only the lives of humans across the planet, it is now undermining the US economy which will not be able to sustain itself unless swift action is taken. Transparency will force that action on corporations which are well-positioned to make a real difference in the climate outcomes of the future. They bear enormous responsibility for this and must be held accountable.
2004	ME				Stocks			The climate problem is contributing to the increasing cost of many things that we need to buy.
2005	CA	401k	IRA		Stocks	Bonds		The climate risks, water risks and environmental risks have just become so high we need companies to disclose those risk exposures. Ordinary Americans face the risk of seeing their savings or retirement wiped out otherwise.
2006	MO		IRA				Other Investments	The climate WILL affect everything we do!!!

2007	MD		IRA	Pension	Stocks	Bonds		The constant reorganizing that occurs within organizations happens often. It is impossible to monitor what this means, unless one is working in finance-related work. Regulations haven't kept up with these changes.
2008	VT		IRA	Pension				The corporations running the country should be required to report what they are doing to the environment.
2009	NH	401k						The damage will be long-term and cost EVERYONE. Everyone should be able to view their influences for good or ill.
2010	NY		IRA	Pension	Stocks	Bonds		The danger of climate change is increasing. Investors should be protected from the irresponsible actions of corporations that both damage the value of their long-term investments and the fundamental climate environment on which life, and our society, depend.
2011				Pension				The destructive impacts of climate change make the reduction of all types of pollution ASAP humanity's primary existential priority.
2012	WA			Pension				The deterioration of our climate/environment is the #1 threat right now to our planet and all species. Well researched scientific predictions indicate that it will only get worse, likely exponentially. Public companies must be transparent with the public about the extent to which their products/actions/behaviors are contributing now and in the future to climate chaos. This is essential information for potential investors. Many of us care very much about having as healthy as possible a planet now and forever for our grandchildren to have grandchildren. Saving our planet's health holds much higher value than short-term profits that come at the expense of continued environmental devastation.
2013	MN	401k	IRA	Pension				The devastating impact of change on investments will be here before long. As an investor, I'd like to know what companies I invest in are doing to try to mitigate its impact on their share values.
2014	NY	401k	IRA		Stocks	Bonds		The dividends from any company contributing to climate change are the equivalent of blood money, and receiving them makes me a collaborator. Not acceptable.
2015	NJ		IRA		Stocks	Bonds		The Earth is in crisis. Money is not much use when climate becomes intolerable.
2016	NY		IRA		Stocks			The Earth is running out of time before we reach a great tipping point where it becomes IMPOSSIBLE to make any changes to keep the Earth in any semblance of what we have now. At that point, we move into scary uncharted territory.
2017	NC	401k	IRA	Pension	Stocks			The economic value of companies will change greatly as the effects of Climate Change play out. American agriculture is being hammered. World wide agriculture is getting hammered.
2018	ID	401k			Stocks	Bonds		The effects of climate change are becoming more damaging every day and people need to be aware of the financial risks, as well.
2019	CA	401k	IRA	Pension				The effort to turn around climate change requires forward movement on many fronts, including changes such as this one!
2020	MD	401k	IRA	Pension	Stocks			The environment and climate change are my top priority. The degradation of the environment is and will continue to cause pandemics, droughts, and extreme weather events. I want green investments only.
2021	NY		IRA					The environment provides us everything we need, money is a shared concept with no objective benefit to the world.
2022	WA	401k		Pension				The fact that we are at an environmental tipping point makes mandating disclosure of this information absolutely essential.

