International Day of Action:
MAKE WALL STREET PAY

Washington, DC – USA Action

Thursday, November 3, 2011

11:30 am – Lafayette Square

3:00 pm – Lobby on Capitol Hill

As the leaders of the G-20 nations meet in France November 3, 2011 to address the global economic crisis, join with nurses, consumer advocates and union allies as part of actions around the world to send a message from Main Street: **Wall Street must pay for the devastation they've caused to our communities.**

A Wall Street Financial Transaction Tax (FTT) can raise \$350 billion per year in the U.S. to provide living wage jobs, guaranteed healthcare, a secure retirement for all, quality public education, good housing and protection from hunger. European workers want the benefits of the FTT in their own countries as well.

November 3, 2011, we will tell Congress and economic policy makers in Washington: TAX WALL STREET.
