## **AMERICANS FOR FINANCIAL REFORM**

---

To All Members of Congress:

Some of the very first acts of the 114th Congress have been directed against the Consumer Financial Protection Bureau and the reforms of the Dodd Frank Act. We are alarmed by these attacks. This is not an agenda that America voted for.

We call on you to reject any changes that would weaken the CFPB's ability to protect millions of Americans from financial scams and predatory lenders, including alterations to the agency's leadership structure, funding, or regulatory authority. We urge you to take a strong stand for, not against, the cause of a fairer, more transparent and safer financial system.

Sincerely,