2023	NM	401k	IRA	Pension	Stocks			The FASB should develop and implement standard accounting rules for identifying and quantifying liabilities relating to enironmental damage, pollution, it's cleanup and remediation. Thus is especially relevant to extractive industries and manufacturing industries. Investors are flying blind without this information.
2024	CA		IRA		Stocks	Bonds		The financial plans are not transparent and unless you have a broker who is aware of where the money is invested, it's almost impossible to know.
2025	CO						Other Investments	The financial sector must do what is right regarding our climate just as we all should and we need to be informed.
2026	CA	401k						The financial system's engagement is absolutely crucial if we have any chance of addressing the climate crisis. This rule is simply common sense
2027	CA	401k	IRA					The flooding of all coastlines worldwide could lead to the displacement of hundreds of millions of people. The economics of displacement on such a massive scale are highly unprofitable.
2028	WA		IRA		Stocks	Bonds		The fund managers I count on need to know the risks in order to manage the mutual funds I invest in. And I need that information too!
2029	NY		IRA		Stocks	Bonds		The future costs for societies and corporations of climate change and the regulations necessary to address it will be huge. It is time for companies and governments to pull their heads out of the stand and squarely face the challenges that lie ahead.
2030	MN		IRA		Stocks		Other Investments	The future of our society depends upon our resolution of the global warming/climate change issue. All investors need to be aware of what each and every company is doing now and what risks exist in terms of investing in companies that are not addressing this issue. Capitalism can respond and make a difference when the truth is out in the open.
2031	CA		IRA		Stocks	Bonds		The future of our way of life depends on it.
2032	MA	401k						The future of the climate will have consequences for all corporations.
2033	CA						Other Investments	The Global Humanity DEMANDS this milestone be codified!!
2034	CA		IRA		Stocks			The government is invested by tax payers Public companies are invested by share holders The government is more transparent then companies. Companies make billions more and pocket the funds instead of reinvesting it into communities
2035	AZ			Pension	Stocks	Bonds		The greedy only get greedier! What they don't tell you is how much they earn by not addressing climate change!
2036	NC				Stocks	Bonds	Other Investments	The health and well being of our planet is central to everyone's well being, physical and financial. Wall Street and its darlings have used everyone's investments for way too long…how about time for integrity and concern for all beings.
2037	CA		IRA			Bonds		The health of the planet must be the priority financial consideration for investors today, for the future wellbeing of the planet, our children and our grandchildren tomorrow. The ability to prioritize climate consideration when investing in public companies requires a knowledge of their climate-related financial risks. Fairness to investors require they be disclosed.
2038	PA	401k	IRA					the health of the planet should not be sacrificed for people's financial futures; we need healthy wealth stability as well as a healthy planet!

2039	PA	401k		Pension				The health, sustainability and future of our families, our economy and our very planet depend on our knowing just how our hard earned money is being invested! If it is being invested in high risk environmentally damaging businesses and schemes, in the long run or maybe sooner than we know, all may be lost. We must have the right to know and act before it's too late!
2040	FL	401k	IRA		Stocks	Bonds		The hidden risk of climate impact is unacceptable. Please level the playing field for the average American investor.
2041	NM		IRA					The impact of climate events is already part of our life. Companies are factoring these risks in ways that impact individuals. This includes things like the cost of insurance and changes in underwriting criteria. The more transparent these changes are, the more the individual consumer can make rational decisions about their investment and savings plans
2042	CA		IRA	Pension	Stocks	Bonds		The information on climate-related risks is essential to wise investing strategy as part of my financial planning. Such information also is vital to collective investment strategies that will promote the best possible future for our children and a sustainable future of planet earth.

2043	WA			Pension				The intent of the executive order is to protect pensions from loss and also to decrease the impacts of climate-related disaster on the US economy and financial systems. Surveys show that citizens are worried about climate. Transparency is vital for citizens; easy access to information is vital. I am asking the SEC to go beyond transparency and recommend to investment managers that the identified specific assets are inappropriate for pensions because of their climate-related impact on life savings and US financial security. I find identification of specific inappropriate assets necessary because pensions have taken little action even though it has been clear for many years that 1) fossil fuel investments lag the market and decrease profits; 2) climate disaster costs are heavy and increasing; 3) investment by US pensions in fossil fuels is so large that US funding is putting life on the entire world in peril; 4) climate change poses serious and systemic risks to the U.S. economy and financial system/financial stability; 5) the US economy would shift to clean energy if not for massive pension investment in fossil fuels; 6) most citizens in the US are very worried about climate and do not want their money promoting fossil fuels. At least half of fossil fuel investment by state pensions is through private equity firms, insurance/investment companies, and banks. It is vital that these pension and retirement account investments be disclosed. Pensions are presently increasing investments in private equity; private equity is increasing climate destroying new fossil fuel investments which are inappropriate for retirement accounts and pensions. These companies include: The Blackstone Group, The Carlyle group, KKR, Arclight Capital partners, Global Infrastructure Partners, Kayne Anderson/Plains All American Pipeline, Oaktree capital, Warburg Pincus, Riverstone Holdings, Encap, NGP Energy Capital, Brookfield, Apollo, TPG, CVC. https://pestakeholder.org/wp-content/uploads/2022/02/PESP LS PrivateEquityDirtyDozen Feb2022-Final.pdf. Continued investment in these indirect investment in fossil fuels causes at least as much damage to the US economy, the climate and financial stability. Disclosure is vital. Unless the SEC identifies and requires disclosure of assets which pose climate-related risk, change, if any, will not be fast enough to avert serious and systemic damage to the U.S. economy and financial system/financial stability as well as citizens' life
2044	CA	401k	IRA	Pension				The issue of climate change is existential; we need to care for the only planet we have: Earth! Making money should not be more important that good stewardship of our planet to ensure the welfare of our children, their children, and generations more. I would love more information to help me as well as investment organizations make purchase decisions supporting preservation of planet Earth.
2045	NY	401k	IRA	Pension				The lack of accountability for corporation's choices have an impactful consequence for all of us. This new rule is a step in the direction of taking care of people and planet.
2046	CA	401k		Pension	Stocks	Bonds	Other Investments	The lack of corporate transparency is dangerous, on many subjects. In terms of climate change, it is nothing short of deadly. There is, I think, this near-unconscious idea that money can buy safety, therefore more profit equals more safety. This is factually wrong as well as morally unconscionable. The only way that people, INCLUDING STOCKHOLDERS, will be able to attend to this is by having mandatory disclosures.
2047	CA	401k						The last thing I want is to have my money invested in companies that do not align with my values.

2048	OR	401k		Pension				The long term risks are actually short term as we are experiencing climate change destruction and wars to control oil. As a pensioner, I want to know that my retirement is put to use for a future that regards the health of the planet and the potential for our children uppermost in the decision framework of investment funds.
2049	TX	401k		Pension				The managers of these funds take their profits and let our money disappear. There is no protection. If we withdrawn it we pay taxes and then more taxes on Social Security.
2050	MI	401k	IRA					The markets rely on transparency to be fair and effective. We deserve to know.
2051	WI		IRA		Stocks	Bonds		the more companies hide or avoid taking responsibility for their environmental impacts. the less respect they earn and cultivate. Not recommended!
2052	VT		IRA					The more info to public, the better.
2053	PA			Pension	Stocks			The more information that I receive means that I can make informed decisions to support the necessary actions for addressing climate change.
2054	WI		IRA	Pension	Stocks		Other Investments	The more information we have to guide our investments and our efforts to make our society and our planet safe the better.
2055	GA			Pension	Stocks	Bonds		The more we all know, the better!
2056	WA		IRA	Pension				The only way that public companies will deal with their climate impacts is if they are required to disclose the associated risks to their bottom line on a regular basis. Markets are supposed to function on full information, right? Investors need to know companies' climate-related financial risks to make fully informed decisions. When investors walk away from companies whose profits are at risk from climate change, those companies will take measures to reduce or eliminate their risks, which might help save life on earth.
2057	MN	401k		Pension				The ONLY way the US will truly succeed in improving our odds in fighting or even lessening the effects of Climate Change is by holding all Corporate entities as well as the people who profit from them responsible for their investment in climate damaging activities.
2058	FL		IRA					the only way to affect climate change is to address it from all angles, this angle is important
2059	NY	401k	IRA	Pension	Stocks	Bonds		The only way we'll be able to improve the climate crisis is to keep all companies accountable.
2060	CA			Pension				The pension plan investors that work for the retirees need transparent information to make the most informed and prudent investments. Our security depends on this.
2061	IA			Pension				The people who care for my pension act like it's their money!
2062	MD	401k			Stocks			The power & scope of corporate enterprises and the critical state of our climate/environment.
2063		401k	IRA		Stocks	Bonds	Other Investments	The public deserves to know this information regarding companies that it may invest in.
2064	CA	401k	IRA		Stocks			the public has a right to know the effect a company is having on climate change before deciding to invest
2065	FL			Pension				The public has a right to know which corporations are causing existential threats to life on Earth!
2066	NY	401k			Stocks	Bonds		the public holders of great wealth have to be clear about what drives their financial decisions.
2067	CA							The public needs an annual report because the corporations will not do it on their own.
2068	CO	401k					Other Investments	The public needs to know what their holding companies are doing in order to have informed consent about their investments!
2069	NJ	401k		Pension	Stocks	Bonds		The public should be able to know which investments are green & which are not. That way decisions can be fully informed rather than partially blind.

2070	NY			Pension			Other Investments	The public should have all the information necessary to be able to make responsible decisions about how it invests.
2071	DE				Stocks			The public should know how business organization are working to help solve climate change.
2072	WA	401k		Pension				The public would be served if we were to be informed about the behind the scene dealings of big corporations.
2073	CA		IRA					The reason I do not have stocks or bonds is due to Wall Street's and the Big Banks' lack of transparency during the recession. I lost all of those savings!
2074	CT				Stocks		Other Investments	The recent roller coaster white water rough ride of the markets is absolutely nauseating. Anyone not having any understanding of what sets the markets off is frightening for those who panic vs staying the course is unnerving.
2075	PA							The risk statements issued by corporation quarterly and annually should certainly include ALL business risks so as to not misrepresent existing conditions to investors. Climate is certainly a risk to most.
2076	FL	401k						The risks to my investment
2077	OR							The scales are already tipped against the individual investor. To add climate risks to the asynchronous information gap will be deadly to the many, for the benefit of the few who have enough money to manipulate truth with timing.
2078	CT	401k	IRA		Stocks	Bonds		The SEC must make companies disclose how their activities affect global warming because few companies will disclose this information without being forced to.
2079	DC						Other Investments	The SEC needs to hold companies accountable for climate-related decisions that increase risk for investors, everyday people such as librarians, teachers, first responders, and customer service agents. Investors need to be protected from American citizens need to know about climate destruction that makes public companies vulnerable. That's why, as an investor, I support this proposed rule, and why I support a stronger proposed rule that would require the inclusion of disclosures around environmental justice, Indigenous rights, a just transition for dislocated workers, and community-level impacts.
2080	CT	401k		Pension				The SEC needs to rein in Wall Street and their financial schemes that take money from hard working Americans and enriching themselves in what can only be viewed as unending greed
2081	NC	401k						The SEC should mandate standardized information about public companies simply because it is the right thing to do...further, public companies receive their wealth from us - period - we deserve to know what they are doing in regards to climate-related risks and any other area of interests. Thanks AFR for all you do!!
2082	MI		IRA	Pension	Stocks	Bonds		The SEC should protect investors by mandating standardized information about climate-related risks to holdings of public companies. It only makes sense to protect the public, the future, and the environment!
2083	SC		IRA		Stocks	Bonds		The SEC's new proposed disclosures would give investors more information about all public companies' climate-related financial risks. It would also give small investors, like retirement savers with 401ks or pensions, access to the same quality, standardized information as large, wealthy investors. Together, the proposed disclosures will help level the playing field for all investors. It's only fair.
2084	OH	401k	IRA	Pension	Stocks	Bonds		The SEC's report and other such reports may add to our conversations with our advisors
2085	AZ						Other Investments	The time for reform is now! It has been hidden from investors too long as to what measures they are taking toward mitigating climate change. They need to step up and stop hiding behind largely false rhetoric and do the right thing.
2086	AZ		IRA	Pension	Stocks	Bonds		The true cost of ignoring the impact of climate change due to the use iof fossil fuels needs to be understood.

2087	CA		IRA		Stocks	Bonds		The true environmental costs of our commerce aren't included in the prices we pay, and remains invisible. If the cost of remediating ecosystems, greening communities, etc and the exposure public companies carry to this financial risk are not published, then the investor does not know the true cost or value of an investment.
2088	PA			Pension				The use of public dollars should be enshrined in transparency and should not be invested into anything further enabling the climate crisis. Such investments are beyond risky and have literal deadly impacts.
2089	NE	401k						The value of future investments are tied to climate risks.
2090	CA		IRA	Pension	Stocks	Bonds		The value of my holdings will be affected by climate change and how corporations respond to current and future regulations to minimize their greenhouse gas emissions.
2091	NM		IRA					The window for action on climate change is almost closed. The effects are everywhere: mammoth storms, fires, pandemics and other climate related disruptions are threatening the planet. Everyone needs to get on board now to fight climate change and preserve our planet for future generations.
2092	NY			Pension			Other Investments	The working class cannot afford to lose all of their investments that are needed to live on in retirement.
2093	VA	401k	IRA	Pension	Stocks			The working woman and man should no longer be penalized by the faults of abuse by the wealthy, powerful people that continue to abuse our environment for power, profits and gain!
2094	IN	401k						The world is a big place climate change is not something that should be ignored for personal gain or profit margin. Let's do some good with your position forcing the companies to be more accountable for what they want to do or not do to protect Our world before it's too late.
2095	NM		IRA		Stocks	Bonds	Other Investments	The world is in a crisis, whether everyone believes it, or is aware of it. It will affect investments, just like it's affecting practically everything else.
2096	CA	401k						There is a 30-year lag between the time that greenhouse gases are emitted and when the effects are felt. The catastrophic wildfires, drought, and floods we are experiencing today in California alone and well beyond are largely due to emissions from 30 years ago. We have no more time to waste. COVID has taught us that united, we can move swiftly to meet a crisis. The climate crisis is now. Take swift and strong action now.
2097	MD	401k	IRA		Stocks			There is a cost for pollution which should be recognized in the pricing model for corporations. By hiding these costs, corporations are pushing the cleanup to a later ate when it will be more expensive and maybe too late to do.
2098	NC	401k	IRA	Pension	Stocks	Bonds		There is an inherent conflict of interest between ordinary saver/investors and the big financial corporations in which their savings are invested. This petition and cause are meant to correct the information imbalance dictated and perpetuated by the corporate interests of the big financial corporations. It is little enough and long overdue.
2099	CA	401k	IRA		Stocks	Bonds		There is entirely too much concentrated power, and too little public accountability, in the financial services industry. Ordinary workers have little choice over whether they have holdings in accounts that may be invested dangerously and/or destructively. There should be strong oversight and accountability to ensure worker security and a habitable future.
2100	MO		IRA		Stocks	Bonds		There is no "Planet B" for the foreseeable future. Intelligent beings would plan accordingly!
2101	VT	401k						There is no capitalism without reliable information.
2102	CA		IRA		Stocks	Bonds		There is no Planet B we must stop subsidizing the climate crisis
2103	NJ	401k	IRA		Stocks			There is no point in investing in my future and my son's future, if those investments are also destroying the future. We urgently need to halt the destruction of our climate and our ecosystems. Do the right thing and make companies accountable.
2104	WA			Pension	Stocks	Bonds		there is supposed to be full disclosure of risks and potential benefits. Influence by company execs should NOT be allowed or listened to.

2105	VA		IRA	Pension	Stocks			There must be much more transparency and serious action by companies to move away from risky and irresponsible investments in light of the climate crisis.
2106	FL	401k						There needs to be clear transparency in how these funds are used. People are not to be hustled for short-term gains.
2107	MD		IRA	Pension	Stocks	Bonds		There needs to be transparency about where our investments are going,
2108	WI				Stocks			There should be full disclosure so we all know what companies are doing with our Money
2109	TN				Stocks			There will be an impact to the bottom line. Investors need to know about this.
2110	IN		IRA		Stocks	Bonds		There will undoubtedly be an uproar over this rule. My question is, why shouldn't I be given this information to use as I see fit? Someone who disagrees with it has no right to restrict me from seeing and using the information as I wish.
2111	CA			Pension	Stocks	Bonds		There's no planet B so I support annual mandated standardized information about public companies climate related financial risks.
2112	CA	401k	IRA	Pension	Stocks			These are invisible long range risks at this point, with no way for a regular person to how climate change impacts our investments.
2113	FL				Stocks			These big corporations need to stop mucking around with our money in an irresponsible manner!
2114	TX	401k						These companies do not care about anything but profit. It is unfair that climate related risk is falling on individuals when these companies make decisions every day that affect us adversely. It is well past time that these regulatory agencies start protecting people. That was always their mandate and the reason for their existence.
2115	NC	401k	IRA		Stocks			These disclosures would help me invest
2116	PA		IRA	Pension	Stocks	Bonds		These funds are all my income in my retirement years. Without them Social Security would not be sufficient to live and have healthy.
2117	AK		IRA					These investments are largely out of an individual's control. It would be helpful to know where are funds are invested.
2118	IN	401k	IRA	Pension				These types of investments are the most common for the majority of Americans. And they need to reflect the concerns for our environment.
2119	CA	401k	IRA	Pension				They are investments for the future that have an impact now, as well as directly impacting our future
2120	OR	401k	IRA	Pension	Stocks	Bonds	Other Investments	They have my money. I want to know what they're doing with it.
2121	NH		IRA				Other Investments	They need to be held accountable for what they do. AND, we have a right to know what they are doing with OUR money
2122	WA	401k	IRA	Pension	Stocks	Bonds		They should know what they are doing with these funds
2123	IL	401k						Thinking about the future should lead Americans to invest in a Sustainable Future for all!
2124	CA	401k	IRA	Pension			Other Investments	This communication is vital for maintaining transparency and allowing investors to have full access to the facts they need in order to make informed decisions about their investments and who they choose to invest on their behalf.
2125	CO	401k						This disclosure is very important. I want to invest more but I hold back significantly due to the climate concerns. These investments are exactly what are destroying our planet for all future generations. Its a short term gain in ones financial security in exchange for the entire planet and generations to come. Its a win LOSE situation. In the most epic proportions. Something desperately needs to change and this is a good start.

2167	WA	401k	IRA		Stocks	Bonds		This is the best way for me to evaluate long term viability of my investments as countries across the globe make laws to force companies to address their climate impacts. Without this reporting, companies could fool investors as to the long term viability of their business both at home and internationally. Without this reporting, there would be unfair competition by companies who "cook the books" to externalize their carbon impacts.

2172	NM	401k		Pension	Stocks	Bonds		This is very least they can do.
2173	CA	401k			Stocks	Bonds	Other Investments	This is vital for all Americans who have investments that need to be managed. Climate chaos and how we as a country address it is crucial. 2198	CO	401k	IRA		Stocks	Bonds		Time is running out on stopping carbon emissions that cause climate change. Private enterprise has proved that they "follow the money" instead of protecting my grandchild from climate changes that threaten her future, from where she lives to whether she can breathe easily, to the water she drinks, to whether she develops cancer -- all dependent on the location where she lives. Please give these private equity firms an incentive to think about more than shareholder's return -- regulations.

2209	ME	401k	IRA		Stocks	Bonds		To incite people to invest into funds that are harmful, is a non sense. Why invest for the future, when the investment itself is robbing you of said future?
2210	MI	401k	IRA	Pension		Bonds		To keep all programs transparent to the public, it is important that this information is shared w/ the stockholders. It would also be easier as a comparison between corporations to compare apples to apples.

Billions of dollars in real estate will be lost in the next decade alone, agricultural output will diminish, and weather related infrastructure and business damage will mount, as it has been doing even in recent years. 2334	CA				Stocks			We are in an ALL HANDS ON DECK climate crisis. All financial institutions must realize this and take appropriate action.
2335	CA		IRA				Other Investments	We are in extreme trouble in part because we have failed to price in the cost of CO2 emissions and make climate polluters bear those costs. The first step toward doing so is to require companies to report on their climate risks and emission-producing behavior. PLEASE act now to require public companies to report on their climate-related risks.

I don't want my money being used to fund my demise, and I need to know if the places I'm investing in are using my investment in an ecologically responsible way.
2520	MD		IRA	Pension				When as individuals we often have no choice as to our retirement program options, it is nice that there is responsible federal oversight on all retirement program options.
2521	TX	401k	IRA	Pension				When I opened my 401K and IRA that included stocks and bonds, I opted to go with socially responsible investments even though they were not very popular at the time (starting in 1990) and had a lower return than investments that included oil, gas, guns, and polluting companies because I felt strongly about these problems. I rolled over to Calvert Funds when I learned about them even though I lost money. Transparency on my investments is very important to me.
2522	NY		IRA		Stocks			When I vote my shares, if a company asks about where I stand on climate- they ask me to vote against. I always vote for. I believe shareholders have a right to tell boards they must disclose more info; on climate, on social equity and on hearing and voting on other shareholder ideas.
2523	MN				Stocks			When information is not mandated nor made annual, then anything can take place behind investors backs.
2524	CA	401k	IRA	Pension	Stocks			When investing for retirement it's hard to know which companies have positive ethical standards or are really good or bad for the environment.
2525	CA	401k	IRA	Pension				When investing, I would like to eliminate those that contribute to climate change. Please provide this information.
2526	VA	401k			Stocks	Bonds		When making investment decisions, which are linked to our future, we must also be able to consider the future viability if the business and whether it is contributing to the destruction of the environment and climate change. Our future absolutely depends on a healthy environment.
2527	OR	401k	IRA	Pension				When our funds are invested in mutual funds, we don't control ownership in polluting or fossil fuel companies. The more oversight to protect the environment, the better.
2528	MA	401k	IRA		Stocks	Bonds		When people want to invest their hard-earned money, they should have access to important information about public companies and that should include climate-related financial risks. My husband and I have done the best we could to divest directly from fossil fuel companies as we don't want the financial risk.
2529	PA	401k	IRA	Pension	Stocks	Bonds		When you live on whatever you've invested, anything that may harm that investment is terrifying. Climate change heads the list. We cannot make coherent financial decisions without clear information.

2530	CA		IRA					When you retire you need to keep what you saved for your retirement that is in a safe secure place
2531	PA	401k	IRA	Pension	Stocks	Bonds		When your future security, health and well-being depend upon your lifetime of savings, it is very important to ensure that the securities are not negatively impacted by climate change. It is important that the individual investor has full disclosure of risks involved in their current investments and any future investments they make.
2532	PA	401k	IRA	Pension				Whether it's about my individual accounts or the pension fund, I would like to know that the money in them is working toward clean energy & not making things worse. As investors, I believe we have a moral obligation to invest with companies that are striving towards a better tomorrow for all of us --- not just the bottom line for a few.
2533	WA			Pension	Stocks			While the financial risk might not be in play now, future conditions, rules, and regulations might make the investment very risky.
2534	CA	401k	IRA	Pension				Why give investors only part of the picture? I want to know the whole picture, including Scope 3 emissions. I care about climate change and Scope 3 will determine what I invest in!
2535	NY	401k	IRA		Stocks	Bonds		Why shouldn't there be transparency regarding public companies' climate-related financial risks? There should be mandated, standardized information about public companies' climate-linked risks available to people like me, with all of their retirement money invested in the 401K or 403B retirement funds.
2536	VT	401k	IRA		Stocks	Bonds		Wish to invest in companies and funds that care about and work to reduce global warming.
2537	OR		IRA		Stocks	Bonds		With corporations controlling so much money, we MUST start reigning in their use of the $$s we invest.
2538	IA	401k					Other Investments	With our economy in shambles it is important for investors to know any risk associated with our contributions.
2539	CA			Pension				With public companies, our retirement funds have a voice to force change as shareholders. These rules would help our Funds seek more compliance with the PE world. These rules are so important to pass! As a fund trustee of the largest pension fund in the country, I hope to see these rules adopted! Thank You!
2540	OR		IRA	Pension			Other Investments	With the current climatic state of our planet, we all have a need to know the climate-related financial risks of public companies.
2541	KS			Pension				With the investment and administration of my pension through a brokerage I feel is imperative to mandate the disclosure of all financial risks, including climate-related financial risks.
2542	CA	401k				Bonds	Other Investments	With the significantly increasing risks to physical assets and from geopolitical stability brought on by climate change, it is incumbent upon those providing financial instruments to fully disclose the complete risks my investment faces.
2543	AZ			Pension				With this information, pension holders can pressure pension fund to invest wisely regarding climate issues and threats.
2544	CA		IRA	Pension	Stocks			Without creditable information it is impossible to make an informed decision.
2545	PA	401k	IRA					Without disclosures our savings are often used against our beliefs.
2546	WA		IRA		Stocks	Bonds	Other Investments	Without full climate impact information on my investments I cannot make informed decisions about either the financial risk exposure to (needed) climate regulations or the alignment of the investment with my own values, both of which I feel I have some right to know.
2547	MA	401k	IRA		Stocks	Bonds	Other Investments	Without full disclosure of all emissions, including Scope 3, I cannot make effective decisions about my investments aimed at supporting corporations that are making progress on total emissions reduction.
2548	WA	401k	IRA	Pension	Stocks		Other Investments	Without it, we are no longer investing we are gambling

2549	CA						Other Investments	Without mandated disclosures, many public companies will just continue to trash the earth, our only home.
2550	DE		IRA	Pension				Without my retirement programs, my income would fall to below poverty levels. And that's after spending 37 years teaching in tough, urban school.
2551	CA	401k	IRA		Stocks			Without reporting climate related risks, an investor is not getting complete investment information. It is imperative that all information be disclosed.
2552	MI		IRA					Without that information, my default assumption is that the risk is significant. Therefore, I invest as little as possible.
2553	MD		IRA					Without the information we can't know what to do.
2554	MA			Pension				Would like to know where my money is invested
2555	OR			Pension	Stocks	Bonds		Would love to see ANY steps toward standardizing companies' responsibility for planning and acting in ways that do not create even more damage to the climate (even if they simply see it as necessary part of making money for investors.)
2556	MI	401k	IRA	Pension	Stocks	Bonds		Yes, I support this effort for mandated information.
2557	NY	401k		Pension				Yes, I support your proposal to make transparent the climate related risk of each company. Thank you very much for advocating for the consumer and investors.
2558	NY						Other Investments	You have the power to make a literal world of difference. Use it on behalf of all of us.
2559	NY	401k	IRA		Stocks			You must do this because we need to know.
2560	AK		IRA		Stocks			You must protect our life savings. We worked hard for our money!
2561	CA	401k	IRA	Pension	Stocks	Bonds	Other Investments	Your proposed rule will make it much easier to get this information. Right now, I have to try to research it myself and I know a lot of it is buried in places I would never think to look. Not to mention not having enough time to do a thorough job.
